

HISD PRESS RELEASE

FOR IMMEDIATE RELEASE

January 23, 2024

HISD Announces 2023 School Ratings and New NES Schools

The Houston Independent School District (HISD) today announced individual school ratings. The ratings are based on state accountability data for the 2022-2023 school year. Due to ongoing litigation, the Texas Education Agency (TEA) has not issued statewide accountability ratings. The state did, however, give districts the data and methodology that is used to calculate ratings and letter grades for campuses.

Using the TEA information, including state data that HISD proactively requested in the past month, the District's Assessment, Accountability, and Compliance Department performed the calculations. They indicate that HISD has 35 A rated schools and 58 B rated schools. It has 52 C schools, 65 D schools, and 58 F schools. (*See the Appendix—2023 School Accountability Ratings—for the complete list.*)

New Education System

The school ratings announced today are being used to determine which schools will join the District's New Education System (NES) in the coming school year (2024-2025).

NES schools:

- Use an innovative staffing model to ensure students receive consistent high-quality instruction. The model also allows teachers to focus on their core work and have better work-life harmony.
- Pay teachers and staff higher salaries and differentiate compensation based on the subject taught as well as rigorous teacher and leader evaluation systems.
- Have a specific instructional program and receive extra resources and support to dramatically improve academic performance.
- Provide Art of Thinking courses to teach students critical-thinking and problem-solving skills as well as how to assess, evaluate, and effectively use information.
- Provide specialty classes in the areas of fitness; music and fine arts; 21st-century media and technology; and hands-on science. These classes supplement schools' existing electives and magnet programs and are taught by community consultants with specific knowledge and skills.
- Offer free trips for students to experience new places and cultures.

HISD launched the NES at 28 historically underperforming campuses in the fall of 2023. At the same time, an additional 57 schools asked to be included in the NES; for the current (2023-2024) academic year, those schools are known as NES-aligned campuses. In the coming school year, HISD will not have a distinction between NES and NES-aligned schools. There will instead only be two kinds of campuses: (1) NES (encompassing existing NES, existing NES-aligned, and new NES schools) and (2) non-NES.

Six schools that received a low D (rating of 60 to 64) and 20 schools that received an F (rating of 59 or below) that are not already NES or NES-aligned campuses will join the NES in the fall of 2024. See the table immediately below for a list of these schools, their accountability ratings, and their letter grades.

Schools That Will Join the NES In 2024-2025		
School	Accountability Rating	Letter Grade
Almeda Elementary School	64	D
Crockett Elementary School	63	D
Golfcrest Elementary School	64	D
Northside High School	63	D
Peck Elementary School	60	D
Westbury High School	64	D
Anderson Elementary School	56	F
Askew Elementary School	54	F
Browning Elementary School	59	F
Clifton Middle School	57	F
Codwell Elementary School	51	F
Fonville Middle School	55	F
Gregory-Lincoln PK-8	59	F
Grissom Elementary School	59	F
Kelso Elementary School	58	F
Longfellow Elementary School	59	F
Milne Elementary School	47	F

Mitchell Elementary School	55	F
Ortiz Middle School	59	F
Sharpstown High School	50	F
Stevens Elementary School	54	F
Thomas Middle School	56	F
Walnut Bend Elementary School	58	F
Welch Middle School	59	F
Wesley Elementary School	45	F
Woodson Leadership Academy	57	F

Another 24 schools—those with a high D (rating of 65 to 69)—that are not already NES or NES-aligned campuses have the option to be considered for the NES. The principals of these schools will gather input from staff, families, and members of their Shared Decision Making Committees to discuss the opportunity and will let the District know by February 7 if the school is interested in being considered for the NES.

The District currently projects that it will be able to accept up to 14 high-D campuses for the NES in the coming school year. HISD will select those campuses by February 9.

Schools Eligible for NES Consideration		
School	Accountability Rating	Letter Grade
Austin High School	66	D
Bell Elementary School	66	D
Braeburn Elementary School	69	D
Deady Middle School	69	D

Emerson Elementary School	68	D
Foerster Elementary School	69	D
Frost Elementary School	69	D
Gross Elementary School	65	D
Hines Caldwell Elementary School	66	D
Jefferson Elementary School	69	D
Ketelsen Elementary School	69	D
Love Elementary School	66	D
Marshall Middle School	69	D
Montgomery Elementary School	69	D
Navarro Middle School	66	D
Neff Elementary School	67	D
Petersen Elementary School	66	D
Reynolds Elementary School	67	D
Ross Elementary School	68	D
Sanchez Elementary School	69	D
Shearn Elementary School	66	D
Southmayd Elementary School	68	D
Tinsley Elementary School	68	D

Valley West Elementary School	69	D
-------------------------------	----	---

“The ratings and letter grades released today are based on data from the 2022-2023 school year. While there were bright spots, the ratings generally show declining achievement,” **said HISD Superintendent Mike Miles**. “The good news, though, is that this school year we are seeing encouraging signs of progress. Preliminary data from our mid-year exams this year indicate that achievement is improving. Additionally, the data from mid-year exams indicate that NES and NES-aligned campuses experienced higher academic growth than our non-NES campuses. This is especially important because, on the whole, our NES and NES-aligned schools are further behind academically. HISD won’t turn things around overnight, but we are on the right path.”

The NES is the largest and most significant effort to transform K-12 education in the United States. While other districts have tried to improve schools by taking incremental steps—such as adopting a new curriculum or expanding certain programs—the NES involves whole-scale, systemic reform. It is designed to dramatically improve academic performance, close achievement gaps, and ensure Houston’s students graduate prepared for the modern workplace and world. An ambitious effort for the city—and, indeed, the nation—the NES has the potential to remedy decades of ineffective K-12 policies and prove what is possible for America’s students.

Innovative NES Staffing Model

Given NES schools’ extensive needs, employees at these campuses earn higher salaries than staff at other HISD schools. NES schools also differentiate compensation based on the subject taught and rigorous teacher and leader evaluation systems.

HISD 2024-2025 Teacher Salaries		
	Starting Salary*	5-Year Salary*
Non-NES schools	\$64,000	\$67,000
NES—Elementary School	\$75,435	\$81,435
NES—Middle School	\$80,059	\$86,059
NES—High School	\$82,816	\$88,816
<i>All salaries for non-NES teachers include a planned \$2,500 increase for the 2024-2025 academic year. In the NES schools, compensation varies by subject matter taught. Thus, the starting salary listed is an average of the teachers’ starting salaries for a school. The five-year salary is also an average of the teachers’ five-year salaries. More information will be included in the HISD Compensation Manual, which will be published in February.</i>		

In addition to higher salaries, NES teachers have a range of other resources. These include a centralized team that creates the daily lessons, which can be customized as necessary, so teachers do not have to spend a lot of time outside the school day building lessons from scratch. Teachers receive regular coaching from instructional experts and are supported by teacher apprentices and learning coaches. Teacher apprentices, who are pursuing their teacher certification, work alongside the teacher, learning the instructional model and effective teaching practices; co-teaching; substituting as necessary; and participating in the same training as teachers. Learning coaches, for their part, handle a variety of tasks outside the classroom, such as making copies and completing paperwork.

In December 2023, HISD released overall District accountability ratings. In preparing the campus ratings, the Assessment, Accountability, and Compliance Department worked for the past several weeks to perform additional quality checks before scores were given to each campus this morning. As a part of that process, the department needed to apply one final step of the TEA methodology. That resulted in an update to the overall District-wide information that HISD released last month.

The Houston Independent School District is the largest school district in Texas and the eighth-largest in the United States, with 276 schools and approximately 185,000 students. The 333-square-mile district is one of the largest employers in the Houston metropolitan area, with more than 27,000 employees.

HISD PRESS RELEASE

PARA PUBLICACIÓN INMEDIATA

23 de enero de 2024

HISD anuncia las calificaciones escolares del 2023 y las nuevas escuelas NES

Hoy el Distrito Escolar Independiente de Houston (HISD) anunció las calificaciones individuales de las escuelas. Las calificaciones se basan en los datos de rendición de cuentas estatal del ciclo escolar 2022-2023. Debido a litigios en curso, la Agencia de Educación de Texas (TEA) no ha emitido calificaciones de rendición de cuentas a nivel estatal. Sin embargo, el estado les dio a los distritos los datos y la metodología que se utiliza para calcular las calificaciones y las calificaciones con letras para las escuelas.

Utilizando la información de la TEA, incluyendo los datos estatales que HISD solicitó de manera proactiva el mes pasado, el Departamento de Evaluación, Responsabilidad y Cumplimiento del Distrito realizó los cálculos. Indican que HISD tiene 35 escuelas con calificación A y 58 escuelas con calificación B. Cuenta con 52 escuelas C, 65 escuelas D y 58 escuelas F. *(Consulte el Apéndice, Calificaciones rendición de cuentas escolar del 2023, para obtener la lista completa).*

Nuevo Sistema Educativo

Las calificaciones escolares que se anunciaron hoy se están utilizando para determinar qué escuelas se unirán al Nuevo Sistema Educativo del Distrito (NES) el próximo ciclo escolar (2024-2025).

Escuelas NES:

- Utilice un modelo innovador de dotación de personal para garantizar que los estudiantes reciban una instrucción constante y de alta calidad. El modelo también permite a los maestros centrarse en su trabajo principal y tener una mejor armonía entre el trabajo y la vida personal.
- Pagar salarios más altos a los maestros y al personal y diferenciar la compensación en función de la materia que enseñan, así como de los rigurosos sistemas de evaluación de maestros y líderes.
- Tener un programa de instrucción específico y recibir recursos y apoyo adicionales para mejorar drásticamente el rendimiento académico.
- Proporcionar cursos de Arte de Pensar para enseñar a los estudiantes habilidades de pensamiento crítico y resolución de problemas, así como la forma de evaluar, valorar y efectivamente usar la información.
- Impartir clases especializadas en las áreas de acondicionamiento físico; música y bellas artes; medios de comunicación y tecnología del siglo XXI; y ciencia práctica. Estas clases complementan las asignaturas optativas y los Programas Magnet existentes en las escuelas y son impartidas por consultores comunitarios con conocimientos y habilidades específicas.
- Ofrece viajes gratuitos para que los estudiantes vean nuevos lugares y culturas.

En el otoño del 2023, HISD lanzó NES en 28 escuelas históricamente de bajo rendimiento. Al mismo tiempo, otras 57 escuelas solicitaron unirse a NES; para el ciclo académico actual (2023-2024), esas escuelas se conocen como escuelas alineadas a NES. En el próximo ciclo escolar, HISD no distinguirá entre NES y escuelas alineadas NES. En su lugar, solo habrá dos tipos de escuelas: (1) NES (que abarca las NES existentes, las escuelas NES existentes alineadas con NES y las nuevas NES) y (2) las que no son NES.

Seis escuelas que recibieron una calificación D baja (calificación de 60 a 64) y 20 escuelas que recibieron una F (calificación de 59 o menos) que aún no son NES o escuelas alineadas NES; estas se unirán a NES en el otoño del 2024. Consulte la tabla a continuación para obtener una lista de estas escuelas, sus calificaciones rendición de cuentas y sus calificaciones de letra.

Escuelas que se unirán NES en el 2024-2025		
Escuela	Calificación de Rendición de Cuentas	Calificación de letra
Almeda Elementary School	64	D
Crockett Elementary School	63	D
Golfcrest Elementary School	64	D
Northside High School	63	D
Peck Elementary School	60	D
Westbury High School	64	D
Anderson Elementary School	56	F
Askew Elementary School	54	F
Browning Elementary School	59	F
Clifton Middle School	57	F
Codwell Elementary School	51	F
Fonville Middle School	55	F
Gregory-Lincoln PK-8	59	F
Grissom Elementary School	59	F
Kelso Elementary School	58	F

Longfellow Elementary School	59	F
Milne Elementary School	47	F

Mitchell Elementary School	55	F
Ortiz Middle School	59	F
Sharpstown High School	50	F
Stevens Elementary School	54	F
Thomas Middle School	56	F
Walnut Bend Elementary School	58	F
Welch Middle School	59	F
Wesley Elementary School	45	F
Woodson Leadership Academy	57	F

Otras 24 escuelas, aquellas con una calificación D alta (calificación de 65 a 69), que aún no son NES o escuelas alineadas NES tienen la opción de ser consideradas para NES.

Los directores de estas escuelas recopilarán información del personal, las familias y los miembros de sus Comités de Toma de Decisiones Compartidas para hablar sobre la oportunidad e informarán al Distrito antes del 7 de febrero si la escuela está interesada en ser considerada para el NES.

El Distrito actualmente proyecta que podrá aceptar hasta 14 escuelas con una calificación D alta para el NES el próximo ciclo escolar. HISD seleccionará esas escuelas antes del 9 de febrero.

Escuelas elegibles para ser consideradas NES		
Escuela	Calificación de Rendición de Cuentas	Calificación de letra
Austin High School	66	D

Bell Elementary School	66	D
Braeburn Elementary School	69	D
Deady Middle School	69	D

Emerson Elementary School	68	D
Foerster Elementary School	69	D
Frost Elementary School	69	D
Gross Elementary School	65	D
Hines Caldwell Elementary School	66	D
Jefferson Elementary School	69	D
Ketelsen Elementary School	69	D
Love Elementary School	66	D
Marshall Middle School	69	D
Montgomery Elementary School	69	D
Navarro Middle School	66	D
Neff Elementary School	67	D
Petersen Elementary School	66	D
Reynolds Elementary School	67	D
Ross Elementary School	68	D

Sanchez Elementary School	69	D
Shearn Elementary School	66	D
Southmayd Elementary School	68	D
Tinsley Elementary School	68	D

Valley West Elementary School	69	D
-------------------------------	----	---

"Las calificaciones y las calificaciones con letra publicadas hoy se basan en datos del ciclo escolar 2022-2023. Si bien hubo puntos positivos, los índices de audiencia en general muestran una disminución en los logros", dijo el **superintendente de HISD, Mike Miles**. "La buena noticia, sin embargo, es que este ciclo escolar estamos viendo señales alentadoras de progreso. Los datos preliminares de nuestros exámenes de mitad de año de este año indican que el rendimiento está mejorando. Además, los datos de los exámenes de mitad de año indican que las escuelas NES y alineadas con NES tuvieron un mayor crecimiento académico que nuestras escuelas que no son NES. Esto es especialmente importante porque, en general, nuestras escuelas NES y alineadas con NES están más atrasadas académicamente. HISD no cambiará las cosas de la noche a la mañana, pero estamos en el camino correcto."

NES es el esfuerzo más grande y significativo para transformar la educación K-12 en los Estados Unidos. Mientras que otros distritos han tratado de mejorar las escuelas tomando medidas graduales, como la adopción de un nuevo plan de estudios o la expansión de ciertos programas, NES implica una reforma sistémica a gran escala. Está diseñado para mejorar drásticamente el rendimiento académico, cerrar las brechas de rendimiento y garantizar que los estudiantes de Houston se gradúen preparados para el trabajo y el mundo moderno. Un esfuerzo ambicioso para la ciudad, y, de hecho, para la nación, NES tiene el potencial de remediar décadas de políticas ineficaces de K-12 y demostrar lo que es posible para los estudiantes de los Estados Unidos.

Innovador modelo de dotación de personal NES

Dadas las amplias necesidades de las escuelas NES, los empleados de estas escuelas ganan salarios más altos que el personal de otras escuelas de HISD. Las escuelas NES también diferencian la compensación en función de la materia impartida y los rigurosos sistemas de evaluación de maestros y líderes.

Salarios de los maestros de HISD 2024-2025		
	Salario inicial*	Salario de 5 años*
Escuelas que no pertenecen a NES	\$64,000	\$67,000

Primarias NES	\$75,435	\$81,435
Secundarias NES	\$80,059	\$86,059
Preparatorias NES	\$82,816	\$88,816
<i>Los salarios de los maestros que no pertenecen a NES incluyen un aumento planificado de \$2,500 para el ciclo académico 2024-2025. En las escuelas de NES, la compensación varía según la materia enseñada. Por lo tanto, el salario inicial indicado es un promedio de los salarios iniciales de los maestros de una escuela. El salario de cinco años también es un promedio de los salarios de cinco años de los maestros. Se incluirá más información en el Manual de Compensación de HISD, que se publicará en febrero.</i>		

Además de los salarios más altos, los maestros NES tienen una serie de otros recursos. Estos incluyen un equipo centralizado que crea las lecciones diarias, que se pueden personalizar según sea necesario, para que los maestros no tengan que pasar mucho tiempo fuera de la jornada escolar construyendo lecciones desde cero. Los maestros reciben entrenamiento regular de expertos en instrucción y cuentan con el apoyo de maestros aprendices y entrenadores de aprendizaje. Los maestros aprendices, que están buscando su certificación de maestros, trabajan junto con el maestro, aprendiendo el modelo de instrucción y las prácticas de enseñanza efectivas; co-enseñanza; sustituir según sea necesario; y participar en la misma formación que los maestros. Los instructores de aprendizaje, por su parte, se encargan de una variedad de tareas fuera del aula, como hacer copias y completar el papeleo.

En diciembre del 2023, HISD publicó las calificaciones de rendición de cuentas del Distrito. Al preparar las calificaciones de la escuela, el Departamento de Evaluación, Responsabilidad y Cumplimiento trabajó durante las últimas semanas para realizar controles de calidad adicionales antes de que se entregaran esta mañana las calificaciones a cada escuela. Como parte de ese proceso, el departamento necesitaba aplicar un último paso de la metodología de la TEA. Esto resultó en una actualización de la información general de todo el distrito que HISD publicó el mes pasado.

2023 SCHOOL ACCOUNTABILITY RATINGS

Due to ongoing litigation, the Texas Education Agency has not issued statewide accountability ratings. The state did, however, give school districts the data and methodology that is used to calculate ratings and letter grades for campuses. Using that information, HISD's Assessment, Accountability, and Compliance Department performed calculations to determine school ratings and corresponding letter grades.

SCHOOL	SCORE	LETTER GRADE
Alcott ES	75	C
Almeda ES	64	D
Anderson ES	56	F

2023 SCHOOL ACCOUNTABILITY RATINGS

Due to ongoing litigation, the Texas Education Agency has not issued statewide accountability ratings. The state did, however, give school districts the data and methodology that is used to calculate ratings and letter grades for campuses. Using that information, HISD's Assessment, Accountability, and Compliance Department performed calculations to determine school ratings and corresponding letter grades.

SCHOOL	SCORE	LETTER GRADE

PAIRED CAMPUSES

Paired campuses are typically PK-2 campuses or early childhood centers (ECC) that do not have grades tested by the STAAR but are feeder schools for an elementary campus. The ECC is assigned the same rating as the paired elementary school with tested grades.

NEW EDUCATION SYSTEM

The Houston Independent School District's (HISD) New Education System (NES) is the largest and most significant effort to transform K-12 education in the United States.

While other districts have tried to improve schools by taking incremental steps—such as adopting a new curriculum or expanding certain programs—the NES involves whole-scale, systemic reform.

Launched at 85 underperforming campuses across HISD in the fall of 2023, the NES is designed to dramatically improve academic performance, close achievement gaps, and ensure Houston's students graduate prepared for the modern workplace and world.

It is an ambitious effort for our city—and, indeed, the nation—with the potential to remedy decades of ineffective K-12 policies and prove what is possible for America's students.

UNDER THE NES MODEL, SCHOOLS:

- **Use an innovative staffing model to ensure students receive consistent high-quality instruction. It also allows teachers to focus on their core work and have better work-life harmony.** A centralized team creates the daily lessons, which can be customized as necessary, so teachers do not have to spend a great deal of time outside school hours creating lessons from scratch. Teachers receive regular coaching from instructional experts and are supported by Teacher Apprentices and Learning Coaches. Apprentices are earning their teacher certification. They work alongside the teacher and substitute as necessary, while Learning Coaches supervise students' higher-level independent and partner work and handle a variety of time-consuming tasks such as making copies and completing paperwork.
- **Use a rigorous, differentiated instructional program to meet students' individual needs.** Those who show they understand the day's lesson are given opportunities to do more challenging work independently or in pairs with the guidance of a Learning Coach. Students who need more help receive targeted support from their teacher and a Teacher Apprentice.
- **Pay teachers and staff higher salaries and differentiate compensation based on the subject taught as well as rigorous teacher and leader evaluation systems.**
- **Provide Art of Thinking courses to teach students critical-thinking and problem-solving skills as well as how to assess, evaluate, and effectively use information.**
- **Provide specialty classes in the areas of fitness; music and fine arts; 21st-century media and technology; and hands-on science.** Classes supplement schools' existing electives and magnet programs and are taught by community consultants with specific knowledge and skills.
- **Are open longer hours to better support working families.** All buildings open at 6:30 a.m. and stay open until 5 or 5:30 p.m.
- **Offer free trips for students to experience new places and cultures.** In spring 2024—at no cost to their families—eligible seventh graders will travel to Washington, D.C., and eligible eighth graders will travel to Japan.
- **Have clear expectations for maintaining a culture of respect and a safe and productive learning environment.** Discipline is handled by administrators so teachers do not have to step away from instruction. Students who are disruptive are sent out of the classroom to take a time out, get counseled, or access other services and support. Most students who are removed from class for minor infractions rejoin their class remotely via Zoom until the next class period.
- **Will incorporate career and technical education programming aligned to changes in the workforce and will help students and teachers learn to use artificial intelligence effectively in the classroom and modern workplace.**
