The Honorable Board of Education
Houston Independent School District
4400 West 18th Street
Houston, Texas 77092

Dear Board Members:

The adopted budget reflects the allocation of revenues and appropriations to support educational programs and services defined by the district's purpose, goals, strategic intent, and core values. Budget planning for the 2018-2019 fiscal year is a seven-month process. The budget process provides a better look into the programmatic requests of the district's support services and is paving the road to building budgets that better align to district and departmental goals and initiatives.

In fiscal year 2016-2017 fiscal year Houston Independent School District (HISD) became a "Chapter 41" or "Robin Hood" district. The district was and is still considered property rich and is required to equalize its wealth by sending funds back to the state. For fiscal year 2018-2019, the district is expected to send \$272.49 million of local property tax collections, an increase of \$3.5 million from the 2017-2018 fiscal year, to the state.

HISD is projecting an increase in local funding from the 2017-2018 original budgeted property tax levy of \$19.85 million, an increase in state funding of \$38.19 million, and projected increase in revenues from other sources of \$8.64 million for a net increase of \$66.69 million in revenues.

In the state of Texas, the Legislature meets every odd-numbered year for 140 days. In May 2017, the legislature did not adjust the state funding formulas for the 2018-2019 biennium. The basic allotment was kept constant at \$5,140 per student.

The development, review, and consideration of the 2018-2019 Governmental Funds (General Fund, Special Revenue Fund, Debt Service Fund, and Capital Projects Fund) and the Proprietary Funds (Internal Service Funds and Enterprise Funds) were completed with a detailed review of revenue and expenditure accounts. The Financial Section of this document contains the budgets for the General Fund, the Debt Service Fund and the Nutrition Service Fund, which by Texas law, must be approved by function by the Board of Education.

The preparation of the budget commenced in August 2018 with the development of management plans for schools and departments.

The district does not have any alternative tax collections, as the only statutorily authorized tax collection in the state of Texas is property taxes.

Budget Presentation

The budget process is comprised of seven phases:

- Planning
- Preparation and Submission
- Review and Coordination
- Adoption
- Implementation
- Monitoring
- Evaluation

The budget document and the year-end Comprehensive Annual Financial Report (CAFR) are the primary vehicles used to present the financial plan and the results of operations of the district. This document, the 2018-2019 District Budget, comprises of four sections:

- Executive Summary
- Organizational Section
- Financial Section
- Informational Section

The information included in the budget document is structured to meet the requirements of the Meritorious Budget Award (MBA) of the Association of School Business Officials International (ASBO). To receive this award, a school entity must publish a budget document which is also a policy document, an operations guide, a financial plan, and a communications device. We believe our current budget conforms to the requirements of the program. We are submitting this document to ASBO to determine its continued eligibility for this award. This award represents the highest level of recognition in budgeting for school entities. Its attainment represents a significant accomplishment by a school entity and its management. The award is conferred after a comprehensive review by a panel of independent budget professionals. Using extensive criteria, the reviewers not only evaluate the effectiveness of the budget in meeting the program's criteria, but it also provide commentary and feedback to the submitting entity as a basis for improving the process and presentation of their district's financial and operational plan.

Our most important concern in the presentation of the budget data, however, is to improve the quality of information provided to our community about the financial plan for the district's educational programs and services for the 2018-2019 fiscal year. The material in the budget document also includes information that has been suggested by the Board of Education, patrons, community members, staff, and those who review the document for the awards previously mentioned.

Both human and financial resources are allocated in the budget to achieve the goals of the district. The adopted budget reflects the allocation of revenues and expenditures to support educational programs and services defined by the district's purpose, goals, strategic intent, and core values. It represents the vision of district leadership and the hearts and minds of teachers and staff articulated through financial and operating policies. The budget is a good balance of choices representing the responsive equilibrium between the educational needs of students and the ability of the community and the state to provide the necessary financial support to serve them.

District Purpose

The **Houston Independent School District** exists to strengthen the social and economic foundation of Houston by assuring its youth the highest-quality elementary and secondary education available anywhere.

District Goals

Increase Student Achievement

HISD student performance will demonstrate gains as evidenced by scores on STAAR, SAT, and other state and national tests, thus narrowing the achievement gap, and graduating students who are college- and career-ready.

Improve Human Capital

The district seeks to create a performance culture that values employees who are results-oriented, talented, innovative thinkers; individuals who strive to increase student achievement and contribute to the reformation of public education.

Provide a Safe Environment

The district shall create a safe environment conducive to learning for all students and provide safety and security measures at district schools and facilities, all while attending district-related events.

Increase Management Effectiveness and Efficiency

The district shall have a decentralized organizational structure that will promote autonomy and innovation in schools. With a districtwide commitment to performance over compliance and a shared accountability system in place, the district shall employ best practices of administrative principles to make optimal use of district resources and taxpayer dollars.

Improve Public Support and Confidence in Schools

The schools belong to the people; hence, the board, administration, and support staff are public servants who exist to support the schools and the relationship between teachers, students, and parents. Public confidence will increase as the district increases transparency, accountability at all levels, and meaningful engagement of the community.

Create a Positive District Culture

The district's clearly articulated purpose will serve as the catalyst for creating a powerful sense of community and a shared direction among personnel, parents, students, and the public. As the district realizes the value of investing in human capital, the district will work to attract and retain the best teachers and staff members, and create working conditions in which their talents can flourish.

Core Values

Safety Above All Else

Safety takes precedence over all else. A safe environment must be provided for every student and employee.

Student Learning Is the Main Thing

All decisions and actions, at any level, focus on and support "the main thing": effective student learning.

Focus on Results and Excellence

Each employee focuses on results and excellence in individual and organizational efforts.

Parents Are Partners

Parents are valued partners in the educational process, serving as the child's teacher in the home. All school and district activities will give proper consideration to the involvement of parents.

Common Decency

The district shall be responsive and accountable to the public and its employees. Community members and employees shall receive respectful and courteous treatment.

Human Capital

Through recruitment, retention, dismissal and professional-development programs, the district will work to make sure students are served by the top talent available, from teachers to superintendents.

Budget Development

The Budget Development Model

The Budget Process is conceptually divided into a seven-step process: planning, preparation and submission, review and coordination, adoption, implementation, monitoring, and evaluation. The process is congruent with the overall mission of the organization and is aimed at fulfilling the district's stated goals and objectives. The budget process exists in the context of a struggle to balance the needs of students and the community with the limited resources available from local, state, and federal sources. The final adopted budget is a reflection of the best decisions and choices of hundreds of people in the schools, the administrative offices, and the community. It is often a painstaking balance of policy decisions and choices among competing priorities.

Planning

The planning stage of the budget process begins with the adoption of the prior year's budget. At this point, team members communicate ideas and thoughts regarding the previous year's process and plan to make the necessary improvements and adjustments to the process for the next budget cycle. Also, early into the year, the budget calendar of milestones for important activities and decisions is developed and disseminated to budget participants. Concurrently, senior members of the organization are meeting to discuss strategic planning issue such as goals and initiatives for the coming year, as well as challenges and opportunities facing the district. Finally, fundamental projections and assumptions crucial to the budgeting process such as pupil enrollment projections, changes in the tax base, and changes in funding levels received are being conducted and examined exhaustively.

The district currently uses a mix of budgetary approaches: line item, program budgeting, and weighted per pupil allocation formula. These approaches provide campuses a standard allocation based on projected enrollments or historical expenditures and uses a competitive ranking process for new or non-allocated programs. With this mixed approach, the Superintendent's cabinet is also charged with developing and prioritizing non-allocated budgetary requests for submission for review.

Preparation and Submission

Budget preparation is conducted at the campus level primarily by the principal and members of the Shared Decision-Making Committee (SDMC). The development of campus-level budgets follows the budget preparation

guidelines issued by the Superintendent. While the revenue side of the district budget is prepared by district administrators, campus-level budgets become the basis for the expenditure side of the district budget as that information filters up through the various levels of review, including campus staff members and the SDMC. Additional expenditures for costs such as debt service and interest are added when the district wide preliminary budget is compiled.

The budgeting of campus allocations, exclusive of legal mandates, is at the discretion of each campus under the district's site-based decision-making model. As such, campus budgeting begins with the identification of a school's goals and objectives by the school's resource planning group or equivalent (e.g., the School Improvement Team) as a first step in the campus budget development process. These goals and objectives should be driven by the educational needs of the campus (i.e., instruction and curriculum). In addition, the school's goals and objectives should be developed in accordance with district-wide and long-term educational goals.

Once consensus is reached on these goals and objectives, current operations should be evaluated as to their effectiveness in achieving them. New programs may need to be developed for the current year's operations to attain goals and objectives that are not addressed by a school's current programs. Programs should then be prioritized as to their effectiveness in attaining the developed goals and objectives. Finally, available resources should be allocated to each program or operation within the guidelines provided in the district's handbook, *Understanding the Budget Coding Process*.

Budget submission is now accomplished electronically for both schools and departments. Budget units receive budget development packages that allow them to develop their budgets electronically and submit them through the intranet. An overall summary request is generated along with detailed line-by-line budget items. Also, descriptions of the mission and goals of the unit as well as detailed justification for the funds requests are included. During the submission process, there is a frequent review and consultation process with Budgeting and Financial Planning staff members regarding coding problems and other technical issues.

The preparation of capital budgets and other budgets occurs simultaneously with the development of the General Fund budget. The district updates its existing long-range plans for capital equipment, maintenance and improvements of facilities, and compliance activities and develops the budget accordingly. Capital Projects Fund budgets are developed by Construction Services with assistance from the Controller's Office and the Budgeting & Financial Planning Department. Capital projects related to the Bond Program are developed and coordinated by the Bond Office with assistance from the Controller's Office and the Budgeting & Financial Planning Department.

Identification of potential capital projects and capital needs of the district is a responsibility of direct reports to the Superintendent, department administrators, principals, and other staff as appropriate. Recommendations are annually forwarded to a committee consisting of the Superintendent and selected direct reports. This committee is charged with the responsibility of prioritizing the various project proposals according to district capital needs. The Capital Projects Committee also addresses certain recurring capital needs, such as school bus purchases and asbestos removal.

Capital projects budgets are developed on a multi-year basis and are updated annually. The capital budgeting process is coordinated with the development of the General Fund budget since it can have a significant impact on district daily operations. Administrators are charged with utilizing the least costly financing method for all capital projects. Capital budgets are monitored at least quarterly to ensure timely, efficient allocation of resources according to district policies and to prevent cost overruns. All capital construction and improvement projects are managed in accordance with state and federal requirements for school facilities as well as any local building codes and regulations.

Debt Service Funds are budgeted by the Controller's Office and Budgeting and Financial Planning. Special Revenue Funds are budgeted by the participants in the programs and grants (usually schools) some central office departments and Budgeting. Food Service Funds budgets are created by the HISD Food Services department and reviewed by the Controller's Office.

Budget Review and Coordination

The Superintendent's cabinet reviews budget increase requests and recommends overall prioritization of programs and activities. Input from the various participants is used to determine the appropriateness of the submitted budgets. A timeline of the 2018-2019 budget process is contained in the chart on the next page:

Fiscal Year 2018-2019 Budget Development Timeline

Criteria for reviewing budget proposals, especially increase requests, include the degree of alignment with districtwide goals and objectives, priority status compared with other proposals, use of district resources for efficiency and effectiveness, the unit's track record for operational performance, and the likelihood of success for particular initiatives and programs.

Final review and coordination of the annual budget is conducted in public workshops and hearings with members of the community and the school board.

Budget Adoption

The compiled budgets for the district are submitted to the Superintendent for review before they are formally presented to the school board in early June as a recommended budget. The school board analyzes the documentation and conducts public hearings and workshops to get input from the community on district spending plans. After final revision and amendment, the board formally adopts the budget in June. Budgets are approved on a fund-by-fund basis. The district can make amendments to the budget at any time during the year; however, amendments changing functional expenditure categories or revenue object accounts (as defined in the Texas Education Agency's Financial Accountability System Resource Guide) must be approved by the Board of Education.

Budget Implementation

Implementation of the budget involves the procedural and technical processes that must occur for the proper expenditure and recording of the various funds in the budget.

Personnel Controls and Approvals

The management of positions in HISD is an integral part of the budgeting process since approximately 72 percent of the general fund budget is comprised of salary and benefit costs. Schools have some flexibility with respect to opening, closing, and/or changing positions within a balanced budget. New central office positions are normally requested as part of the recommended budget for the new year. New school positions must be approved by the principal or director.

Encumbrance Control

Encumbrance accounting, the system under which purchase orders, contracts, and other commitments for the expenditure of funds are recognized in the accounting system in order to reserve the portion of the applicable appropriation, is employed in the Governmental Fund types. Encumbrances that have not been liquidated are reported as reservations of fund balance since they do not constitute expenditures or liabilities. District policy requires that such amounts be re-appropriated in the following fiscal year.

Auditing

Tests are conducted to determine the adequacy of the internal control structure of the district and the effectiveness and efficiency of expenditures as well as for compliance with applicable laws and regulations. Examples of the types of audits performed include Internal Control Reviews, Expenditure and Revenue Audits, Account Balance Audits, Contract Audits, Systems Documentation, and Compliance Reviews.

Procurement

Procurement procedures and guidelines are developed and monitored to ensure purchasing and contracting compliance with all applicable statutory and legal requirements, Board of Education policy, good purchasing practice, and adherence to ethical standards. Also, the district seeks to improve participation by historically under utilized businesses. Specific policies and procedures related to procurement can be found in the *Finance Procedures Manual*, section 1300.

Budget Account Transfers

Transfer of campus discretionary funds requires principal approval for schools, and direct report or department head approval for central office budgets. The district restricts transfers between funds (or business areas) and within Special Revenue funds based on each particular grant's requirements. Transfers can be made between functions within the same fund (business area), and transfers can be made between objects within the same fund or business area. For more detailed information, consult the *Finance Procedures Manual*, section 500 located on the District's Website.

Budget Amendments

Budget amendments are handled in basically the same fashion as a budget transfer request. Approval is required by the principal for schools and by the appropriate direct report or department head for central office amendments.

Reporting System

HISD implemented the SAP (Systems Applications and Products) finance and accounting operation and control system in 1998, to further the automation of financial transactions, reduce transaction processing time and costs, and provide more timely, accurate information regarding those transactions. The information provided by the SAP system is designed to assist administrators in monitoring the financial condition of the district and evaluating the fiscal performance of the various budget units. Examples of information provided by SAP, include reports detailing the original annual budget allocations for schools and departments, the available budgets of all units, dynamic comparison of allocations to actual expenditures, purchase orders processed, but not yet received, records of fixed assets and inventories and budget transfers.

A *Comprehensive Annual Financial Report* is prepared to report the detailed results of district operations, and it includes statements and reports such as balance sheets for all funds, statements of revenue and expenditures, detailed explanation of different funds by function and major object, as well as miscellaneous statistical data in accordance with the Governmental Accounting Standards Board (GASB) and Generally Accepted Accounting Principles (GAAP).

School-Based Budget Development Process

For 2018-2019, principals will be responsible for taking into consideration recommendations from their school's PTA/PTO, employee representatives, their school community, business partners, and the school's Shared Decision-Making Committee.

The district has formulated a school-budgeting process that includes a weighted per-pupil allocation formula based on state student weights.

- Grade Level Allocation
- Adjustments—Provides an adjustment for enrollment increases or decreases in the next school year, based on the school projections.
- Special Population—G/T, CATE, At-Risk, Multilingual, Homeless, and Refugee students receive additional weight in the resource allocation.

Central Budget Committee for the 2018-2019 Budget

The Superintendent's cabinet will review and rank all central office budget recommendations, including requests for increased funding. The Cabinet's responsibilities include the following:

- Review all central-office initiatives, activities, and general programs for possible elimination, combination with another department, decentralization, or restructuring
- Review and rank all new central-office recommendations for increased funding
- Rank all central-office requests for increases in the Capital Acquisition Program
- Submit ranked recommendations for increases to the Chief Financial Officer and the Superintendent of Schools.

Budget Monitoring

As budgeted funds are expended, periodic monitoring of the budget is conducted in accordance with responsible accounting as well as applicable laws and regulations. Each level of the district's organization is responsible for monitoring those budget items for which it is responsible. As the budget is prepared, spending plans are developed for use in budget monitoring. For example, as a principal and other resource planning group members develop a campus budget, the timing of planned expenditures is noted and documented. Thus, a principal and other district administrators have a tool to monitor expenditures during the fiscal year. The district accounting system normally generates expenditure and encumbrance information on a monthly basis. To review budget performance, this information is compared with campus spending plans by principals. Principals may in fact monitor budgetary performance on a transaction-by-transaction basis through access to the district's computerized accounting system, SAP. The HISD budget must also be submitted to TEA via the Public Education Information Management System (PEIMS) transmission process. TEA monitors for compliance at the district level only. This monitoring is a legal requirement to ensure mandatory expenditure levels in certain areas.

Similarly, district administrators monitor the entire district budget. The Chief Financial Officer and other district administrators use similar expenditure and encumbrance reports to monitor the budget compliance of programs and funds. Performance monitoring of the budget is also conducted regularly. This includes such items as comparing the planned effectiveness of educational programs with actual student achievement results, reviewing a particular department's effectiveness at using allocated resources to achieve specified results, and reviewing a school or department budget against standard ratios to monitor unusual expenditure patterns. This information is then periodically conveyed to the Board of Education, keeping the board apprised of issues that might affect the district's performance.

Evaluation

The last step in the budget process is evaluation, where performance data gathered in the monitoring phase are assembled and evaluated to determine individual units as well as overall-district performance for the fiscal year. This is usually accomplished in the summer as the budget for the next fiscal year is being developed. As the strategic management and planning methodology becomes more ingrained into HISD's culture, the performance data gathered will become more detailed and better aimed at the programs and processes that are most significant to the overall operational performance and will allow a better view of organizational performance over time.

The results of the evaluation phase in the budgeting cycle, output directly into the planning phase for the next budget year. The three main areas of evaluation include schools, programs, and stakeholder satisfaction. Schools and programs are evaluated for student achievement using such tools and measures as STAAR (State of Texas Assessments of Academic Readiness) tests, the Stanford 10 norm-referenced exams, attendance rates, drop-out and graduation rates, SAT and ACT test results, etc. Stakeholder satisfaction is measured through questionnaires, survey instruments, and indirect measures such as voter approval rates of bond elections, etc. Budgetary performance evaluation includes measures such as budget-to-actual or budget-to-projected actual comparisons of revenue, expenditures, cash flow, fund balance, and staffing levels.

Periodic evaluation or performance reports are issued to inform both district officials and the public of campus and district performance. The annual budget document will continue to serve as a primary vehicle for delivering evaluation results of the previous fiscal year and illustrating the underlying reasons for new budget allocations.

General Fund Revenues and School Finance

In May 2017, the 85th Legislature increased public education funding by \$307.8 million for the 2018-2019 biennium. Recapture increases, property tax relief fund changes, statewide enrollment growth, Austin yield increase, available school fund additional transfer, tax effort and settle up changes resulted in net increases of \$5.8357 billion. There were decreases of \$5.5279 billion resulting from changes in district property values (DPV) funding, recapture increases, Additional State Aid for Tax Reduction (ASATR) Expiration and property tax relief fund reductions.

2018-2019 Tax Rate

In November 2012, voters approved a \$1.89 billion bond program which included an increase in the district's Interest & Sinking (I&S) tax rate of \$0.01 to fund the debt service. The District used a rate of \$0.1667 per \$100 valuation for the truth in taxation (TNT) calculations for 2018-2019, which is the same rate as the previous year.

The 2018-2019 Adopted Budget is based on a \$1.04 Maintenance & Operation (M&O) tax rate and a \$0.1667 Interest & Sinking (I&S) tax rate for a total tax rate of \$1.2067, which is the same rate as the previous year.

Prior Year Actuals

Prior year actual revenues and expenditures are reflected in the charts below.

General Fund Budget to Actuals Comparison

Revenues	Adopted Budget 2017-2018	Actual Revenues 2017-2018
General Fund	\$ 1,941,049,968	\$ 2,083,672,287

Appropriations	Adopted Budget 2017-2018	Actual Expenditures 2017-2018
General Fund	\$ 2,096,294,796	\$ 2,172,842,296

Actual revenues over the adopted budget are primarily due to increases in state aid from prior year property tax audits, an adjustment to the accrual for property tax litigations, Harvey insurance claim payments, and an increase in investment earnings.

Actual expenditures under the adopted budget are primarily due to unspent funds from district-wide salaries, campus and departmental funds, Harvey remediation expenses and Harvey related reconstruction to four schools.

2018-2019 General Fund Revenues

The adopted budget reflects the allocation of revenues and appropriations to support educational programs and services defined by the district's purpose, goals, strategic intent, and core values. Projected revenues for the 2018-2019 General Fund are \$2,007,745,003, which is a 3.44 percent increase over the original 2017-2018 budgeted revenues. Revenues for the General Fund and other financing sources are primarily generated through local property taxes and state aid, but include other sources. A description of the methodology for calculating state formula revenue in detail is included in the Informational Section of this document.

General Fund Revenue Assumptions

The 2018-2019 state revenue projections are based on an estimated average daily attendance (ADA) of 192,132.494 pupils, or weighted average daily attendance (WADA) of 267,010.725 pupils.

Property tax revenue is the district's largest revenue source, comprising 87.12 percent of all budgeted revenues. HISD is projecting an increase in local funding from the 2018-2019 original budgeted property tax levy of \$19.85 million, a gain of state funding of \$38.19 million, and projected increase in revenues from other sources (federal, interest income, rentals, tuition) of \$8.64 million for a net increase of \$66.69 million in revenues. This increase includes \$272.4 million in property taxes that will be collected but paid to the state through Chapter 41 Recapture.

Revenues percentages for the General Fund are generated from the following primary resources:

Total Revenue Sources for the General Fund

Revenue Sources	Adopted Budget 2015-2016	Adopted Budget 2016-2017	Adopted Budget 2017-2018	Adopted Budget 2018-2019
Local Sources	\$ 1,538,745,307	\$ 1,642,333,620	\$ 1,719,362,582	\$ 1,749,167,264
State Sources	259,237,111	156,065,246	185,036,762	215,146,388
Federal Sources	5,752,233	6,250,624	6,250,624	13,031,351
Other Financing Sources	30,400,000	30,400,000	30,400,000	30,400,000
Total General Fund Revenue	\$ 1,834,134,651	\$ 1,835,049,490	\$ 1,941,049,968	\$ 2,007,745,003

Revenue Sources by Year

The general fund revenue increase in local sources is primarily the result of increased market value of the property within the district, based on the district's 2018-2019 adopted Maintenance and Operations (M&O) tax rate. Even with maintaining the current rate for maintenance and operations, current property tax revenue is expected to increase and remain the district's largest revenue source, in the amount of \$1,712,592,547, or 87.03 percent of all General Fund Revenues. The district has experienced significant increases in its local tax roll values.

Below is a chart of the district's roll values for the past 10 years:

Fiscal Year	Tax Roll Value	% Change
2009-2010	109,064,369,708	0.88%
2010-2011	104,439,029,647	-4.24%
2011-2012	105,895,088,157	1.39%
2012-2013	111,568,771,772	5.36%
2013-2014	125,112,516,134	12.14%
2014-2015	139,580,407,554	11.56%
2015-2016	152,860,482,797	9.51%
2016-2017	165,861,644,665	8.51%
2017-2018	174,376,925,702	5.13%
2018-2019	176,365,982,799	1.14%

Note: 2017-2018 and prior are from the HISD Comprehensive Annual Financial Report, 2018-2019 is the Certified Estimated value from the Harris County Appraisal District.

However, unlike many city and county tax rolls, HISD does not keep all of the increase in tax revenues generated. Under the state's funding formula, as local property tax values rise, the state reduces its share of public school formula funding revenue. In fact, the state share of formula revenue in HISD has decreased from a high of 31.6 percent in 2010-2011 to a low of -5.2 percent in 2018-2019, as HISD anticipates sending back more in Recapture payments than the district receives in state aid.

The revenue projections used for 2018-2019 are based off the certified estimated roll value that the district receives in April of each fiscal year. The district works with the Harris County Appraisal District (HCAD) early in the year, usually around February, to determine a starting point for tax revenue projections. These projections are used to build early estimates of the district's budget resources and help with the planning and ranking of programs in the upcoming years. The district has traditionally taken a conservative approach in early revenue and projections and in the past has been able to fund projects on a ranked planning list.

In the near-term, the district revenue projections are impacted by growth in property values, changes in student enrollment, and current state statute. District revenues are driven by local property taxes, and roll values are used to estimate revenues before the budget is adopted in June. In most cases, roll values increase as the year progresses, and the district does not need to make significant budget changes to address shortfalls during the middle of the budget cycle. Sudden declines in student population can impact the district's formula funding allotment, discussed in further detail in the Informational Section of this document, and per-student allocations budgeted at the school-level. Student population is monitored daily during September of each year, and the district responds immediately, preparing for allocation adjustments as necessary. The district then settles-up with campuses after the state's enrollment snapshot in October. The district's long-term revenue forecast is represented in more detail in the Informational Section of this document. This forecast makes several assumptions, estimating the future property tax roll values will grow between three and five percent annually.

Revenue is significantly influenced by state law. In 2016 the Texas Supreme Court ruled against a lawsuit filed by two-thirds of Texas school districts, challenging the state's school finance system. The Court found the current school finance system flawed but constitutional, and the future of the state's school finance system now rests with the Texas Legislature. Without changes to state law, the district's revenue forecast assumes the state's school funding formula will continue to be calculated as articulated in current law, requiring the district to make increasing Recapture payments to the state in future years, resulting in revenue shortfalls. Revenue projections are further detailed in the Informational Section of this document.

HISD Local Tax Rolls and Estimated Taxes on a Typical Home

HISD's estimated assessed value for the 2018-2019 fiscal year, per the HCAD certified estimated roll in April 2018, was \$176,365,982,799, compared to the certified estimated value in April 2017 of \$173,509,378,808 during the same period. These are not final tax roll numbers; however, these values are used for original budget projections. The 2018-2019 value used for the 2018-2019 Adopted Budget does not reflect the changes that occur through the tax year or represent a final roll value. For the typical homeowner, taxes to fund programs and services for the 2018-2019 fiscal year will increase an estimated \$46.74. The resulting increase does not take into account exemptions for homeowners over 65, disabled homeowners, or surviving spouses over age 55.

The \$1.2067 tax rate adopted by the Board of Education for 2018-2019 fiscal year did not change from the total tax rate of \$1.2067 adopted in 2017-2018. The tax rate assumes an average taxable value of a Houston-area home of \$219,857 in 2018-2019, and taxes on the average home of \$2,653.01. The tax bill in 2017-2018 for an average value home, \$215,984, was \$2,606.28. This average tax bill is calculated by taking the average market value, provided by HCAD, less a homestead exemption of \$25,000 approved by voters in 2015 and the 20 percent optional homestead exemption offered by the district, and excludes the additional exemptions for which homeowners may qualify.

The chart below illustrates the tax burden for the typical homeowner from 2010-2019, which has primarily increased as a result of property value growth.

Long Term Debt

As of June 30, 2018, the District had net bonded debt outstanding of \$3.289 billion. The District debt totals included \$485 million in Variable Rate Bonds outstanding at fiscal year end. The ratio of net general bonded debt to assessed valuation and the amount of bonded debt per student are useful indicators of the District's debt position. This data reflects a decrease in the ratio of net bonded debt to assessed value to 1.90 percent, as compared to 2.05 percent last year.

On June 27, 2018 the District issued \$86,960,000 of general obligation debt. The new par debt along with original issuance premium utilized the remaining \$100,000,000 of authorized debt from the 2012 voter authorization.

Outstanding variable rate debt decreased by \$18 million compared to prior year ending balances as a result of redemptions through use of available debt service funds. Variable rate debt as a percentage of net bonded debt outstanding as of June 30, 2018 is 14.8 percent.

The District issued \$174,615,000 of maintenance tax notes on June 27, 2018. Including original issuance premiums the debt sale provided \$200,000,000 of project proceeds.

2018-2019 Appropriations

Appropriations included in the recommended budget for the General Fund total \$2,043,345,624.

The 2017-2018 carryover budget, adjusted for the recommended increases and decreases, resulted in an overall increase to the 2018-2019 budget of \$117,715,160 or 6.31 percent.

Increases/(decreases) to the General Fund budget include:

Major increases/(decreases) with offsetting revenues include:

- TRS On-Behalf - (\$9,000,000)
- Tax Increment Reinvestment Zone (TIRZ) - \$2,123,582
- Nutrition Services Indirect Cost Positions - \$1,705,609

Mandatory (Contractual or legally required) increases include:

- Health Insurance Employer Contribution - \$10,000,000
- Transfers Out from sale of Maintenance Tax Notes - \$7,039,941
- Harris County Appraisal District - \$1,338,800

Other major increases:

- Special Education - \$5,516,390
- Interventions/Dyslexia - \$7,996,656
- Achieve 180 - \$3,200,000

Major decreases to the General Fund carryover budget include:

- Campus PUA Reduction - (\$33,791,358)
- Department budget Reductions - (\$49,142,315)

One – Year Funding items:

- Performance Audit - \$1,000,000
- High School Literacy Initiative for Classroom Libraries - (\$4,441,659)

General Fund Budget Distribution

Below is a comparison of total General Fund expenditures, by object, for the fiscal years 2015-2016 to 2018-2019.

General Fund Expenditure by Object
(Comparison of Total Expenditures of Current and Previously Adopted Budgets)

Object	Adopted Budget 2015-2016	Adopted Budget 2016-2017	Adopted Budget 2017-2018	Adopted Budget 2018-2019
Salaries	\$ 1,350,908,210	\$ 1,290,357,960	\$ 1,352,289,472	\$ 1,313,217,802
Contracted Services**	225,704,130	368,274,910	477,823,873	474,291,467
Supplies & Materials	72,140,390	59,567,188	63,988,022	56,649,958

Note: May not add to 100% due to rounding in each category

2018-2019 Other District Fund Appropriations

HISD operates three additional governmental funds:

The district adopted a **Debt Service Fund** budget of \$341,658,611 that provides for principal and interest payments for outstanding debt in accordance with generally accepted accounting principles for governmental entities.

All remaining unspent funds from the 2017-2018 **Capital Renovation Fund** budget will be carried forward into the 2018-2019 fiscal year to provide for costs for the construction and renovation of school sites in accordance with the district's 2007 Rebuild HISD Program and the 2012 HISD Bond.

The \$183,547,216 **Special Revenue Fund** budget provides for school-centered programs designed to support increased student achievement. The district continues to pursue additional dollars from non-traditional sources to support the educational delivery system. The primary sources of this fund is Title I, Title II, E-Rate, IDEA-B, and the Instructional Materials Allotment. Only awarded and known resources are presented in the adopted budget. The district will continue to make adjustments throughout the year as notice of grant awards and district carryover are approved.

HISD operates four Enterprise Funds:

The adopted **Nutrition Services Fund** budget is \$139,945,266 and reflects the ongoing activity of the nutrition services program. Revenue to support the nutrition service program is primarily derived from operating revenues from the sale of food products to the students and faculty of the district during breakfast and lunch. The nutrition service program also participates in the National School Breakfast and Lunch Program and state programs, which provide support in the form of cash and commodities.

The **Marketplace Fund** budget of \$1,708,214.88 accounts for the financial operation of the restaurant-style cafeteria on the first level of the Hattie Mae White (HMW) Educational Support Center.

The district has a very active **Medicaid Fund** that provides Medicaid claiming services to other school districts throughout the state. This fund has a total budget of \$38,343,338 of which \$8,343,338 is for operational expenses and \$30,000,000 which will be transferred to the General Fund for the support of the instructional program.

HISD operates seven Internal Service Funds:

The **Health Insurance Fund** has a budget of \$162,279,000 accounting for the health insurance plan administered by the district.

The **Print Shop Fund** has a budget of \$8,825,736 accounting for the cost of printing, graphics, and mail services for the district.

The **Workers' Compensation Fund** has a budget of \$9,306,963 accounting for activities related to the district's workers' compensation program.

The **Alternative Certification Fund** has a budget of \$1,168,475 accounting for the recruiting, training, and supporting of qualified, degreed classroom professionals.

The **Athletics Fund** has a budget of \$7,089,814 accounting for the educational, social, moral and athletic skills of the student athlete in various sports, including football, basketball, track/field and soccer. The fund is also used to schedule athletic activities, transportation trips, game officials and to efficiently operate sports complex venues for HISD athletics competitions and events.

The **Special Education Shared Service Fund** has a budget of \$7,144,293 accounting for the Special Education evaluation and support services.

The **UIL (University Interscholastic League) Fund** has a budget of \$1,098,254 accounting for campus

participation in UIL activities such as One-Act Play, Debate Cross-Examination, Marching Band, Concert Band, Choir, Orchestra, Solo-Ensemble, and Academics.

Below are charts representing the district's total revenues and appropriations in its various funds including 3 year projections. Capital renovation revenues exclude bonds sold in prior years, and appropriations are estimated amounts to be spent during the year for capital projects.

Total Revenues

Budget Projection Assumptions	
- No salary projections included in estimates - Average Daily Attendance is kept level - State Aid decreasing as property tax revenue increases - No projections or assumptions included for legislative session beginning in 2019 - Maintenance and Operations tax rate remains the same at \$1.04 per \$100 valuation	
Chapter 41 Recapture	
- The district is required to equalize wealth according to Chapter 41 of the Texas Education Code. - The district does not anticipate any relief in recapture payments.

Budget Projection Assumption

- The district continues to seek out and obtain grant funding for supplemental services for students.
- The State of Texas has projected growth of 1.4 percent in the education and health industry and HISD is projecting a percent growth rate in funding.
- In 2018-2019 the district will seek other federal funds to replace the USDE Magnet Grant and the Race to the Top with other initiatives.

Budget Projection Assumptions
• PAYG Program \$15M allocation will stay in General fund, starting 2016-2017. • Remaining funds from prior projects and using other remaining funds for school renovations, maintenance and repairs. • Bond sales for 2012 bond per original published plan

Other Assumptions and Notes
• Expenditures-based on trends of other programs and the expectation of the pace increasing for Bond 2012 program with the program expecting to be completed in 2019-2020. • TIRZ revenue may decrease based on the legislature regarding recapture.

Budget Projection Assumption

- The state of Texas has projected growth of 1.8 percent in the education and health services industry.
- Accordingly, HISD is projecting a 1 percent growth rate in revenue and expenses.

HOUSTON INDEPENDENT SCHOOL DISTRICT

Budget Projection Assumptions

- Assumptions are estimates only and are contingent upon actual results. Federal reimbursement amounts typically grow in relation to the CPI, projected at 2 percent. Marginal declines in enrollment/participation have been adjusted for in 2020, slightly offsetting the projected 2 percent CPI increase. In addition, there is expected increase in the CACFP (dinner) program.
- Food cost is expected to increase in relation to the CPI, 2 percent projected for FY 2020 (offset by small decrease in participation as the result of declining enrollment) and 2 percent for FY 2021 and 2022. In addition, NS is expected to expend funds to replace capital assets.

Demographics and Student Enrollment

The Houston Galveston Area Council (H-GAC) has a population of more than 6.9 million, making it the fourth largest metropolitan area in the country. Demographically and economically, the region has rapidly diversified, transforming the city to a cosmopolitan, international center of business and industry. Over the last decade, the population of H-GAC has experienced significant growth, despite volatility in the oil and gas industry. As a result, the district must be prepared to meet the challenges of educating an increasingly heterogeneous student population. In light of the recent growth of service-sector jobs in the Houston area and U.S. economy, students must be prepared for careers requiring advanced skills in mathematics, science, and technology, in addition to strong reading and writing skills.

The net effect of the growing population on HISD's student enrollment is difficult to ascertain, due to many complicating factors. In particular, the recent growth of state charter schools, private schools, and homeschooling, combined with central-city demographic shifts and economic conditions will mitigate the effect of the Houston metropolitan area's population increases, resulting in difficulty predicting the district's enrollment. Additional demographic information can be found in the Informational Section of this document, while a summary of district enrollment changes is presented below.

HISD Pupil Enrollment Trends

Personnel Allocation

The district continues to monitor staffing at all levels and finds ways to be more efficient. Central Office staffing levels are monitored closely and were extensively reviewed during the 2016-2017 budget development process to ensure the majority of district funds are directed toward classroom instruction and minimize the impact of necessary district budget cuts to schools. HISD consistently maintains an administrative cost ratio below state limits and peer districts, according to the Texas Schools Financial Integrity Rating System (FIRST).

The chart below illustrates the staffing for the district, representing the various types of positions from 2017-2019. As a result of the district's belief in site-based decision-making, principals have direct control over positions and employees listed in the campus category. Department positions include custodians, police officers, transportation employees, speech therapists, special education diagnosticians, special education teachers, and teacher aides who work at the campus-level, but who are managed and supervised by central office departments.

HISD Salaried Exempt and Non-Exempt FTE's for 2017 through 2019

Summary

The school year began with Hurricane Harvey and ended with the appointment of Chief Academic Officer Grenita Lathan as interim superintendent. Lathan continues to serve in the interim superintendent capacity while the Board of Education conducts a nationwide search for a permanent superintendent.

Hurricane Harvey was one of the most devastating hurricanes ever to hit Houston, as well as one of the costliest, inflicting \$125 billion in damage. Hundreds of HISD families were impacted, and the first day of school, which was scheduled for August 28, was delayed, with rolling starts of September 11, September 18, and September 25. Due to an amazing team effort, 202 of 284 schools were ready to open on September 11. Administrative offices opened as well, and employees returned to work on September 5. What followed was an unprecedented outpouring of support and aid for students and staff affected by the storm. The Houston ISD Foundation raised more than \$13.8 million in donations that went to displaced schools, nutrition services, teachers, staff, students, school supplies, and the HISD homeless education office. The district hosted multiple community feeding and donation sites. Many national groups, organizations, and individuals donated as well. HISD held parent summits to help parents support their children's recovery, providing access to meals, transportation, clothing, school supplies, and wraparound services.

School funding and the issue of recapture was and will continue to be a challenge for the district. HISD recognizes that these challenges will require the district to assess the effectiveness of its current programs, initiatives, and staffing in an effort to align appropriations with expected revenue. Public education is an investment in the success of every HISD student, regardless of where they live or their country of origin. Every child in HISD deserves a high-quality education that prepares them for a bright future. They are the engineers, entrepreneurs, and computer programmers of tomorrow, and they must be prepared to enter the workforce in a global economy. With the help of community and business partners, as well as leaders from Houston's largest industries and institutes of higher education, the district has developed a student profile for success. An HISD graduate should be a leader, skilled communicator, responsible decision-maker, critical thinker, college-ready learner, and an adaptable and productive member of an increasingly global society.

Key accomplishments of the 2017-2018 school year are highlighted below.

Community Outreach and Wraparound Services

With support from the City of Houston and funding from the Houston Endowment, HISD developed Every Community, Every School, a comprehensive initiative that connects schools with non-academic supports needed to improve the well-being and academic achievement of all students. Often called wraparound services, these non-academic supports address critical issues such as mental-health and physical-health needs, food insecurity, lack of stable housing, violence, incarceration of a parent, and many other challenges that can have adverse effects on a student's readiness and ability to learn. When wraparound services are provided in tandem with strong academics and high-quality teaching, schools can truly meet the needs of the whole child and graduate students who are college- and career-ready. Cohort one of Every Community, Every School was launched at nearly two dozen campuses at the beginning of the 2017-2018 school year.

Academics

Board of Education Academic Goals

The HISD Board of Education's mission is to equitably educate the whole child so that all students graduate with the tools to reach their full potential. Every child shall have equitable opportunities and equal access to an effective and personalized education in a nurturing and safe environment. Our students will graduate as critical thinkers and problem solvers; they will know and understand how to be successful in a global society. To that end, the Board established three goals:

Goal 1: The percentage of students reading and writing at or above grade level for grade 3 through English II will increase by 3 percentage points annually between the spring of 2017 and the spring of 2020.

Goal 2: The percentage of graduates meeting Global Graduate standards will increase 3 percentage points

annually per year from the 2017 baseline up to 85 percent by 2022.

Goal 3: Among students who exhibit below satisfactory performance on state assessments, the percentage who demonstrate at least one year of academic growth will increase three percentage points annually in reading and in math between the spring of 2017 and the spring of 2020.

HISD Meets State Accountability Standard

Although the Houston Independent School District received a “Not Rated” label for meeting the state’s criteria to qualify for the Hurricane Harvey waiver, the district was calculated to have earned an overall B rating under the state’s new school accountability system. According to ratings released by the TEA, 91 percent of HISD schools (251 out of 275 rated campuses) earned a “Met Standard” rating for the 2017-2018 school year. In three years, HISD reduced the number of campuses labeled “Improvement Required” (IR) by the state from 58 to 12. An additional 17 schools were “Not Rated” due to meeting the state’s criteria for the Hurricane Harvey waiver. Fifteen of these 17 campuses will remain on IR status from the prior year, requiring them to comply with state and federal improvement planning. This is the lowest number of campuses HISD has had in IR status since 2012.

Awards and Student Achievements

Achieve 180 Launches and Receives Award

Achieve 180, which was implemented during the 2017-2018 school year, is a program to support, strengthen, and empower underserved and underperforming HISD schools. A key component of the research-based initiative is family and community empowerment. Achieve 180 also includes five other pillars: leadership excellence, teaching excellence, instructional excellence, school design, and social and emotional learning support. HISD’s Department of Curriculum and Instruction received the “Making Strides Together Curriculum Award for Excellence in Urban Education” from the Council of the Great City Schools for the district’s work on its Achieve 180 program. The award, which was presented in Minneapolis in June during the Annual Curriculum and Research Directors’ Joint Meeting, recognizes work across organizational silos to support a common goal to improve student achievement, as well as cross-functional teams’ planning, implementation, and progress monitoring.

Top Educators Named

Geovanny J. Ponce, principal of Jones Futures Academy, was named the 2018 Region 4 Principal of the Year by the Texas Association of Secondary School Principals. Braeburn Elementary School Principal Santos Reyes was named HISD’s Elementary Principal of the Year, and Jones Futures Academy Principal Geovanny Ponce was selected as HISD’s Secondary Principal of the Year. Darron Smith, a fifth-grade ESL teacher at Bonner Elementary, was named Elementary Teacher of the Year, and Alejandra Ortega, an eighth-grade math teacher at McReynolds Middle School was named Secondary Teacher of the Year. Ghida Hijazi of Cornelius Elementary School, Cherina Connor of Henry Middle School, and Kadee Harper of Lamar High School were named Beginning Teachers of the Year. Peck Elementary School’s Aurelia Wagner was presented with a cash prize as part of the Emily Scott Evans Award, which is given to a third-grade teacher known for encouraging students to be excited about learning and to respect peers and adults.

Schools Recognized on Local and National Levels

Lyons Elementary School and Eastwood Academy were named National Blue Ribbon Schools by the U.S. Department of Education. Several high schools were featured in the U.S. News & World Report Best High School rankings: Carnegie Vanguard High School was ranked the 15th-best high school in the nation and the fourth-best in Houston, and DeBakey High School for Health Professions, Eastwood Academy, and Challenge Early College High School were ranked in the top 100.

Children at Risk named DeBakey High School for Health Professions No. 1 in its annual rankings for the eighth-straight year, and five other high schools were in the top 10: Eastwood Academy (2), Carnegie Vanguard High School (3), East Early College Challenge Early College High School (6), Sharpstown International School (8), and Challenge Early College High (10). Five HISD middle schools were recognized as top 10 performers: T.H. Rogers School (1), Project Chrysalis Middle School (4), Lanier Middle School (6), Energized for STEM Academy Southwest MS (6), and Mandarin Immersion Magnet School (9). On the elementary school list, four HISD schools were ranked in the top 10: T.H. Rogers School (1), Horn Elementary School (4), River Oaks Elementary School (5), and West University Elementary School (6).

Baylor College of Medicine at Ryan was named a 2018 School of Distinction by Magnet Schools of America, the national association for magnet and theme-based schools. Additionally, 33 HISD schools earned a spot on the 2017 Texas Honor Roll by the Educational Results Partnership. Project Chrysalis Middle School was recognized by the Texas Education Agency as a National Title I Distinguished School, an award that honors schools for their positive educational advances. The school is one of two in the state of Texas to receive the designation.

Superintendent and Board Scholar Awards

Northside senior Sofia Flores was the first-ever recipient of the HISD Superintendent and Board of Education Scholar Awards. The scholarships, which were distributed to one senior at every high school in May, recognizes students who have exemplified great character and resilience. HISD Interim Superintendent Grenita Lathan had the honor of presenting Sofia with a \$5,000 check.

Hurricane Harvey Communications Award

HISD Communications was honored for its crisis communications to families, staff, and the community during Hurricane Harvey with a Golden Achievement Award from the National School Public Relations Association. The department won four other Golden Achievement Awards for communications efforts around recapture, Achieve 180, the 2018 State of the Schools event, and targeted parent communications.

College and Career Readiness

EMERGE

EMERGE empowers and prepares high-performing HISD students from underserved communities to attend and graduate from selective colleges and universities across the nation. The EMERGE program serves hundreds of students across 42 high schools in grades 10 to 12, who benefit from extensive programming, individualized support, and tailored resources. EMERGE program managers work closely with students and their families to complete college applications and succeed once they get there. Since its inception in 2011, close to 1,000 students have graduated from the EMERGE program and are attending or have attended some 100 institutions across the nation.

Senior Scholarship Offers Continue to Rise

Scholarship offers to graduating seniors continue to rise every year and were up to \$403 million for the Class of 2018 from \$388.5 million last year. Hispanic students have seen the most growth in scholarship dollars awarded, with an 837% increase since 2007.

AP, Dual Credit, and Futures Academies Give Students Jump on College and Career

HISD students continue to earn college credit through Advanced Placement exams. The number of HISD high school students passing their AP exams with a three or above increased to 9,920 in 2017. The number of students enrolled in Dual Credit courses was up again this year, leading to a record number of HISD students graduating with their high school diplomas and an associate degree from Houston Community College. The district's Futures Academies are specifically tailored to meet the current and future needs of Houston's thriving industries, which include medicine, shipping, energy, manufacturing, and computer technology. Futures Academy courses are offered at Furr, Jones, Kashmere, Scarborough, Sterling, Washington, and Westside high schools, as well as Jane Long Academy.

Bond Construction

HISD's Bond Program – approved by voters in 2012 – calls for the renovation or rebuilding of 40 schools across the district. After a delayed start due to Hurricane Harvey, the 2017-2018 school year began in September with the formal opening of eight bond schools, including Furr, Wisdom, Milby, Waltrip, and Kashmere high schools and Mickey Leland College Preparatory Academy for Young Men. DeBakey High School for Health Professions was completed in time for summer school, but formally opened its doors to all students for the new school year. In January, three bond schools opened new facilities to students returning from winter break. Sharpstown and Scarborough high schools opened completed facilities, while Austin High School opened a temporary campus designed to house students while their old school is being demolished and rebuilt. Additional openings took place in March 2018, with Parker Elementary School opening its new building, and Westbury High School, Wilson Montessori, and Garden Oaks Montessori opening new additions.

The biggest bond school opening to date, however came in August 2018, as 11 bond schools — more than any other time in district history — finished construction and formally opened their doors to students for the first time. The 11 schools included Energy Institute, Washington, and Yates high schools; Eastwood, Pilgrim, and Young Women's College Preparatory academies; Wilson and Garden Oaks Montessori schools; High School for Law and Justice; Lawson Middle School; and Askew Elementary School. The opening marked a significant milestone for the 2012 Bond Program, as all HISD school construction was reported to be almost three-quarters complete. That number is expected to top 80 percent by the end of 2018, as the district prepares to open up to six more schools. Once all work is finished, the district will have one of the most modern portfolios of urban high schools in the country.

District Milestones

Strategy and Innovation

Innovation and Postsecondary Programming was established in June 2018 under Strategy and Innovation. This division is committed to providing the highest quality access and opportunity to all HISD students. Innovation and Postsecondary Programming works closely with campuses and district departments to increase the number of students graduating college-ready, provide access to college credit coursework in high school, and adopt new student-focused district projects. Starting in elementary school, students and parents are encouraged to take charge of their learning, connect with others about postsecondary education, and prepare for college early.

Dual Language Program

HISD started some of the first dual-language programs in the state more than 20 years ago. Currently, HISD leads the state of Texas with 56 dual-language programs and well-developed policies for bilingualism and biliteracy that consist of Spanish two-way and one-way dual language. In addition, the district has Mandarin, Arabic, and French immersion programs. Due to these powerful dual-language programs, the Association of Two-Way and Dual Language Education named HISD the recipient of the 2017 District of Distinction award.

International Baccalaureate

Another global program available in HISD schools is the International Baccalaureate, a challenging educational program for students ages 3 to 19 that helps develop their intellectual, personal, emotional, and social skills to live, learn, and work in a rapidly globalizing world. The number of HISD schools that offer the International Baccalaureate is 15 elementary schools, six middle schools, and five high schools, including five in the candidacy phase.

Fine Arts Department

The new Fine Arts Department was launched in the summer of 2017 under the directorship of Wenden Sanders with the belief that the fine arts play a significant role in the development of critical thinking, responsible decision-making, and cultural awareness. Rigorous fine arts instruction produces self-motivated, adaptable, productive, competent, lifelong learners equipped for the challenges of the global workforce. The department has a team of seven specialists in the areas of music, visual arts, dance, theater, and art integration.

Arts Connect

For four years, HISD provided creative learning experiences to schools through the innovative Arts Access Initiative. Recently, they changed their name to Arts Connect, and the number of schools they serve has grown to 47. Thousands of HISD students have had creative learning experiences provided by more than 30 arts organizations, including the Mayor's Office of Cultural Affairs and the Houston Arts Alliance. Equitable arts access ensures a complete education for all students.

Teach Forward Houston

For the third year, HISD and the University of Houston have joined forces to offer a teacher-preparation program with the goal of bringing HISD's brightest students back into the classroom to teach after graduation. Through the Teach Forward Houston fellowship program, 25 students from 18 HISD high schools have become the third cohort of seniors to be selected to pursue a degree in education. In exchange for a commitment to teach for four years in HISD, the district supplements their financial aid and scholarship packages to ensure that 100 percent of their tuition is paid over all four years. It guarantees that in the future, many HISD elementary and middle school classrooms will be staffed with talented, highly effective teachers who are driven by personal experience

Literacy Empowered

HISD expanded the successful Literacy By 3 and Literacy in the Middle programs to high schools with Literacy Empowered, approving \$2 million for the program. Nearly 300,000 new grade-level books and other reading materials were received last fall, and high school students gained access to a huge library of digital books. Collections include digital books in Spanish and digital audio books for independent reading. Science classrooms have access to various magazines, and schools received reading comprehension toolkits and additional classroom libraries for ninth- and 10th-grade reading-intervention classes. The new material and online access supports the literacy training provided last summer to all high school principals and teachers in core subjects. The literacy work is focused on three components — independent reading, writing in all content areas, and student discourse.

Books Between Kids Donates Thousands of Books after Hurricane Harvey

In the days after Hurricane Harvey hit Houston in August 2017, Books Between Kids opened its warehouse to hundreds of volunteers and received donations of thousands of children's books to replenish schools impacted by the storm. In partnership with HISD, the organization delivered more than 4,000 children's books to Robinson and Mitchell elementary schools, both recently relocated due to extensive damage directly related to floodwaters from the hurricane. They also delivered 15,000 children's books to relocated campuses across the school district, including Braeburn, Scarborough and Hilliard elementary schools.

Read Houston Read and Real Men Read Help HISD Students Become More Literate

The number of volunteers who participate in the Read Houston Read program continues to grow every year. These volunteers help first- and second-graders improve their literacy skills by reading to them once a week. Two volunteers for Piney Point Elementary, Cathy Geis and Cynthia Bryant, were named Read Houston Read volunteers of the year last year. Real Men Read is a mentoring program that supports HISD's Literacy By 3 initiative. Male business and community members volunteer to read to a third-, fifth-, or seventh-grader for at least one hour per month. At the end of that hour, the student gets to keep the book for their home library, receiving a total of five books each year. Scholastic is a partner in the program, providing the free books to students.

Social Media in HISD

Since July 2015, the number of HISD Twitter followers has risen to 138,881 from 38,649. Over the same period, the number of Facebook likes has risen to 40,175 from 11,159. The Office of Communications continues to offer support to schools to maximize their social media presence and website effectiveness in order to better Schools. The district hired 1,770 teachers for the 2016-2017 school year; 316 returned to the district, and 300 were internal teacher pro

PowerUp GO Student Landing Page

As part of PowerUp, the initiative to transform teaching and learning by providing laptops to all HISD high school students 24/7 during the school year, the district launched PowerUp GO at the beginning of the 2016-2017 school year. When students log in to their computer, they are taken to a student landing page called PowerUp GO. Designed with young adults in mind, the website has content written specifically for high school students, including information on scholarships, college readiness, career readiness, digital resources, a district calendar, job information, and much more. The site is constantly updated to keep students engaged.

Interim Superintendent of Schools - Biography Houston Independent School District

Dr. Grenita Lathan was named interim superintendent of the Houston Independent School District in March 2018, becoming the first African-American woman to serve as superintendent in HISD.

In 1991, Dr. Lathan began her career in education as a teacher at Morehead High School in Eden, North Carolina. While in North Carolina, she also served as both assistant principal and principal at other campuses. In 2008, she was named chief elementary school improvement officer of the San Diego Unified School District and then interim deputy superintendent in 2009.

Dr. Lathan was then named the superintendent of Peoria Public Schools in 2010, where she oversaw approximately 14,000 students and 2,700 staff members. Five years later in 2015, Dr. Lathan moved to Houston and served as HISD's chief school officer over elementary transformation schools for a year. During this time, she led more than 20 schools out of an "improvement required" state rating to a "met standard" rating. During the 2016-2017 school year, she served as HISD's chief academic officer.

Dr. Lathan holds a bachelor's degree in business education from North Carolina A&T State University, a master's degree in business education from the University of North Carolina at Greensboro, and a doctoral degree from Southern Illinois University.

Board of Education - Biographies

Houston Independent School District

Rhonda Skillern-Jones, President (District II)

Rhonda Skillern-Jones is a wife and mother of five children: three girls and two boys, including twins. She is a native Houstonian who has earned both a bachelor's degree in business administration and a master's degree in clinical sociology from Texas Southern University. As a volunteer social worker at the Mount Ararat Baptist Church, Skillern-Jones assists families with seniors and youth to overcome economic obstacles to their wellbeing. She and her family enjoy their 13-year membership at the church. Skillern-Jones has a strong faith in God and cites her parents as her heroes and role models. She served HISD in a volunteer capacity for 25 years before joining the school board. She has a passion for education and children, and believes that all children deserve an equitable and quality education for a fair start in achieving their maximum potential.

Mrs. Skillern-Jones was first elected to the HISD Board of Education in 2011, and is currently serving her second consecutive term. She has held several leadership positions on the board, including assistant secretary, secretary, first vice president, and president. She also represents HISD on the Texas Association of School Boards (TASB) Board of Directors, and is Vice Chair of the Steering Committee for the National School Boards Association's Council of Urban Boards of Education (CUBE). She also sits on the National Black Caucus of School Boards. Her other memberships include Delta Sigma Theta, Top Ladies of Distinction, and NAACP.

In recognition of her community and district efforts to enhance the lives of Houston children and citizens, she has received numerous achievement awards and honors. Among these are Top 40 Professional Women of the Year, School Board Member of the Year, Community Partner of the Year, Law Enforcement Children's Champion, Outstanding Advocate Award, TSCC Community Service Honoree, Top 10 Women to Watch, PTA Partner of the Year, and PTO President's Award.

While she has enjoyed being a stay-at-home mother for 25 years, Mrs. Skillern-Jones has had interval employment as a state social worker, teacher, and census director, and currently works for Harris County Precinct One as a community engagement director.

Jolanda Jones, First Vice President (District IV)

Jolanda Jones was elected to the Board of Education in November 2015 after serving as a Houston City Council member for four years. She is a firm believer in public education and is committed to strengthening the district's collaboration with the community to improve schools across the district.

Jones is a native Houstonian from Houston's Third Ward and a product of HISD. She attended Lockhart and Foerster elementary schools and Lanier Middle School. Jones later moved and graduated from Alief ISD's Elsik High School, where she finished magna cum laude and was an All-American athlete in track and field and basketball. She went on to attend the University of Houston (UH), where she was voted "The Most Outstanding Senior" and was nominated for the Rhodes Scholarship. Jones also earned three NCAA heptathlon championships.

Jones graduated from UH magna cum laude, with a bachelor's degree in political science. She later earned a Juris Doctor degree from the University of Houston Law Center. She owns a law practice, the Law Office of Jolanda Jones, which focuses heavily on criminal justice reform.

Jones has served as a volunteer in several HISD schools. She also has volunteered with the SHAPE Community Center Legal Clinic and NAACP Houston, providing free legal representation to members of underserved communities. She organizes charity events to bring awareness to Sudden Infant Death Syndrome in honor of her niece, who died from the condition.

Jones is a member of Alpha Kappa Alpha Sorority, Inc. Through her sorority's Emerging Leaders program for students, she has awarded several Attucks Middle School students with scholarships for academic achievement.

Jones was a member of the United States Track & Field Team and a national champion. She was also inducted into numerous halls of fame for athletics and academics. Jolanda has earned three "Jolanda Jones Days": two from the City of Houston and one from the City of Galveston. Jones' absolute proudest accomplishment is her son, Giovanni.

Anne Sung, Second Vice President (District VII)

Anne Sung was elected to the Board of Education in 2016. She is committed to pursuing equitable policies and programs that build strong schools in every neighborhood. She intends to focus more attention on fiscal responsibility to ensure that district dollars are managed to the greatest benefit for students' academic success.

Sung is a product of HISD, having attended Askew Elementary School, T.H. Rogers Middle School, and Bellaire High School. She graduated magna cum laude from Harvard University with a bachelor's degree in physics and mathematics. She also earned master's degrees in physics and public policy from Harvard.

While a physics undergraduate at Harvard, Sung co-founded the Harvard-MIT Math Tournament, now one of the most prestigious high school math contests in the country. She fell in love with education as a young Teach for America corps member in the Rio Grande Valley. As a Physics Teacher Resource Agent with the American Association of Physics Teachers, she provided professional development to physics teachers in south and central Texas. Returning to her hometown of Houston, Sung then taught at Lee (now Wisdom) High School, where she taught physics and chaired the science department, and was named 2011 Teacher of the Year.

Sung co-founded the group Community Voices for Public Education to give Houston students, parents, educators, and community members greater voice in strengthening public education. Her many other active community roles include serving as founding convener of the Capital One Northside Education Coalition; board member of the Organization of Chinese Americans; and coach of the Texas American Regions Math League team.

Sung was previously Director of Strategic Planning and Public Policy at the Harris County Sheriff's Office. She currently serves as Vice President and Chief Strategy Officer for Project GRAD Houston, which helps students in low-income neighborhoods develop and achieve their educational aspirations for college and career. She and her husband have one daughter.

Sergio Lira, Secretary (District III)

Sergio Lira was elected to the HISD Board of Education in December 2017. He is a passionate advocate for educational social justice to ensure all students are academically prepared to compete effectively in college, career, and a global economy. He is committed to strengthening neighborhood schools to attract and retain top students and build on academic, fine arts, and athletic programs.

Dr. Lira attended HISD schools and is a graduate of Stephen F. Austin High School. He attended the University of Houston, where he earned a bachelor of science in business commerce, master's degrees in liberal arts and education management, and a doctorate in educational leadership and policy studies. He graduated from the Superintendent Certification Program at the University of Houston–Clear Lake.

Dr. Lira has worked most of his career as an educator in District III. He was named the Southeast District “Teacher of the Year” while an elementary school teacher. As an administrator, he has a proven record of turning around underperforming schools. From 2006 to 2009, Dr. Lira served as assistant principal at Chavez High School, where he contributed to an increase in TAKS scores from the low 20s to the high 70s in math and science. Since 2009, he has been an assistant principal at Bellaire High School, which saw significant improvements in student STAAR math scores during his tenure.

Dr. Lira has received numerous awards for his educational leadership, including the 2016 Courage Award from the Texas Organization Project for “Helping Immigrants and Families,” and a 2009 Fellowship Award to the Harvard Graduate School Fellows Institute for his attendance in “Improving Schools—The Art of Leadership.” Dr. Lira has presented seminars at the University of Houston for the past five years on “Maximizing Opportunities for At-Risk Students.”

Dr. Lira and his wife have two college-educated children who also attended HISD schools, and a grandson who attends an HISD elementary school.

Holly Maria Flynn Vilaseca, Assistant Secretary (District VI)

Holly Maria Flynn Vilaseca was elected to a four-year term representing District VI in November 2017. She has served since January 2017, when trustees unanimously appointed her to serve the previous unexpired term. Her goal is to ensure that students have access to rich, engaging, and personalized learning experiences that equip them with the skills to succeed in their chosen career after high school. Throughout her career, she has worked to close the achievement gap.

Flynn Vilaseca grew up in a working-class family in a small town in rural Ohio. She is the product of public schools there. She is the daughter of a Colombian immigrant, and is the first in her family to go to college, earning bachelor's degrees in Latin American and Caribbean studies and in Sports Management and Communications from the University of Michigan. She has a master's degree in Social-Organizational Psychology from Columbia Uni-

versity.

After earning her undergraduate degree, Flynn Vilaseca became a Teach for America corps member, and began her education career in 2004 at HISD's Windsor Village Elementary School, where she worked as a bilingual pre-kindergarten teacher. She taught bilingual and dual-language early-childhood classes for six years in traditional public and charter schools. After transitioning from the classroom, she continued her work in the education field at Battelle for Kids, K12 Inc., and thinkLaw.

Flynn Vilaseca has extensive experience in the areas of learning and development, instructional design, and coaching across diverse audiences. She has consulted with urban school districts across the United States regarding strategy, the implementation of software programming, districtwide evaluation systems, virtual and blended learning environments, and human capital development.

Flynn Vilaseca has been featured in Latino Leaders Magazine, is a Rotarian, and has served on the City of Houston Mayor's Hispanic Advisory Board for Annise Parker and Sylvester Turner. She lives with her husband and toddler-age son.

Elizabeth Santos, Trustee (District I)

Elizabeth Alba Santos was elected to the Board of Education in December 2017. She believes children deserve outstanding teachers in every classroom, so she is focused on hiring and retaining great educators throughout the school district. This investment in educators includes offering not only competitive teacher salaries but opportunities for relevant and worthwhile professional development and shared decision-making. Her goals also include eliminating the culture of high-stakes standardized testing in schools and strengthening ethics rules for the HISD Board of Education.

Santos was born and raised in Houston, the daughter of Mexican immigrants. She attended neighborhood schools in HISD, including Janowski and Herrera elementary schools, and Burbank Middle School. She is a proud graduate of Sam Houston High School. Due in part to her positive experiences, Santos is committed to strengthening the community-schools model in HISD. She believes that building relationships between a community and its schools ensures their growth and sustainability. Santos seeks and welcomes input from school stakeholders, who have valuable insight into the strengths and needs of their community. She recognizes that student success also depends on factors that extend beyond the classroom, such as the need for basic health care and stability, so she will work to make every neighborhood school the heartbeat of its community with support services for students and their families.

Santos earned an associate degree from Houston Community College and a bachelor's degree in English Literature from the University of Houston–Downtown. Recognizing the importance of building her community and giving back, Santos returned to Sam Houston as a teacher, where she served for seven years and was nominated multiple times for Teacher of the Year. Most recently, she taught at Northside High School, her mother's alma mater.

As a student, volunteer, youth counselor, and teacher, Santos has dedicated her life to underserved youth in her community. She is a community advocate and is actively involved in Community Voices for Public Education, Houston Area Progressives, the Texas Organizing Project, Boards, and Commissions Leadership Institute, the Mexican-American Emerging Leaders Organization, American Jewish Committee, and many others. Santos has served as an example to her students and hopes to create an empowered community that includes students who are self-advocates.

Sue Deigaard, Trustee (District V)

Sue Deigaard was elected to serve on the Board of Education in November 2017. Her vision for HISD is to prepare all students to succeed by creating a culture of achievement that recognizes the unique potential of each student. She believes all children should have equitable access to excellent learning opportunities, both through magnet programs and strong neighborhood schools, with diverse choices that accommodate a wide range of student needs and interests. She also supports the community schools model, which calls for wraparound services to address social and economic challenges that students face outside the classroom.

Deigaard attended public schools in Illinois. She was the first in her family to graduate from college, and she understands the importance of a strong public education. She moved to Houston to attend Rice University, where she earned bachelor's degrees in English and flute performance. She is also a fellow with the American Leadership Forum Class XLIII on community education and was a 2015 New Leaders Council fellow.

For more than 20 years, Deigaard has worked in various capacities in education advocacy, community engagement, and program development. She has been an active and informed voice at the state and local levels, advocating for effective policies and funding for HISD students. She serves as a Houston City Council appointee to the Houston Center for Literacy Board, is a parent representative on the HISD District Advisory Committee, and chairs the Communications Committee for Arts Access Initiative, which seeks to expand arts education to all K–12 students in HISD.

Given Deigaard's strong background in volunteer activism and parental involvement, she will prioritize family and community engagement to empower adults and mentors outside the classroom to become strong advocates for their own children and all Houston children. She will seek innovative solutions to enhance student achievement through a collaborative, community-based, student-focused process.

Deigaard is a 30-year resident of District V, and her two daughters attend HISD schools.

Diana Davila, Trustee (District VIII)

Diana Dávila was elected to the Board of Education in 2015. She previously served on the board from 2003 to 2010. She believes that every student in HISD should be provided with a high-quality education to ensure their future success.

A former teacher, Dávila is a native Houstonian and life-long resident of the East End. She also is a product of HISD, attending Park Place and Lewis Elementary Schools and Deady Middle School before graduating from Milby High School.

She went on to attend the University of Houston, where she earned a bachelor's degree in interdisciplinary studies with an emphasis on bilingual education. She also earned a master's degree in educational management and principal certification from University of Houston-Clear Lake.

Dávila has been recognized as an outstanding volunteer by HISD Volunteers in Public Schools (VIPS) for a tutorial program she initiated with her husband at Tijerina Elementary School and Houston Community College. Through this program, parents, and students received tutoring in reading and math while also gaining an appreciation for the college experience.

A mentor with the Best Friends program for girls, Dávila has served as a community liaison for the Hispanic Educational Leadership Committee, for which she helped raise more than \$300,000 in scholarship money within four years.

In 2015, she began volunteering weekly with M.D. Anderson Cancer Center to honor her father, who is a cancer survivor. When her father became ill five years ago, Dávila resigned from the board to help care for him. She is married with two children.

Wanda Adams, Trustee (District IX)

Wanda Adams was first elected to the HISD Board of Education in 2013 after serving the limit of three two-year terms as Houston City Councilmember for District D. She is currently serving her second consecutive term. Her commitment is to continue to incorporate strong literacy programs, strengthen parent and community engagement, and decrease the number of low-performing schools. She also serves as South Regional Vice President for the Texas Caucus of Black School Board Members.

Ms. Adams is a native Houstonian and product of HISD, graduating as a basketball standout from Kashmere High School. She received an athletic scholarship to Texas Southern University, where she earned her bachelor of science degree in public affairs and a master's degree in public administration.

She has served as a professor of political science at her alma mater, where she also hosts the KTSU public-affairs radio program, "Impact Houston Live." She brings to her classroom and the radio program not only experience as an elected official but a long career in public service. She recently served on the NCAA Final Four Sustainability Committee and the Super Bowl LI Sustainability Committee. Ms. Adams is also the first African-American woman to be appointed to serve on the Harris County Appraisal District Board of Directors.

As a public servant, Adams has been committed to support for the homeless, veterans, the disabled, and mentally ill, and is a strong advocate for breast cancer awareness and women affected by domestic violence.

She is a proud member of Delta Sigma Theta Sorority, and has had the honor of being appointed to national committees, including the Social Action Commission and the National/Regional Housing Task Force. She also serves as a trustee for the Museum of Fine Arts Houston and is a member of Leadership Houston Class 30.

Ms. Adams is a Sunday school teacher for the Fountain of Praise church, through which she participated in a mission trip to Cape Town, South Africa. The HISD trustee has traveled throughout the world – including Africa, Europe, and South America.

Among her awards are having a community park and community door named in her honor; Women Making History Leadership Award from Texas Democratic Women of Harris County; Kashmere Former Athletes Association inductee into the 2018 Kashmere High School Ring of Honor; Black Professional Cowboys and Cowgirls Association 2017 Trailblazer of the Year; 2017 Servant Leader Award from Fountain of Praise Church; 2017 Communication and Leadership Award from Toastmasters International; 2017 Knights of Peter Claver Living Legends Award; being featured in Houston Woman magazine's Top 50 Women in Houston; the Houston Area Association for the Education of Young Children's Elected Official of the Year Award; selection to RollingOut.com's Top 25 Women; and the Award of Distinction from the National Forum of Black Public Accountants. Adams also partnered with KRIV Fox 26 on a television news special, "Diversity in the Classroom," at Westbury High School. The program won a 2015 Lone Star Emmy Award.

District Structure and Organization

Houston Independent School District

District Overview

The Houston Independent School District (HISD) is the largest public school system in Texas and the seventh largest in the United States. It serves the city of Houston, Texas, the fourth largest city in the United States with a population of more than 1.9 million and a land area of 594 square miles. The city and greater metropolitan area are ethnically and culturally diverse. The district encompasses 301 square miles within greater Houston, encompassing approximately 54 percent of the geographic area of the City of Houston, all or part of four other cities or villages, and certain unincorporated areas. HISD serves an enrollment of approximately 213,500 students in prekindergarten through twelfth grade programs. The district has an estimated average daily attendance of approximately 192,132 in 284 schools, including 13 external charter schools.

HISD was established on March 23, 1923, by an act of the 38th Texas Legislature, repealing an earlier law that gave the City of Houston jurisdiction over the public schools, and creating the "Houston Independent School District, separate and apart from the municipal government of the City of Houston." The law gave the district the power to levy and collect taxes, to issue and dispose of bonds, and to provide payment for them. Since its inception, the district has grown in size and stature over the past 87 years to become one of the premier urban school districts in the United States.

HISD's school reporting structure is organized by area, which enables school-support teams to identify and address instructional gaps throughout feeder patterns while connecting communities with needed resources and central-office services. For the 2018-2019 year, the six areas that align support to focus on campus needs are:

North Area

Northwest Area

South Area

East Area

West Area

Achieve 180 Area

The document, 'A Declaration of Beliefs and Visions' has served as a roadmap to success since it was set forth in 1990. It is a statement of HISD's instructional and operational philosophy, and has been the cornerstone of the district's efforts to improve student achievement, operational efficiency, public support, district culture, and facilities. The basic tenet is HISD's commitment to focusing all of its resources on students and schools. While that commitment has remained constant, subsequent Boards of Education have varied in approach and strategies for delivering the best outcomes for HISD students. Differences were reflected in revisions to 'A Declaration of Beliefs and Visions' that were made in 2010. The 2017 Board of Education recommended new changes to the vision and beliefs, and the addition of a mission statement, constraints, and goal progress measures.

Houston Independent School District **ORGANIZATION, September 2018** **Superintendent of Schools**

This Organization Chart reflects HISD's Administration as of the Budget Adoption date.

Strategies and Initiatives

Houston Independent School District

Along with the development of the high level components of the strategic plan for the district, the district undertakes many specific initiatives to facilitate accomplishment of the stated goals.

The following represents a partial list of the various district-wide initiatives and programs as they correspond to the six goals of the district as well as an indication of the progress towards accomplishment of these goals. Some of these initiatives are already underway and listed below.

Goal 1: Increase Student Achievement

Strategies and Initiatives

HISD student performance will demonstrate gains as evidenced by scores on STAAR, SAT, and other state and national tests, thus narrowing the achievement gap, and graduating students who are college- and career-ready.

HISD Meets State Accountability Standard

Although the Houston Independent School District received a “Not Rated” label for meeting the state’s criteria to qualify for the Hurricane Harvey waiver, the district was calculated to have earned an overall B rating under the state’s new school accountability system. According to ratings released by the TEA, 91 percent of HISD schools (251 out of 275 rated campuses) earned a “Met Standard” rating for the 2017-2018 school year. In three years, HISD reduced the number of campuses labeled “Improvement Required” (IR) by the state from 58 to 7. An additional 17 schools were “Not Rated” due to meeting the state’s criteria for the Hurricane Harvey waiver. Fifteen of these 17 campuses will remain on IR status from the prior year, requiring them to comply with state and federal improvement planning. This is the lowest number of campuses HISD has had in IR status since 2012.

HISD Elementary, Middle and High Schools Recognized on Local and National Levels

Challenge Early College High School, Debakey High School for Health Professions, and East Early College High School were named National Blue Ribbon Schools by the U.S Department of Education for 2017-2018. Several high schools were featured in the U.S. News & World Report Best High School rankings: Carnegie Vanguard High School was ranked the 15th-best high school in the nation and the fourth-best in Texas, and DeBakey High School for Health Professions, Eastwood Academy, and Challenge Early College High School were ranked in the top 100.

Children at Risk named DeBakey High School for Health Professions Number 1 in its annual rankings for the eighth-straight year, and five other high schools were in the top 10:

- Eastwood Academy (2),
- Carnegie Vanguard High School (3),
- East Early College Challenge Early College High School (6),
- Sharpstown International School (8), and
- Challenge Early College High (10).

Five HISD middle schools were recognized as top 10 performers:

- T.H. Rogers School (1),
- Project Chrysalis Middle School (4),
- Lanier Middle School (6),
- Energized for STEM Academy Southwest MS (6), and

- Mandarin Immersion Magnet School (9).

On the elementary school list, four HISD schools were ranked in the top 10:

- T.H. Rogers School (1),
- Horn Elementary School (4),
- River Oaks Elementary School (5), and
- West University Elementary School (6).

Baylor College of Medicine at Ryan was named a 2018 School of Distinction by **Magnet Schools of America**, the national association for magnet and theme-based schools.

Additionally, 33 HISD schools earned a spot on the **2017 Texas Honor Roll** by the Educational Results Partnership. Project Chrysalis Middle School was recognized by the Texas Education Agency as a National Title I Distinguished School, an award that honors schools for their positive educational advances. The school is one of two in the state of Texas to receive the designation.

College Readiness Advising Efforts Net Enrollment and Persistence Gains:

In spite of delays and displacements from Harvey, advisors were able to meet with 6,589 unique students in the 2017-2018 school year (up from 5,933 the previous year) and had a total of 17,816 student interactions (up from 17,180 last year). More HISD graduates enrolled in postsecondary institutions in the year after high school in the Class of 2017 (5,837) than the Class of 2016 (5,546).

- Fifty-five percent of seniors who graduated in 2017 enrolled in college during the next school year (32 percent to 4-year and 23 percent to 2-year institutions).
- For the Class of 2018, 78 percent of seniors applied to college (56 percent to a 4 year-program and 43 percent to 2 year-program).
- College Success Advisors advised 56 percent of 2018 seniors. Of these, 88 percent applied to a college (67 percent to a 4-year program and 53 percent to a 2-year program).
- Compared to the Class of 2015, 17 HISD high schools had increases in graduate enrollment and 22 high schools improved the enrollment rate to four-year colleges and universities.
- Three hundred seventy-one SPED seniors were advised by a College Success Advisor. Of those, 271 applied to college and 193 submitted a FAFSA.
- Students who were advised by the College Success team completed their FAFSA/TASFA at a 71 percent rate (60 percent for all seniors in the district).

Class of 2018 continues trend of increasing FAFSA submissions and Scholarship and Financial Offers received:

The total increase from 2015 to 2018 for number of scholarship and financial aid offers was \$149,201,371. A 56 percent increase.

- African Americans increase from 2015 to 2018 for number of scholarship and financial aid dollars was \$25,496,024. A 30 percent increase.
- Hispanic increase from 2015 to 2018 for number of scholarship and financial aid dollars was \$90,343,582. A 86 percent increase.
- Asian increase from 2015 to 2018 for number of scholarship and financial aid dollars was \$15,115,112. A 57 percent increase.
- White increase from 2015 to 2018 for number of scholarship and financial aid dollars was \$15,550,844. A 38 percent increase.
- Other increase from 2015 to 2018 for number of scholarship and financial aid dollars was \$2,695,809. A 38 percent increase.

Other gains include:

Over 60 percent percent of graduating seniors completed a FAFSA or TASFA, matching the previous year's number (increase from 40 percent in 2015). This required extra work this year because the number of students flagged for verification this year almost doubled (3,448 vs. 1,758). Broadly the amount of time advisors had to spend with students with special financial circumstances increased significantly this year because of the impact of Harvey not being reflected in their parents' tax returns.

More Students Participating in SAT Testing

SAT results for the Class of 2018: HISD participation rate for the Class of 2018 increased by three percentage points, from 85 percent in 2017 to 88 percent in 2018.

HISD's performance is relatively lower than the nation, but the participation rate is significantly higher than the state's rate of 66 percent which is provided by CollegeBoard. (Comparisons to prior years are not included due to the change in test format that occurred in March 2016).

- Official SAT Practice (OSP) at Khan Academy remains at the forefront of the district's initiative to prepare students for PSAT and SAT exams.
- Students spent over 1,000,000 minutes using OSP at Khan Academy in 2017-2018, up from 800,000 minutes in 2016-2017, to prepare for PSAT and SAT exams.
- 9,642 HISD students participated in the 2018 School Day SAT administration, as compared to 9,601 HISD students in 2017.
- In the 2018 School Day SAT administration, HISD is closing the gap in performance. HISD students saw a mean score of 944, while students in the state and nation saw mean scores of 959 and 964, respectively.
- 50,681 test takers completed the SAT or a PSAT-related assessment (PSAT/NMSQT, PSAT 10, or PSAT 8/9) in the 2017-2018 school year.

Fifty HISD students named National Merit Semifinalists

Fifty students in the Class of 2019 were named as semifinalists in the 64th annual National Merit Scholarship Program. These HISD students are among 16,000 from across the country to earn the semifinalist designation, allowing them the opportunity to continue in the academic competition and vie for nearly \$33 million in scholarships that will be awarded next year. The National Merit Scholarship Program provides college scholarships to academically talented U.S. high school students who score well on the PSAT. Scholarships are provided to students from each state who have the strongest combination of accomplishments, skills and potential for college success.

More HISD Students Than Ever Before Taking AP Exams, Earning College Credit

HISD students are earning significantly more college credit through Advanced Placement (AP) exams now than they have in the past 11 years, according to data released by the CollegeBoard.

The results from the Advanced Placement (AP) examinations have been released by the CollegeBoard. The Advanced Placement Program provides high school students with the opportunity to take college-level courses and earn college credit. There are a total of 36 AP exams offered across all subject areas. HISD schools administered all 36 AP exams in 2017-2018. The AP grade scale ranges from 1 to 5, and a score of 3 or higher qualifies a student to earn college credit.

- An 11.4 percent increase in the number of AP exams scored at 3 or higher from 2017 (9,379) to 2018 (10,439), saving HISD families an average of \$11 million in college tuition (had these courses been taken at a four-year Texas public college).
- A 3.5 percent increase in the number of HISD students who took an AP exam from 2017 (14,851) to 2018 (15,365).
- A 2.2 percent increase in the number of AP exams administered to HISD students from 2017 (27,877) to 2018 (28,483).

Postsecondary Programming Highlights for 2018

- According to CollegeBoard reports, equitable access in HISD is best-in-class! 61 percent of students in the class of 2018 were connected with fee waivers and fee reductions for AP, PSAT, and SAT exams.
- 110 AP Capstone awards were earned, which is the second highest in Texas and tenth highest in the nation.
- A total of 1,938 HISD students received an AP Scholars distinction by, at least, scoring a 3 or higher on three or more AP exams in 2018.
- More HISD schools will offer an International Baccalaureate (IB) programme in future school years.

The schools below are in the IB candidacy phase, which is a 2 to 3 year process:

- Arabic Immersion
- Foster ES
- Mading ES
- Patterson ES
- Shadydale ES
- Cullen MS
- Henry MS
- Houston MSTC
- Sharpstown International
- Worthing HS
- Yates HS

Dual Credit

- Dual credit enrollment increased from 4,778 in 2015-2016 to 5,379 in 2016-2017 (12 percent increase).
- The number of associate degrees increased. The number awarded in 2015-2016 was 234 while the number in 2017 was 372 (59 percent increase).

EMERGE & Project Explore

- Over 1000 students submitted applications to join the EMERGE Class of 2020
- Over 250 HISD EMERGE students from the class of 2018 were admitted to top colleges across the country.
- The EMERGE Class of 2014, comprised of 65 students, graduated college in 2018. This coming year, the EMERGE Class of 2015, comprised of 99 students will graduate.
- 95 percent of alumni in college are on track to graduating within 4 years.
- EMERGE students received an average of over \$150,000 in 4-year grants/scholarship offers
- EMERGE is partnering with Breakthrough Houston to provide academic enrichment and advising to high achieving middle school students at Achieve 180 Schools
- Modeled after EMERGE, the district launched a new college advising initiative, Project Explore. Over 700 middle school students at 10 high-need middle schools will participate in out of state college tours, receive individualized advising, and explore college & career options

CTE

- The number of students enrolled in CTE courses has increased from 40,980 (2016-2017) to all-time high of 42,652 (2017-2018)
- The district has achieved an all-time record in the number of students who complete CTE approved pathways (22,123 students in 2015-2016)
- The number of high school graduates who earned a TEA Industry recognized certification

increased from 267 in 2017 to 722 in 2018

- CTE has 13 accredited NCCER labs across the district; one of the biggest programs in the Gulf Coast Region
- The Career Ready Wagon, our mobile CTE lab that provides career awareness education to the district's elementary school population, visited 34 elementary schools and engaged 10,500 students
- CTE conducted a district-wide audit of all CTE students' Personal Graduation Plans to ensure they were coded properly

Ascending To Men (ATM) Project

The Ascending to Men (ATM) Project works intentionally with cohorts of male students at select schools to build out their future post-secondary educational and career aspects through academic, social-emotional, and workforce interventions. The mission is to leverage community resources and mentorship to ensure that our minority male students from historically underserved demographics can enter the college and/or career of their choice upon graduation from HISD. The program aims to serve 300 students directly during the first year, and seeks to attain increases in student attendance and academic achievement as well as a decrease in student disciplinary infractions.

Goal 2: Improve Human Capital

Strategies and Initiatives

The district seeks to create a performance culture that values employees who are results-oriented, talented, innovative thinkers; individuals who strive to increase student achievement and contribute to the reformation of public education.

Prioritize Staff

Implement priority recruitment staffing for all instructional positions for hard to staff campuses including training for campus hiring teams, differentiated teacher selection events to meet campus needs, HR Business partners to prioritize hiring processing for hard to staff campuses, and source/identify quality teacher candidates for campus leaders.

HISD to Increase Retention of Effective Professional Staff at Hard to Staff Campuses

Retain effective instructional and other professional staff members by providing staffing incentives, year-long mentoring, and continuous professional development.

Professional Educators Compensation

Leverage staffing incentives up to \$5,000 to successfully attract high performing teachers to either transfer or sign a contract to work at an Achieve 180 campus.

Provide professional staff extra duty pay for two hours for Professional Development to improve instructional practices and increase student achievement.

Taking the Lead in School Leadership

The HISD Leadership and Teacher Development department's mission is to develop highly effective leaders who increase student achievement for every student in the Houston Independent School District. Leaders from more than 100 schools are nurtured through consistent professional development, campus-based coaching, and regular practice labs — all geared toward student achievement. These transformational efforts have four critical areas of focus:

- Data-driven instruction that defines the roadmap for rigor and adapts teaching to each student's needs
- Professional one-on-one teacher coaching and feedback to increase effectiveness
- Instructional planning that guarantees well-structured lessons with meaningful content
- Creation of a strong culture among both educators and students in which learning thrives and habits for success are developed

Leadership development provides on-the-job support for various campus leadership roles and development opportunities for capacity building through the initiatives listed.

- Current leader (First- and second-year Principals and Assistant Principals/Deans) mentoring and support
- Aspiring Leaders through the School Leadership Academy
- Aspiring Principals through the Principal Candidate Development Opportunity
- Principal development through monthly sessions and Professional Learning Series (PLS)
- Leadership Instructional Planning sessions

Result of the leadership development opportunities in 2016-2017, provided for an:

- Increase in number of principal candidates hired from our HISD grow-your-own program
- Increase in number of School Leadership Academy (SLA) cohort hired for leadership roles

Growing Our Own Talent/Career Pathways Teacher Leader Program

The HISD Teacher Career Development team is creating the next generation of instructional leaders by growing our own talent through a variety of opportunities. The department mission is to create an avenue for teachers to grow and thrive. The program works to improve teachers' effectiveness and reward great teaching, in order to increase student achievement and retain top teachers. On each HISD campuses there are teachers whose behaviors and strategies enable them to find better solutions to improving student outcomes. These instructional teacher leaders, cultivated by the Career Pathways Teacher Leader program, are able to support their peers, focusing on developing early career teachers, so students in every classroom learn, every day.

The Career Pathways Teacher Leader program leverages the highest performing teachers to expand their reach to colleagues and students while remaining in the classroom. Teacher leaders support campus learning, in areas aligned to campus needs, in the most effective way possible – through individualized coaching, modeling, observation, and feedback for their peers within the context of their campus culture. The program is built on a distributive leadership model that allows campuses to build a bench of strong instructional leaders and offer an additional layer of support to teachers, especially novice teachers, outside the appraisal system.

Career Pathway campus level teacher leader roles include:

- Classroom Culture Specialist
- Data Tracking & Assessment Specialist
- Effective Practice Specialist
- Instructional Technology Specialist
- Literacy Specialist
- STEM Specialist
- Instructional Excellence Coach

Teacher Appraisal and Development System focus on Teacher Effectiveness and Capacity-building

During the Effective Teachers Initiative (launched in 2010), HISD prioritized the design and implementation of a Teacher Appraisal and Development System (TADS) that gives teachers, principals, and district officials the information they need to improve instructional practice and make staffing decisions that ensure that every student in the district is learning from an effective teacher. The appraisal system was implemented in 2011–2012. Each teacher is paired with an appraiser who coaches the teacher to become more effective through observations, walk-throughs, curriculum planning, professional development, and assigning student outcome measures to assure overall effective teaching. Effective teaching is determined by three appraisal components – Instructional Practice (IP), Professional Expectations (PE), and Student Performance (SP). Teachers are rated on a scale of 1 to 4 along each of these components. These ratings are then calculated together to determine an overall Summative Rating on the same four-point scale: Ineffective, Needs Improvement, Effective, and Highly Effective. The goal is to describe the distribution of teacher summative ratings and the ratings of each criteria that are used to construct a teacher's overall appraisal rating. This then examines how these ratings are distributed across key campus and teacher level variables. These variables include the school's academic level, Index 1 scores, improvement required ratings, teacher's years of experience, and whether or not a rated teacher is a core-subject or critical shortage instructor.

Teacher Development Specialists Have Positive Impact on Teachers and Students

A key ingredient for Teacher development is job-embedded instructional coaching provided by Elementary and Secondary Teacher Development Specialists (TDS). Elementary & Secondary Curriculum and Development TDS provide support to campuses in the following ways:

- Model Effective Instruction
- Provide Customized Professional Development
- Facilitate PLC Meetings
- Observe and Provide Feedback
- Data Analysis
- Instructional Planning

TDS's are organized into literacy, language arts, mathematics, science, social studies, instructional technology, dual language, and STEM content teams. In the 2018-2019 year, TDS are aligned directly to Achieve180 and Superintendent schools. In addition, other area campuses are prioritized by need for TDS support components.

Goal 3: Provide a Safe Environment

Strategies and Initiatives

The district shall create a safe environment conducive to learning for all students and provide safety and security measures at district schools and facilities, and while attending district-related events.

As part of several safety initiatives put in place for the 2018-2019 school year, The Houston Independent School District Police Department developed a new Emergency Response Team designed to respond to potential crisis situations throughout the district. The 10-member team has specialized uniforms and equipment, allowing them to mobilize and deploy quickly when a crisis occurs.

Other district safety initiatives include increasing campus and district safety drills, establishing a Northeast area police substation to better support the schools and communities in that area, providing HISD police officers with standardized equipment, and supporting the district's anti-bullying program. The district also established a community outreach department to develop strong relationships within the community by providing a bridge for open communication to share ideas and concerns, increase the understanding and support of the department's mission, and build trust and collaboration between the district and the community.

Goal 4: Increase Management Effectiveness and Efficiency

Strategies and Initiatives

The district shall have a decentralized organizational structure that will promote autonomy and innovation in schools. With a districtwide commitment to performance over compliance and a shared accountability system in place, the district shall employ best practices of administrative principles to make optimal use of district resources and taxpayer dollars.

All HISD schools are now qualified to operate under the USDA's Food and Nutrition Service Community Eligibility Provision, which allows HISD to provide breakfast, lunch, and dinner at no charge to all students, eliminating the need for free and reduced-price meal applications.

The program allows the nation's highest poverty schools and districts to serve meals at no cost to all enrolled students without collecting household applications. This approach reduces burdens for both families and school administrators while helping ensure students receive nutritious meals.

In line with the previous year's goal of providing an increased number of healthy food options to students, Nutrition Services implemented salad bars across all grade levels at 241 campuses, with remaining campuses set to offer salad bars by the spring of 2019.

Additionally, their efforts focus on food literacy to teach students to think critically about their diets and to make food choices that establish lifelong eating habits to promote optional health and well-being.

Goal 5: Improve Public Support and Confidence in Schools

Strategies and Initiatives

The schools belong to the people; hence, the board, administration, and support staff are public servants who exist to support the schools and the relationship between teachers, students, and parents. Public confidence will increase as the district increases transparency, accountability at all levels, and meaningful engagement of the community.

HISD to open eleven schools for 2018-2019 school year

The 11 schools included Energy Institute, Washington, and Yates high schools, Eastwood, Pilgrim, and Young Women's College Preparatory academies, Wilson and Garden Oaks Montessori schools, High School for Law and Justice, Lawson Middle School and Askew Elementary School.

The opening marked a significant milestone for the 2012 Bond Program as all HISD school construction was reported to be almost three-quarters complete. That number is expected to top 80 percent by the end of 2018, as the district prepared to open six more schools.

Goal 6: Create a Positive District Culture

Strategies and Initiatives

The district's clearly articulated purpose will serve as the catalyst for creating a powerful sense of community and a shared direction among personnel, parents, students, and the public. Because the district realizes the value of investing in human capital, the district will work to attract and retain the best teachers and staff members, and create working conditions in which their talents can flourish.

HISD Promotes a Positive Culture by Celebrating Excellence and Soliciting Employee Feedback

During the 2018 school year, HISD continued several practices intended to promote a positive district culture. The superintendent continued to host central office meetings to discuss topics relevant to central office staff. Meanwhile, the district continued to celebrate excellent performance by highlight employees through Employee of the Month recognition ceremonies held at monthly Board of Education meetings.

Teacher of the Month Program

As part of the Teacher of the Month program, the superintendent and a rep from Sterling McCall VIP Services surprise a teacher each month. The teacher is presented with an award, a gift basket of promotional items, a \$150 gift card, and a luxury loaner vehicle. Each of the seven HISD area superintendents are responsible for selecting a teacher from their region to be honored.

Special Education conference focuses on improving outcomes for students with disabilities

HISD Interim Superintendent Grenita Lathan addressed parents and HISD staff at the two-day conference themed Engage, Restore and Support Every Student at the district's fifth-annual Special Ed Conference at Kingdom Builders' Center encouraging them to create an environment where all children can succeed.

HISD Interim Superintendent Grenita Lathan shared the strides HISD has made to improve the district's special education initiatives, including a study the district commissioned in December 2016 to assess the strengths and areas in need of improvement with respect to special education. As part of the district's commitment to improving outcomes for students with disabilities, the district will be hiring more than 75 new dyslexia coordinator positions.

The two-day conference focused on arming participants with new and effective instructional, compliance and behavioral strategies.

Future Priorities/Challenges

The Houston Independent School District will continue to build on its past successes by increasing the graduation rate, improving human capital, expanding the emphasis on performance management, and strengthening communications.

Student achievement data indicates reading growth continues to be an opportunity for improvement, and the district continues to respond by prioritizing the maintenance and implementation of the HISD Literacy by 3 initiative. HISD program evaluations suggest that this program has had a positive impact on student reading achievement in the district's early elementary grades, and thus the district has expanded this reading initiative to include middle school (Literacy in the Middle) and high school (Literacy Empowered) students. The District has also responded by implementing support from efforts of the district reading screener, Student Assessment data professional development, and increasing targeted Intervention Assistance and Dyslexia Intervention.

HISD continues to invest in the district's PowerUp initiative to transform teaching and learning through technology. The initiative to provide high school students with laptops remained a priority in 2017-2018 and for 2018-2019.

Instruction and Support Services

Houston Independent School District

HISD schools serve a diverse student population in both traditional and alternative classroom settings. The district is dedicated to giving every student the best possible education through an intensive core curriculum and specialized, challenging, instructional and career programs. HISD provides a full range of programs and services for its students, including elementary and secondary courses for general, vocational, and college-preparatory levels, as well as magnet programs and gifted and talented programs. A wide variety of co-curricular and extracurricular activities supplement the academic programs.

HISD Schools Makeup

Early Childhood	8
Elementary Schools	159
Middle School	38
High School	38
Combined/other	<u>41</u>
Total Number of Schools	284

Elementary Programs

HISD has an enrollment in its 159 elementary schools of more than 112,500 students in grades Pre-K-5. Some elementary schools include grade 6 and some also have grades EE-8. The elementary instructional program includes a foundation curriculum of reading, writing, spelling, oral language, listening, mathematics, science, and social studies. The enrichment curriculum offers health, physical education, and fine arts. Some elementary schools offer opportunities to learn languages other than English. In addition to classroom experiences, students have co-curricular opportunities in the greater Houston community, through district sponsored activities at museums, science, and arts organizations. The district emphasizes that each child must have a consistent, challenging curriculum that surpasses state requirements. Advanced Academics, Bilingual Education, English Language Learners, and Special Education programs are available to meet specific needs.

Middle School Programs

HISD's 38 middle schools typically instruct more than 38,100 students in grades 6-8. The middle school foundation and enrichment courses develop concepts and skills introduced in elementary school. Career and Technology Education courses are available to expose students to a variety of career possibilities.

High School Programs

HISD's 38 high schools instruct more than 49,300 students in grades 9-12. High schools offer students advanced education in English language arts, mathematics, social studies, and science. All students also must take courses in health and physical education and at least one year of foreign language. A wide variety of elective courses include additional foreign language study and fine-arts electives such as choral music, band, orchestra, art, dance, and theater. Career and Technology Education offers courses to prepare students for careers in high demand. Magnet high schools provide specialized programs for students who want to focus on a particular area of interest.

Alternative Education Programs

The alternative schools and programs of HISD strive to be catalysts of change and meet the needs of students who benefit from a non-traditional educational environment. These schools are not merely providers of services; they also utilize a myriad of strategic interventions and innovative enrichments tailored to meet the unique educational, intellectual, and developmental needs of their students.

Alternative schools and programs include schools of referral, choice and external charter schools. The schools and programs address specific academic needs and meet individualized instructional, social and/or behavioral needs of those students who require nontraditional services to optimize their potential for success. The student

population includes pregnant and parenting students, anti-social individuals, high achieving, scholastically able students, recovered dropouts, and highly at-risk students. The schools and programs have no geographic attendance zones or feeder patterns and include schools of choice, schools of referral, and community-based partnerships. Alternative education in HISD enjoys a high level of interest among patrons and community members who share an affiliation with the district in the operation of these schools.

Early Childhood Programs

The Early Childhood team in the Elementary Curriculum and Development Office manages the district's Early Childhood Program consisting of over 700 prekindergarten teachers serving over 12,400 students in 168 campuses. The early childhood team facilitates and supports the best education available anywhere to Houston's youngest learners. This includes oversight of funding and budgets for the program, coordination with related early learning agencies, delivery of specialized training for teachers, and the development of quality curriculum, instruction, and assessment programs.

The early childhood team produces Curriculum documents based on the state Pre-K Guidelines to support quality learning experiences for the district's three and four-year olds. The curriculum focuses on developing literacy and numeracy skills to ensure that students are prepared to succeed in kindergarten. In addition, the team gives oversight to the screening and progress monitoring measures used to efficiently evaluate and monitor student learning and kindergarten readiness skills.

HISD began offering full-day pre-kindergarten programs to all eligible children in 2005. To be eligible for enrollment in a district prekindergarten program, a child must satisfy age, residency, and other key requirements. HISD also offers prekindergarten on a tuition basis to students who do not meet the eligibility requirements to attend free prekindergarten. Parents may enroll their four-year-old child (child must be four years of age on or before September 1 of a given school year) in a full-day prekindergarten program at participating neighborhood schools on a space-available basis.

English Language Arts and Reading Programs

The elementary and secondary English language arts and reading teams in the Curriculum and Development Departments promote quality, student-centered literacy instruction from pre-kindergarten through grade 12 to build students' skills in creativity, critical thinking, and collaboration. In learning effective reading, writing, and thinking practices, HISD students are fully prepared for the demands of the 21st century.

The English language arts and reading teams support student achievement in literacy by designing a challenging district curriculum that incorporates research-based best practices to support rigorous instructional practice upon the eight strands such as: history, geography, economics, government, citizenship, science, technology, society and social studies skills. To reinforce standards-based instruction and assessment focused and explicit professional development is provided to meet the needs of teachers and students across the district.

Fine Arts Programs

The elementary and secondary fine arts team in the Curriculum, Instruction, and Assessment Department promotes a full range of quality fine arts programs in the district. The backbone of fine arts instruction in Texas, the Texas Essential Knowledge and Skills (TEKS), help educators structure instruction around what students should know and be able to do by the end of each grade level in the arts. Based on the TEKS, the team provides a standards-based curriculum with delivery strategies that provide the basic framework in which performance and product evidence the true learning skills and deep understanding of knowledge of each student. Ultimately, a fine arts education encourages students to become lifelong learners who are motivated by internal drives to know, do, and accomplish.

The district's fine arts programs include visual art, dance, choral music, instrumental music, and theatre. Research shows that the fine arts support learning in math, science, social studies, and language arts; as well as decreases dropout rates and increases attendance. Additionally, they promote leadership skills, motivate investigation, foster collaborative team work, heighten self-discipline and self-reliance, cultivate a positive self-concept, and nurture cultural and social awareness. One of the greatest assets of the fine arts is expansion of critical and analytical thinking. The arts intrinsically cultivate creativity, imagination, and innovation as well as symbiotically incorporate the other content areas into authentic learning experiences. Ultimately, the gift of the fine arts is in the development of the whole child – a humanitarian that sees the world through the lens of creativity.

Health/Physical Education Programs

The elementary and secondary health/physical education teams in the Curriculum, Instruction, and Assessment Department support teachers and instructional leaders to ensure that students make responsible and informed decisions on matters important to their personal health and well-being, and develop fitness for life. The teams develop curriculum for district teachers and support them in satisfying various state and federal mandates.

Health education focuses on the development of health and safety principles and follows the Texas Department of State Health Services Coordinated School Health (CSH) initiative that strives to maintain a unified approach to health education for all districts. Health Education is required K-12 and addresses the physical, mental, emotional and social elements of wellness. Age-appropriate instruction for all grade levels encompassing the following strategies to reduce unintentional and intentional injuries, tobacco use, alcohol and other drug use, and behaviors resulting in HIV/STD/teen pregnancy among youth. Instruction also informs students of proper nutritional habits and benefits of regular physical activity and rest.

Instructional activities stress life skills such as communication, conflict resolution, refusal, decision-making, goal-setting, interpersonal relationships and stress management. Ultimately, health instruction promotes informed decision making skills that impact the health and well-being among youth.

Physical education focuses on the development of fitness for life. The design of a quality program helps students develop knowledge of fitness and psycho-motor skills through a variety of physical activities. The district curriculum emphasizes maximum participation in body awareness, conditioning, movement, games, sports, dance, tumbling, and gymnastic activities. Instruction also informs students of proper nutritional habits and the benefits of regular physical activity and rest.

The physical education curriculum addresses the physical, mental, emotional and social dimension of fitness. Age-appropriate instruction provides an opportunity to learn and practice fitness concepts while actively participating in a program that promotes physical awareness, social development and positive attitudes toward active lifestyles. Instructional activities stress life management skills such as cooperation, fair-play, teamwork, citizenship, sportsmanship, and leadership.

The integration of health education concepts and physical fitness practices assists students in the development of wellness lifestyles. Even though health and physical education are two separate and distinct instructional programs, they emphasize the achievement of one's personal best through physical fitness and health literacy.

Mathematics Programs

The elementary and secondary mathematics teams in the Curriculum, Instruction, and Assessment Department support teachers and instructional leaders to ensure that aligned, rigorous, and engaging mathematics instruction occurs intentionally and systemically throughout HISD.

The mathematics teams envision a collaborative community that provides an equitable, nurturing environment that inspires and challenges confident life-long learners. They bring together students, parents, teachers, and education, business, university, and community leaders to provide a challenging educational environment that expects all students to develop, make sense of, and enjoy mathematics for the rest of their lives.

The teams work to improve student achievement in mathematics by collaborating with teachers to produce curriculum and assessment documents aligned to state and national curriculum, assessment, and college- and career-readiness standards, by promoting a nurturing environment in which all students can learn challenging mathematics, and by providing professional development that drives effective teaching leading to meaningful learning.

Science Programs

Elementary and secondary science teams in the Curriculum and Development Departments support aligned, rigorous, engaging student-centered instruction; provides job-embedded professional development; as well as implement classroom and district-wide assessments. The teams envision a collaborative learning community that provides an equitable, nurturing environment to inspire and challenge students in real-world science learning. They bring together students, parents, teachers, educational partners, businesses, universities, and community leaders to work systemically to provide a challenging educational environment that expects all students to develop, make sense of, and enjoy science to be equipped to compete in a global society.

Current initiatives include: HISD/Baylor College of Medicine PK-3 Science Institute, Grade 4 Houston Museum of Natural Science Field Experience, the LASER i3 Scale Up Initiative, the HISD/Rice High School Science

Institute, Literacy in the Middle, and the Houston SECME Program.

Social Studies Programs

The elementary and secondary social studies teams in the Curriculum, Instruction, and Assessment Department promote the integrated study of the social sciences and humanities to promote civic competence. Within the school program, social studies provides coordinated, systematic study drawing upon the eight strands such as: history, geography, economics, government, citizenship, science, technology, society and social studies skills. The primary purpose of social studies is to help young people develop the ability to make informed and reasoned decisions for the public good as citizens of a culturally diverse, democratic society in an interdependent world. In summary, the goals of social studies education are to create citizens for the 21st century, form a factual and conceptual knowledge base, develop intellectual skills, and promote basic democratic values.

The Social Studies teams develop the district's curriculum documents and support teacher training for effective social studies instruction. An understanding of social studies is important to prepare students to be active, productive, and participatory citizens. Citizenship is the core goal of social studies education in every grade. Citizenship education, centered in the disciplines of social studies, helps create caring and concerned citizens. The role of good citizens in the home, the classroom and school, and the community encourages students to be good decision-makers. Exploration of the nature of our democracy, the documents that support democracy and the concept of rights and responsibilities form the basis for Social Studies education and the creation of knowledgeable and informed citizens. Basic democratic principles such as limits to freedom, rule of law, the will of the majority and protection of the rights of the minority, and the responsibilities of citizenship create part of the knowledge base for social studies education.

Special Education Programs

The mission of the Special Education Department is to support students with disabilities in gaining college and career readiness skills and independent living skills through active engagement in grade level curriculum.

The Special Education Department provides leadership and support to district and campus leaders to ensure adequate and appropriate resources, services, and programs for students with disabilities.

Program Initiatives

Goal 1: For students ages 3–21, the percent of initial evaluations completed within 90 days of receipt of parental consent will increase from 88 percent to 95 percent .

Goal 2: For students younger than age 3, the percent who are evaluated, found eligible, and who have an IEP developed and implemented by their third birthdays will increase from 92 percent to 97 percent.

Goal 3: The percent of students identified to have dyslexia will increase from 0.4 percent to 0.8 percent.

Goal 4: The overrepresentation of African American students in special education will decrease from 9.2 percent to 7.5 percent.

Goal 5: The percent of students with disabilities ages 3–5 placed in instructional settings of 40 or 41 will increase from 5.1 percent to 10.5 percent; ages 6–11 from 32.3 percent to 35.0 percent; and ages 12–21 from 51.9 percent to 60.0 percent.

Goal 6: The percent of students with disabilities participating in the STAAR-M reading assessment will decrease from 3.5 percent to 3.0 percent and in the STAAR-M math assessment from 3.0 percent to 2.5 percent .

Goal 7: A baseline percentage of high school students with disabilities participating in employment opportunities was established during 2012-2013.

Goal 8: The percentage of secondary school students with disabilities who are also identified as English Language Learners (ELL) from 31 percent to 28 percent.

Goal 9: The overrepresentation of students with disabilities placed in Out-of-School Suspension (OSS) will decrease from 22.6 percent to 17.9 percent.

Career and Technical Education (CTE) Programs

The Career and Technical Education (CTE) department was designed to provide students with the academic and technical skills they need to compete in the global workforce and/or to continue their education at the post-secondary level after graduation.

Students are offered a variety of courses through a comprehensive study of one of the 16 career concentrations

identified and approved by the Texas Education Agency (listed below).

Agriculture, Food, and Natural Resources
Architecture and Construction
Arts, A/V Technology, and Communications
Business, Management and Administration
Education and Training
Finance
Government and Public Administration
Health Science
Hospitality and Tourism
Human Services
Information Technology
Law, Public Safety, Corrections, and Security
Manufacturing
Marketing, Sales, and Service
Science, Technology, Engineering, and Mathematics
Transportation, Distribution, and Logistics

Career concentrations are designed to follow a coherent sequence of courses in a graduation plan, and CTE employees collaborate with teachers and other departments to design, implement, and assess core and career-program offerings.

Basic and advanced academic classes are integrated with technical skills courses to allow students to identify possible career options and to give them the transferable skills and knowledge they need to succeed.

External Funding

The External Funding Department supports schools in the Houston Independent School District by:

- providing opportunities for all children to acquire the knowledge and skills specified in challenging state content and performance standards;
- supplementing academic, health, and social services;
- promoting school wide reform;
- increasing staff development opportunities;
- distributing resources to regions and campuses where needs are the greatest;
- affording parents meaningful opportunities to participate in their children's education; and
- aligning the schools' instructional efforts with those of the state and school district.

Magnet Programs

Magnet programs offer students educational choices from among a number of specialized programs at grade levels K-12. Magnet programs offer an integrated and enriched curriculum designed around a specialized theme that meets students' interests, talents, and needs and has relevance in today's society. Teachers receive specialized training in the field of study based on the school's thematic focus. Additionally, these schools seek to recruit and draw an ethnically diverse student body from throughout the city. Finally, strong community and business partnerships support the relevance of the theme with a real-world view.

Structures:

Schoolwide Magnets—Provide a specialized program that is added on to the school's regular curriculum. Every student in the school receives instruction in the specialty area taught by teachers qualified in that area. Students attending a fine arts Magnet school, for example, are exposed to in-depth experiences in the fine arts, which may include lessons in instrumental and choral music, dance, art, drama, and gymnastics.

Dedicated Magnets—Provide a unique curriculum and single educational focus for all students attending the school. Every student in a dedicated Magnet is a transfer student since this type of school has no attendance zone. The High School for Performing and Visual Arts is an example of a dedicated Magnet.

School-Within-A-School (SWAS)—Provides instruction in a specialized area to a specific group of students in an existing school. Although these students meet separately for the specialty classes, they may join with the rest of the student body for studies not related to the area of specialization. The High School for Engineering Professions, located on the campus of Booker T. Washington High School, is an example of a SWAS program

for students interested in engineering or other science-related fields.

Programs:

Vanguard is a Magnet program that serves students who have been identified as potentially gifted or talented in intellectual ability, creativity, or leadership. A Magnet Vanguard offers a differentiated curriculum that is both accelerated and enriched. Admission to the Magnet Vanguard program requires testing and the use of the Vanguard application.

International Baccalaureate (IB) program is an advanced academic curriculum that focuses on problem-solving and independent critical-thinking skills, which better prepare students for college and a lifetime of learning.

Montessori is a system of education that is both a philosophy of child development and a methodology of guiding each child's development to its full potential. In a Montessori School children grow in an environment of mutual respect to become responsible world citizens. Every classroom is equipped with Montessori materials. Children experience a spiraling, connected curriculum founded on Montessori principles.

Science Technology Engineering and Math (STEM) is a program that offers science, technology, engineering, and math instruction through problem-solving and independent critical-thinking skills, while emphasizing laboratory exploration and hands-on activities.

Language programs offer students an opportunity to learn one or multiple languages in an instructional setting that integrates subject content presented in English and another language. Models vary depending on the language and school level. This program provides a continuum of learning experiences that lead to the development of advanced-level linguistic skills.

Fine Arts programs provide specialized instruction in a variety of areas, including strings, band, piano, art, dance, creative writing, and gymnastics. Excellence in the arts is a natural, integrated extension of the academic program. Offerings in each individual school may vary.

College Prep provides students with an opportunity to get a head start on their college aspirations. Many teens are able to graduate with a high-school diploma and an associate's degree simultaneously, effectively saving them thousands of dollars in college tuition.

Career Academies provide courses in sixteen different career concentrations to prepare students for jobs in the workforce. Some programs prepare students for vocational certifications, while others offer dual credit courses to give them a head start in college.

Advanced Academics Programs

The Advanced Academics Department has the primary responsibility of overseeing, supporting, and monitoring (in collaboration with other departments, district leadership and school-based staff) the programs for gifted and talented (G/T) students districtwide.

The Advanced Academics Department supports and assist schools and teachers as they provide services designed for students who demonstrate skills in self-directed learning, thinking, research, and communications as evidenced by the development of innovative products and performances that are advanced in comparison to products by students of similar age, experience, or environment and that reflect individuality and creativity.

The term "Vanguard" refers to the program to which G/T students are assigned. Generally, G/T is used when referring to a student who is identified as gifted and talented through pre-established identification procedures and criteria.

HISD Vanguard Standards have been established in accordance with the components of the Texas State Plan for the Education of Gifted/Talented Students and the state goal for gifted students and are designed to ensure equity in access for all students and to maintain consistency and integrity in program implementation.

The Advanced Placement Program

The Advanced Placement Program (AP) directly supports HISD's Strategic Direction for Core Initiative 3: Rigorous Instructional Standards and Supports. The AP Program provides high school students with the opportunity to take college-level courses and earn college credit. AP exams are offered in 22 subject areas, and exams are administered over a two-week period each year in May. The AP grade scale ranges from 1 to 5, and a score of 3 or higher qualifies a student to earn advanced placement, college credit, or both.

HISD's Advanced Placement program continues to focus on providing professional development based on what teachers have indicated they need. By working directly with organizations such as CollegeBoard, training offered

for Pre-AP and AP teachers provides direct instruction on strategies that assist students.

In addition, HISD has begun hosting AP Professional Learning Communities for HISD AP teachers to participate in throughout the year. Led by highly effective HISD AP teachers, this program provides participants the opportunity to share best practices and ideas for the AP classroom. The district's efforts to provide teachers with specific professional development are also aligned to HISD's AP results.

The growth in HISD's AP numbers for both participation and performance are an indication of the dedication of HISD AP teachers, administrators and students who have come to understand the importance of this program.

The AVID Program

Advancement Via Individual Determination (AVID) is a secondary program to prepare students for the rigors of a four-year college or university. HISD works to ensure the success of AVID students through a six-year plan which promotes collaborative learning and inquiry with specific focus on reading and writing. In small groups, AVID students ask, explore, and answer questions.

AVID students are taught levels of questioning and are given opportunities to apply questioning techniques. AVID students regularly participate in inside/outside circle discussions, panel discussions, Philosophical Chairs, and Socratic Seminars. AVID incorporates strategies that can help students become more effective readers. The strategies include graphic organizers, jigsawing text, reciprocal teaching, think-alouds, reader response, and SQ3R (Survey, Question, Read, Recite/write, Review).

Writing is also an essential part of AVID. AVID students are taught the writing process and strategies to enhance their writing skills. The strategies include Cornell Note-taking, double entry journaling, compare and contrast charts, Know Want Learn (KWL), learning logs, quick writes, and Generating Interaction between Schemata and Text (GIST).

The Six Year Plan, developed in collaboration with Federal and State Compliance, P-16, Student Engagement and the secondary lead counselors, is aligned to the college bound culture program and is now the official form for mapping student graduation plans (middle to high school). AVID supports HISD students' successful completion of high school and entrance into college.

The AVID program was developed to increase the number of secondary students participating in rigorous academic courses, including Advanced Placement (AP) and Pre-AP courses. The program targets at-risk students who (1) are economically disadvantaged, (2) are underrepresented in four-year colleges, (3) possess the potential to become first generation college students, and (4) are currently enrolled in regular (non-gifted and talented, non-special education) classes.

In all 6th-grade subjects, 7th-grade math, 8th-grade science, 10th-grade math and science, and all 11th-grade subjects, AVID students out-perform their non-AVID counterparts. This performance difference was especially pronounced on the STAAR End of Course exams.

Currently, a total of 54 HISD campuses offer the AVID program - 19 of our campuses have committed to the AVID/Rice University two-year grant. The goals of the grant includes increasing student participation/enrollment in AVID by 20 percent, and a 10 percent increase in the number of students participating in AP school-wide by the end of the two year grant.

The AVID program is effective in increasing the performance of the students involved both as measured by the state accountability assessments (STAAR and EOC) and by participation in the AP program. The largest benefit of the AVID program is in the support it provides for student academics. It allows students who would normally be passed over to learn the skills that are necessary to transition into more rigorous academic programs. The support provided to students in the AVID program is most beneficial when it is maintained over the course of several years as the students are able to learn, implement, and see the results of their better study skills and improved focus. Ultimately, these skills can be transferred to college and help these students continue their success as the academics get more challenging.

The EMERGE Program

EMERGE prepares HISD students to get into and graduate from the nation's top colleges and plays an integral role in the district's broader efforts to prepare all of its students for post-secondary success. The program has multiple components that directly and indirectly benefit thousands of students and their families across the district. These include school-based programming, summer enrichment activities, college visits, student and family workshops, district-wide events, PSAT and SAT preparation, college partnerships, scholarship opportunities,

mentors, college fairs, trainings for counselors, teachers and more.

EMERGE was started in the district in 2010 by a group of HISD teachers who wanted their students to experience life-changing higher education opportunities. The program is also supported by EMERGE Fellowship, a 501c3 organization that delivers training, programming and additional resources to the district. Most of the students in the program come from economically disadvantaged backgrounds and are first in their families to go to college. EMERGE has also helped the district increase its SAT scores, AP performance levels, and overall college readiness/access levels.

The International Baccalaureate Programme

The International Baccalaureate (IB) Degree Programme in 11th and 12th Grades is an internationally based pre-university level curriculum developed by the International Baccalaureate Organization (IBO). This comprehensive curriculum allows graduates to fulfill requirements of international educational systems and to receive the IB diploma. Through IB examinations, students may receive college placement hours.

Strong emphasis is placed on the ideals of international understanding and responsible citizenship through creativity, action, and service. The IB program specifies learning in a broad base of disciplines – languages, mathematics, sciences, humanities, arts, physical education, and technology – to ensure that students have the knowledge and skills necessary for the future. IB students develop a genuine understanding of ideas and the ability to utilize them in new contexts.

The IB Diploma Programme is offered at Bellaire, Lamar and Reagan High Schools. The IB Middle Years Programme (IBMYP) is offered at Lanier, Fondren, Grady, and Hogg Middle Schools. Five HISD elementary schools are also authorized as IB (Harvard, Northline, River Oaks, Roberts, and Twain). With the inception of the IB Primary Years Program (PYP), HISD became one of only 8 districts in North America to have an IB feeder pattern across grade levels. PYP is a school-wide program that benefits all students regardless of Gifted and Talented identification.

Languages Other Than English (LOTE)

The elementary and secondary languages other than English team in the Curriculum, Instruction, and Assessment Department works to support teachers in enabling students to communicate effectively in another language and to develop life-long appreciation for various languages and cultures,

Two or more credits in the same language are recommended as a sequence of study for each student rather than a sampling of languages. This is especially important for the student planning for college and needing to meet admission/program language requirements.

Levels of instruction range from level I (novice) to as high as levels V, VI, and even VII (advanced progress). American Sign Language is one of the LOTE options. “Exploratory languages” is a non-sequential course that can be offered in elementary, middle, or high school.

Spanish-speaking students enrolled in Spanish IA who demonstrates a strong proficiency in the language may be screened and considered for placement in Spanish for Spanish Speakers courses. Spanish for Spanish Speakers courses are intended to inspire Spanish speakers to maintain and expand their knowledge of Spanish, and to continue the study of the language beyond the high school level.

Students develop the communication skills by using knowledge of the language, including grammar, and culture, communication and learning strategies, technology, and content from other subject areas to socialize, to acquire and provide information, to express feelings and opinions, and to get others to adopt a course of action. While knowledge of other cultures, connections to other disciplines, comparisons between languages and cultures, and community interaction all contribute to and enhance the communicative language learning experience, communication skills are the primary focus of language acquisition.

Literacy Programs

As part of the Curriculum and Development Department, the elementary and secondary literacy teams direct all aspects of literacy instruction. Literacy By 3 and Literacy in the Middle, are two parallel approaches that are transforming literacy instruction to increase student learning through a systematic and balanced approach to teaching reading and writing. Students receive standard-based whole group instruction, targeted small group instruction based on assessment, and individual conferencing to insure student needs are met. Students practice independent reading using “just right” books, hear models of fluent reading, engage in thoughtful discussions, and respond to texts through writing.

The elementary and secondary literacy teams collaborate to plan, oversee, and evaluate professional development focused on building teacher capacity to deliver differentiated instruction to meet the needs of every student.

The literacy team directs and supports the work of Library Services. Library Services provides technical and professional support to school libraries, librarians, teachers, students, and communities. Library Services provides integrated support to enable schools to enhance the quality of instruction, leadership, curriculum, and instructional delivery to improve student achievement and information literacy.

Student Assessment

The Student Assessment Department's major components include Test Security Procedures, District-Funded Test Programs, State-Funded Programs, and Special Test Programs.

- Test Security Procedures includes Test Security and Confidential Integrity, Training, Security Oaths, Embargoed Materials, Reporting Violations/Irregularities, and Penalties.
- District-Funded Test Programs are defined as programs where the assessments to be used and the administration procedures are defined by the HISD Board of Education or by departments within HISD. This includes programs that are initiated to meet state or federal requirements, but where those entities do not specify the assessments or administration procedures.
- State-Funded Programs are those programs in which the testing procedures and the assessments used are specified by the Texas Education Agency (TEA).
- Special Test Programs are those in which the Student Assessment Department manages or acts as a resource to programs that do not strictly have district or state mandates. These programs affect a limited population, and they may be mandated by a school, management district, department, grant requirements, or federal law.

Technology Program

The Information Technology Department's mission is to provide quality customer-centric services to the stakeholders of the Houston Independent School District in order to foster the primary goal of the Board of Education to advance student achievement and facilitate decision making with accurate and timely information. The department is also responsible for providing service and support to schools, departments and field offices in the acquisition and use of technology to enhance student performance, ensure timely and accurate information to users and provide quality support services.

A major goal of the Information Technology Department's plan is to ensure that technology strategies and operations support the overall learning process.

School Support Services

The mission of the School Support Services Department is to increase the child's capacity to benefit from education by providing high quality counseling, psychological, social work, evaluation and prevention services that support achievement.

The School Support Services Department consists of: After School Programs, Health & Medical Services, Student Engagement, Counseling & Guidance, Psychological Services, Parent Engagement, UIL Academics, Dropout Prevention, Student Discipline. School Support Services Department provides support districtwide through these divisions to support the five district strategic direction goals and serve as liaisons between business/community stakeholders and the district.

Budget Administration & Management Process

Houston Independent School District

Statement of Texas Law

Sections 44.002 through 44.006 of the Texas Education Code establish the legal basis for budget development in school districts. The following six items summarize the legal requirements from the code:

- The Superintendent is the budget officer for the district and prepares or causes the budget to be prepared.
- **Note: TEA recommends that an interactive approach between the Board of Trustees and the superintendent be taken to establish the budget process and define related roles and responsibilities.**
- The district budget must be prepared by a date set by the state board of education, currently August 20 (June 19 if the district uses a July 1 fiscal year start date).
- The fiscal year of a school district begins on July 1 or September 1 of each year, as determined by the Board of Trustees of the district.
- The president of the Board of Education must call a public meeting of the Board of Trustees, giving 10 days public notice in a newspaper, for the adoption of the district budget. Any taxpayer of the district may be present and participate in the meeting.
- Concurrently with the publication of notice of the budget above, a school district must post a summary of the proposed budget on the school district's Internet website or in the district's central administrative office, if the school district has no Internet website. The budget summary must include a comparison to the previous year's actual spending and information relating to per-student and aggregate spending on instruction, instructional support, central administration, district operations, debt service, and any other category designated by the commissioner. (Section 44.0041, TEC).

The summary of the budget should be presented in the following function areas:

- (A) Instruction – functions 11, 12, 13, 95
- (B) Instructional Support – functions 21, 23, 31, 32, 33, 36
- (C) Central Administration – function 41
- (D) District Operations – functions 34, 35, 51, 52, 53
- (E) Debt Service – function 71
- (F) Other – functions 61, 81, 91, 92, 93, 97, 99

The "per student" will be based on student enrollment.

- No funds may be expended in any manner other than as provided for in the adopted budget. The board does have the authority to amend the budget or adopt a supplementary emergency budget to cover unforeseen expenditures.
- The budget must be prepared in accordance with GAAP (generally accepted accounting principles) and state guidelines.
- The budget must be legally adopted before the adoption of the tax rate. However, if a school district has a July 1 fiscal year start date, then a school district must not adopt a tax rate until after the district receives the certified appraisal roll for the district required by Section 26.01, Tax Code. Additionally, a school district must publish a revised notice and hold another public meeting before the district may adopt a tax rate that exceeds the following: (1) The rate proposed in the notice prepared using the estimate; or (2) The district's rollback rate determined under Section 26.08, Tax Code, using the certified appraisal roll.

TEA Legal Requirements

The Texas Education Agency (TEA) has developed additional requirements for school district budget preparation as follows:

- The budget must be adopted by the Board of Education, inclusive of amendments, no later than August 31 (June 30 if the district uses a July 1 fiscal year start date).
- Minutes from district board meetings will be used by TEA to record adoption of and amendments to the budget.
- Budgets for the General Fund, the Food Service Fund (whether accounted for in the General Fund, a Special Revenue Fund or Enterprise Fund) and the Debt Service Fund must be included in the official district budget (legal or fiscal year basis). These budgets must be prepared and approved at least at the fund and function levels to comply with the state's legal level of control mandates.
- The officially adopted district budget, as amended, must be filed with TEA through PEIMS (Public Education Information Management System) by the date prescribed in the annual system guidelines. Revenues, other sources, other uses, and fund balances must be reported by fund, object (at the fourth level), fiscal year, and amount. Expenditures must be reported by fund, function, object (at the second level), organization, fiscal year, program intent and amount.
- A school district must amend the official budget before exceeding a functional expenditure category, i.e., instruction, administration, etc., in the total district budget. The annual financial and compliance report should reflect the amended budget amounts on the schedule comparing budgeted and actual amounts. The requirement for filing the amended budget with TEA is satisfied when the school district files its Annual Financial and Compliance Report.

HISD Budget Policy

In addition to state legal requirements, HISD has established its own requirements for annual budget preparation. The district's fiscal policies dictate budgetary requirements that go beyond those required by the Texas Education Code and TEA. *These policies include:*

Fund Balance Levels

The *assigned fund balance* is that portion of fund balance that is not available for appropriation or that has been legally segregated for specific purposes. The *unassigned fund balance* is composed of designated and undesignated portions. The undesignated portion represents that portion of fund balance that is available for budgeting in future periods. Designated fund balances represent tentative plans for future use of financial resources. The Board of Education designated a reserve for operations to set aside a minimum fund balance reserve of five percent of general fund operations. This reserve is not available for use or appropriation unless it is considered an emergency and is approved for spending by a two-thirds vote of the Board of Education.

Carryover of Surpluses/Deficits

Schools and departments are expected to operate within the budget established during the budgeting process. Deficits are charged against the budget for the ensuing year except for special circumstances.

Self-Insurance Reserve Fund and Insurance Claims

A reserve for self-insurance shall be maintained for the exclusive purpose of paying non-budgeted self-insured losses, and/or insured losses until insurance recovery is made, or for uninsured/underinsured losses. If the District elects a program of larger deductibles or self-insured retention, the estimated premium savings shall be deposited to the self-insurance reserve. The Risk Management Department, with the cooperation of the individual department or school, shall attempt recovery from negligent third parties for damage to District property. The Risk Management Department shall coordinate claims with the various insurance companies.

Weighted Pupil Allocation Formula

The new allocations are based on weighted grade level enrollment and average daily attendance. Additional weights are also included for students in special populations. The final number of refined units is multiplied by a fixed per pupil allocation, which is currently set at \$3,432 for high schools, \$3,468 for middle schools and \$3,432 per pupil for elementary schools.

Debt Management

Debt management policies are adopted by the Board of Education and seek to provide the most favorable climate for district debt projects while upholding the highest rating possible for debt instruments. Management policies include the following points.

- All debt service obligations will be met on time
- Long-term financing will be restricted to capital projects and purchases of equipment
- Long-term bonds will not be issued to finance current operations
- The district will cooperate and communicate with bond rating agencies and work towards obtaining the most favorable rating possible. Currently, HISD is rated:

Moody's

Enhanced (with Texas PSF guarantee) **Aaa**

Underlying (stand alone) **Aaa**

Standard & Poor's

Enhanced (with Texas PSF guarantee) **AAA**

Underlying (stand alone) **AA+**

- Outstanding obligations will be frequently reviewed to ensure the most favorable funding structure for the district
- All necessary information and material regarding HISD's financial status will be provided to the appropriate parties.

Investments

Investments are stated at fair market value, which is the amount at which the investment can be exchanged in a current transaction between willing parties. The objectives of cash management and investment policy are to:

- Assure the safety of district funds
- Maintain sufficient liquidity to provide adequate and timely working funds
- Match the maturity of investment instruments to daily cash flow requirements
- Attain a market average rate of return consistent with the first two objectives
- Diversify by maturity, instrument, and financial institution where permitted by law
- Actively pursue portfolio management techniques
- Avoid speculative investments

Property Tax Exemptions

HISD chooses to offer the optional homestead exemption of 20 percent as permitted by the State, to ease the tax burden on homeowners. In 2015, the Texas Legislature raised the mandated homestead exemption from \$15,000 to \$25,000.

Decentralized, Weighted-Pupil Allocations

Student enrollment, attendance, and participation in special programs are the basis for campus allocations for the 2018-2019 school year. The School Allocation Handbook outlines the allocation methodology for all schools based on weighted pupil ratios. The weights currently adopted are those used by the Texas Education Agency for allocation of state funds to school districts. The basic premise of the allocation methodology is to give campuses greater flexibility and control over resources while ensuring that district funds flow to the campuses according to the needs of the students attending them. The actual campus allocations are shown in the School Pages Section of this document.

State law, as well as HISD Board of Education policy, requires that the district's annual budget be adopted prior to the expenditure of funds. During the fiscal year, the Board must amend the budget for any increases to functional appropriations or estimated revenue amounts. All supplemental appropriations must be within the available revenues and fund equity (resources). Principals and central office administrators have access to an online report that lists the detail transactions and remaining available funds by line item or detail account center.

In developing, evaluating, and improving the district's accounting and budgeting system, consideration is given

reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived, and the evaluation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state, and local grants, the district is also responsible for an adequate internal control structure as related to federal financial assistance programs as well as compliance with applicable laws and regulations. These internal controls are regularly tested for effectiveness by auditors and management.

The district utilizes a line-item budget of proposed expenditures and the means of financing them (in combination with other approaches). The emphasis of the budget process is to identify the activities requiring resources and to rank those activities according to the needs of the entire district. Budgetary control is maintained at the function level by organizational unit through the encumbrance of estimated purchase amounts and other expenditures prior to the execution of contracts, approval of personnel transactions, or release of purchase orders to vendors. Those obligations that would result in an overrun of appropriated funds are not released until additional appropriations are made available. Open encumbrances are reported as a reservation of fund balance on June 30, the end of the fiscal year.

Other sustaining local revenue sources are interest earnings, facility rentals, miscellaneous revenues and transfers from the enterprise funds.

Budgetary Control and Accounting Basis

Houston Independent School District

Budgetary Control

Budgetary control is maintained through the encumbrance of estimated purchase amounts and other expenditures prior to the execution of contracts or release of purchase orders to vendors. Those obligations that would result in the overrun of appropriated funds are not released until additional appropriations are made available via budgetary transfers. Such transfers must be approved by the principal (for schools) or by the appropriate Department Head/Superintendent's Direct Report (for central departments). The district also encumbers each pay period any obligated salary and benefit expenditures for filled and vacant positions to ensure available balances are accurate and to be able to do more accurate year-end forecasting. If the transfer increases a particular functional amount, it must also be approved or ratified by the Board of Education via one of the district's semi-annual functional report requests.

Basis of Budgeting

The basis of budgeting is the recognition of revenues and expenditures that the district has the legal authority to spend or collect. The district budgets on an expected annual spend for the entire 12-month period of the fiscal year. This basis is used for all governmental, enterprise, and internal service fund types. The budget is presented to the Board of Education for adoption each year and is reconciled to the accounting system each year before the funds are made available. It is also reconciled two more times during the fiscal year with changes that have occurred as well as any requested funding changes and presented to the Board of Education for approval.

Basis of Accounting

The district's basis of budgeting and accounting for all funds is maintained on a modified accrual basis as prescribed by Generally Acceptable Accounting Principles (GAAP) and the TEA Financial Accountability System Resource Guide, with revenues being recorded when available and measurable to finance expenditures of the fiscal period. The general rule for recognition of revenues is 60 days and expenditures is 90 days. Expenditures are recorded when services or goods are received and the fund liabilities are incurred. All estimated revenues, appropriations, and expenditures are coded to specific funds (categorizing how it is financed), accounts (describing why and what funds are being received or goods and services are being purchased), and fund centers (who is purchasing the goods or services) as mandated in the TEA Financial Accountability System Resource Guide. Property taxes are recognized in the school year they are levied because they become due and collectable within the fiscal year. The district's goal is to maintain a five percent reserve for the operation account, in addition to the unreserved undesignated fund balance.

The modified accrual basis of accounting or accrual basis of accounting, as appropriate, should be utilized in measuring the financial position and operating results.

(a) Governmental fund revenues and expenditures should be recognized on a modified accrual basis. Revenues should be recognized in the accounting period in which they become available and measurable. Expenditures should be recognized in the accounting period in which the fund liability is incurred, if measurable, except of unmatured interest on general long-term debt, which should be recognized when due.

(b) Proprietary fund statements net assets and revenues, expenses and changes in fund net assets should be recognized on the accrual basis. Revenues should be recognized in the accounting period in which they are earned and become measurable; expenses should be recognized in the period incurred, if measurable.

(c) Fiduciary funds should be reported using the economic resources measurement focus and the accrual basis of accounting, except for the recognition of certain liabilities of defined benefit pension plans and certain post employment healthcare plans.

(d) Transfers should be recognized in the accounting period in which the interfund receivable and payable arise.

Explanation of Funds

The diverse nature of the district's operations and the necessity of legal compliance preclude recording the financial transactions of the district in a single fund. The district's budgeting and accounting system is organized and operated on a "fund basis" and on an organizational unit basis within each fund. Each fund is a distinct, self-balancing accounting entity that is differentiated by funding source and is comprised of its assets, liabilities, fund balances, revenues, and expenditures as appropriate.

How an expenditure is financed determines the fund used, according to the TEA *Financial Accountability System Resource Guide*. The acquisition, use, and balances of the government's expendable financial resources and the related current liabilities, except those accounted for in proprietary funds, are accounted for through governmental funds (general, special revenue, capital projects, and debt service funds).

The **General Fund** is the primary operating fund, consisting of the general operations, capital acquisition program, and on-behalf payments. While the General Fund represents over 80 percent of all HISD revenues and expenditures, there are also other funds that support the various programs and services necessary to operate and maintain the school system. The district's other funds are described below, with further detail provided in each fund section in the Financial Section of this document.

The **Special Revenue Fund** records special programs through the receipt of federal, state, and local grants whose expenditures are restricted to the designated purpose of each grant.

The **Debt Service Fund** accumulates the resources for the planned retirement of general long-term debt (including contractual obligations) and related costs and is funded from annual tax revenue.

The **Capital Renovation Fund** is a governmental fund that must be used to account, on a project basis, for projects financed by the proceeds from bond issues or for capital projects otherwise mandated to be accounted for in this fund. The capital projects fund utilizes the modified accrual basis of accounting.

The **Nutrition Services Fund** provides for the operation of the school lunch and breakfast programs, with funding derived primarily from the U. S. Department of Agriculture through the National School Lunch Program. Over 80 percent of HISD students are eligible for free or reduced-price meals through this program. This fund is operated and financed similar to a private business enterprise because some of the costs are financed through user fees (meal charges).

Classification of Revenues

Although local property tax and Foundation School Program (FSP) revenues account for the majority of school district revenues, other sources must be considered in completing a district's overall annual revenue estimate. Federal funds and private sources (e.g., private foundations, businesses, etc.) are forecasted as well. In addition, school districts should examine delinquent tax collections, fees, and extracurricular revenue sources.

Classification of Expenditures

While the responsibility for developing revenue estimates lies primarily with district administrators, expenditure estimates are the shared responsibility of district administrators, support personnel and individual schools. Budget guidelines may provide substantial guidance for the estimation of campus expenditures through the use of standard cost allocations, per pupil estimates or other guidelines. If not, individual schools will be responsible for estimating campus expenditures themselves. Regardless of whether expenditures are estimated at the campus or district level, these estimates are critical to the development of the district's budget.

Estimates of district/campus expenditures at the functional level normally will be made during budget preparation for the following major expenditure categories (objects): (1) Payroll Costs (6100), (2) Professional and Contracted Services (6200), (3) Supplies and Materials (6300), (4) Other Operating Costs (6400), (5) Debt Service (6500), (6) Capital Outlay - Land, Buildings and Equipment (6600), and (7) Other Uses/Non-Operating Expenses/Residual Equity Transfers Out (8900). Specific techniques for estimating these expenditure categories are discussed later in the Informational Section of this document.

Expenditures by Functions

A function represents a general operational area in a school district and groups together related activities. Most school districts use all of the functions in the process of educating students or organizing the resources to educate students. For example, in order to provide the appropriate atmosphere for learning, school districts

transport students to school, teach students, feed students and provide health services. Each of these activities are a function.

School districts are encouraged to use appropriate program intent and organization codes for all other costs that are directly attributable to a specific program intent and/or organization. However, benefits to the management of the school district in relation to the effort to allocate these costs should be examined before allocating costs that are not mandatory.

Per TEA guidelines, if specific program intent codes are not used, the school district is to use Program Intent Code 99 (Undistributed). If specific organization codes are not used, the school district is to use Organization Code 999 (Undistributed) or Organization Code 998 (Unallocated, Local Option).

Instruction-Function 11

This function is used for activities that deal directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, and in other learning situations. Teaching may also be provided through some other approved medium such as television, radio, telephone, telecommunications, multimedia and correspondence. This function includes expenditures and/or expenses for direct classroom instruction and other activities that deliver, enhance or direct the delivery of learning situations to students.

Certain expenditures must be accounted for by organization code and program intent code, defined later in this section.

Instructional Resources and Media Services-Function 12

This function is used for expenditures/expenses that are directly and exclusively used for resource centers, establishing and maintaining libraries and other major facilities dealing with educational resources and media.

Curriculum Development and Instructional Staff Development-Function 13

This function is used for expenditures/expenses that are directly and exclusively used to aid instructional staff in planning, developing and evaluating the process of providing learning experiences for students. Expenditures and expenses include in-service training and other staff development for instructional or instructional-related personnel (Functions 11, 12, and 13) of the school district.

Instructional Leadership-Function 21

This function is used for expenditures/expenses that are directly used for managing, directing, supervising, and providing leadership for staff who provides general and specific instructional services.

School Leadership-Function 23

This function is used for expenditures/expenses that are used to direct and manage a school campus. They include the activities performed by the principal, assistant principals and other assistants while they supervise all operations of the campus, evaluate staff members of the campus, and assign duties to staff members maintaining the records of the students on the campus.

Guidance, Counseling and Evaluation Services-Function 31

This function is used for expenditures/expenses that are directly and exclusively used for assessing and testing students' abilities, aptitudes and interests; counseling students with respect to career and educational opportunities and helping them establish realistic goals. This function includes costs of psychological services, identification of individual characteristics, testing, educational counseling, student evaluation and occupational counseling.

Social Work Services-Function 32

This function is used for expenditures/expenses that are directly and exclusively used for activities such as investigating and diagnosing student social needs arising out of the home, school or community; casework and group work services for the child, parent or both; interpreting the social needs of students for other staff members; promoting modification of the circumstances surrounding the individual student which are related to his or her social needs. (This includes referrals to and interaction with other governmental agencies.)

Health Services-Function 33

This function is used for expenditures/expenses that are directly and exclusively used for providing physical

health services to students. This includes activities that provide students with appropriate medical, dental and nursing services.

Student (Pupil) Transportation-Function 34

This function is used for expenditures/expenses that are incurred for transporting students to and from school. Expenditures/expenses for regular bus routes to and from school are to be recorded using Program Intent Code 99 (Undistributed), and Organization Code 999 (Undistributed) or Organization Code 998 (Unallocated, Local Option). Expenditures/expenses for transportation specifically and exclusively for purposes of transporting students relating to enhanced program intents such as Career and Technology and Services to Students with Disabilities (Special Education), etc., are to be recorded in Function 34 with the appropriate program intent codes.

Food Services-Function 35

This function is used for food service operation expenditures/expenses, including the cost of food, labor, and other expenditures/expenses necessary for the preparation, transportation and storage of food to provide to students and staff. Expenditures/expenses are used directly and exclusively for supervision and maintenance of a food service operation.

Extracurricular Activities-Function 36

This function is used for expenditures/expenses for school-sponsored activities outside of the school day. These activities are generally designed to provide students with experiences such as motivation and the enjoyment and improvement of skills in either a competitive or noncompetitive setting.

Extracurricular activities include athletics and other activities that normally involve competition between schools (and frequently involve offsetting gate receipts or fees such as football, baseball, volleyball, track and tennis). Other kinds of related activities are included (such as drill team, pep squad and cheerleading, University Interscholastic League competition such as one-act plays, speech, debate, band, Future Farmers of America (FFA), National Honor Society, etc.).

If the school district has activity funds, the goods purchased for resale are to be classified in this function, with the gross sale of goods recorded in Revenue Object Code 5755, Results from Enterprising Activities, Activity Funds and/or Clearing Accounts.

General Administration-Function 41

This function is for expenditures/expenses that are for purposes of managing or governing the school district as an overall entity. This function covers multiple activities that are not directly and exclusively used for costs applicable to specific functions. General administration is an indirect cost applicable to other expenditure functions of a school district.

Facilities Maintenance and Operations-Function 51

This function is used for expenditures/expenses for activities to keep the facilities and grounds open, clean, comfortable and in effective working condition and state of repair, and insured. This function is used to record expenditures/expenses for the maintenance and operation of the physical facilities and grounds. This function also includes expenditures/expenses associated with warehousing and receiving services.

Security and Monitoring Services-Function 52

This function is used for expenditures/expenses that are for activities to keep student and staff surroundings safe, whether in transit to or from school, on a campus or participating in school-sponsored events at another location.

Data Processing Services-Function 53

This function is for expenditures/expenses for data processing services, whether in-house or contracted. Examples of Function 53 costs are costs for computer facility management, computer processing, systems development, analysis of workflows, processes and requirements; coding, testing, debugging and documentation; systems integration; design of applications supporting information technology infrastructure; maintenance of programs; maintenance of networks; and those interfacing costs associated with general types of technical assistance to data users. Specific types of applications include student accounting, financial accounting and human resources/personnel. Personal Computers (PC's) that are stand alone are to be charged to the appropriate function. Peripherals, including terminals and printers, are to be charged to the appropriate function. Costs associated with mainframe, minicomputers, servers and networked or stand alone microcomputers that provide services to multiple functions are to be recorded here.

Community Services-Function 61

This function is used for expenditures that are for activities or purposes other than regular public education and

adult basic education services. These types of expenditures are used for services or activities relating to the whole community or some segment of the community. This includes providing resources to non-public schools, institutions of higher education, and any proprietary types of services incurred for outside entities in the community

Debt Service-Function 71

This function is used for expenditures that are for the retirement of recurring bond, capital lease principal, and other debt, related debt service fees, and for all debt interest. Note principal for short-term loans (one year or less in duration) is to be recorded in the liability account 2122, Notes Payable-Current Year.

Capital Outlay-Function 80

This function code series is used for expenditures that are acquisitions, construction, or major renovation of school district facilities.

Facilities Acquisition and Construction-Function 81

This function is used by school districts for expenditures that are for acquiring, equipping, and/or making additions to real property and sites, including lease and capital lease transactions.

Intergovernmental Charges-Function 90

“Intergovernmental” is a classification that is appropriate where one governmental unit transfers resources to another. In particular, Chapter 41 purchase of WADA and the transfer of students where one school district pays another school district for educating students are examples of intergovernmental charges.

Contracted Instructional Services Between Public Schools-Function 91

This function code is used for expenditures that are used for providing financial resources for services in another public school through a contract for education of nonresident students under Subchapter E, Chapter 41, TEC; and purchasing attendance credits from the state under Subchapter D, Chapter 41, TEC.

Costs for contractual arrangements under Subchapter E, Chapter 41, are recorded under this function code only if the agreement is to pay for services managed and administered by another school district receiving payments under Subchapter E, Chapter 41, TEC. This function is to be used exclusively for the purchase of Weighted Average Daily Attendance (WADA) from either the state or other school districts.

Incremental Costs Associated with Chapter 41, Texas Education Code, Purchase or Sale of WADA-Function 92

This function code is used for expenditures that are for the purpose of positioning a school district with Chapter 41 excess wealth per WADA to purchase attendance credits either from the state or from other school district(s).

Payments to Fiscal Agent/Member Districts of Shared Services Arrangements-Function 93

This function code is used for expenditures that are for (1) payments from a member district to a fiscal agent of a shared services arrangement; or, (2) payments from a fiscal agent to a member district of a shared services arrangement.

Payments to Juvenile Justice Alternative Education Programs-Function 95

This function code is used for expenditures that are for the purpose of providing financial resources for Juvenile Justice Alternative Education Programs under Chapter 37, TEC. This function code is used to account for payments to other governmental entities in connection with students that are placed in discretionary or mandatory JJAEP settings.

Payments to Tax Increment- Function 97

This function code is used for expenditures that are for the purpose of providing financial resources paid into a tax increment fund (TIF) under Chapter 311, Tax Code. The revenues are recorded under fund 199, Object 5746. The expenditures are recorded under fund 199, Object 6499.

Other Intergovernmental Charges- Function 99

This code is used to record other intergovernmental charges not defined above.

This function code is used for expenditures that are used for obtaining instructional services from another public school for grade levels not served in a school district under Section 25.039, TEC.

Expenditures/Expense Object Code

Expenditures/expenses should be classified by the major object classes according to the types of items purchased or services obtained. Expenditure codes always begin with the digit “6.”

An expenditure/expense account identifies the nature and object of an account, or a transaction. The school district’s accounting records are to reflect expenditures/expenses at the most detail level, as depicted in the chart

of accounts (4 digits) for accounting and Public Education Information Management System (PEIMS) reporting (actual data) purposes. For PEIMS budget reporting purposes, expenditures/expenses are reported to the second digit of detail (6100, 6200, etc.) If a school district needs to use codes in addition to the mandatory codes for managerial purposes, the optional codes provided for local use in the TEA code structure should be used.

6100 PAYROLL COSTS

This major classification includes the gross salaries or wages and benefit costs for employee services. An employee is paid a salary or wage. The school district acts in a supervisory capacity over an employee and furnishes the working area and usually the equipment and materials necessary for the completion or performance of a task or service. Although an employee may work with more than one supervisor subsequent to, during, or after the normal employment period of hours, if the services or tasks performed are at the general direction of the school district, the amount paid to that employee is considered a payroll cost.

6200 PROFESSIONAL AND CONTRACTED SERVICES

This major account classification is used to record expenditures/expenses for services rendered to the school district by firms, individuals, and other organizations. This includes services provided by internal service funds unless the internal service fund is used to account for employee benefits. Internal service fund expenditures/expenses for employee benefits, such as health insurance, are to be classified to the appropriate code in the 6100 series of accounts. Normally, professional and contracted services represent a complete service that is rendered for the school district, and no attempt should be made to separate labor from supplies.

6300 SUPPLIES AND MATERIALS

This major classification includes all expenditures/expenses for supplies and materials.

6400 OTHER OPERATING COSTS

This major classification is used to classify expenditures/expenses for items other than Payroll Costs, Professional and Contracted Services, Supplies and Materials, Debt Service and Capital Outlay that are necessary for the operation of the school district.

6500 DEBT SERVICE

This major classification includes all expenditures for debt service. All debt service object codes must be used only with Function 71, Debt Service.

6600 CAPITAL OUTLAY - LAND, BUILDINGS AND EQUIPMENT

This major classification is used to classify expenditures for capital assets.

8900 OTHER USES

This major classification is used to classify other uses such as transfers out to other funds and are not considered normal operational expenditures for most state expenditure calculations.

Program Intent

The program intent is a two-digit code that identifies the cost of instruction and other services that are directed toward a particular need of a specific set of students. The intent (the student group toward which the instructional or other service is directed) determines the **PROGRAM INTENT CODE**, not the demographic make-up of the students served.

Program Intent Code

Program Intent Code Description

11	Basic Educational Services
21	Gifted and Talented
22	Career and Technical
23	Services to Students with Disabilities (Special Education)

Communicating with Stakeholders

Houston Independent School District

Overview of Site-Based Decision-Making (SBDM)

The basic premise of Site-Based Decision-Making (SBDM) is that the most effective decisions are made by those who actually implement the decisions. The belief is that people involved at the campus level have a greater opportunity to identify problems, and develop problem-resolution and change strategy, than people located off-campus. Site-Based Decision-Making concepts also recognize that people at the campus level are more likely to internalize change and to support its implementation if they are involved in decision-making, than if they were not.

The objective of site-based decision-making is to improve student performance and to enhance accountability. Each campus should have the freedom to set its own educational objectives, consistently aligned with the district's goals.

Site-Based Decision-Making Initiative

Site-based decision-making implementation has been mandated for all Texas school districts since 1992. Texas Education Code (TEC) Chapter 11, Subchapter F, District-level and Site-Based Decision Making, discusses SBDM in broad terms, listing the responsibilities of the local school board; required components of district and campus improvement plans; public meetings; membership categories; needs assessments; responsibilities of committee members; and other important instructional considerations.

The expected outcome of site-based decision-making is improved student performance as a result of:

- Effective campus and school district planning for the purpose of improved student performance
- Improved community involvement in the school improvement process
- Clearly established accountability parameters for student performance
- Increased staff productivity and satisfaction
- Improved communication and information flow
- Consensus-based, decision-making
- Pervasive and long-range commitment to implementation
- Increased flexibility at campus level, in the allocation and use of both human and fiscal resources
- Coordination of "regular" and special program or service components

The implementation process for site-based decision-making occurs at two levels—district and campus. To implement the process at the district level, administration should consider the following critical success factors:

- Support of both the School Board and the Superintendent as Site-Based Decision-Making requires a fundamental change in decision-making;
- Extensive and continuous training prior to and during implementation within the school district. Training should include, but not be limited to, developing skills on consensus building, brainstorming, problem solving, managing change and interpersonal communication skills such as conflict resolution, value clarification, and negotiation;
- Budget shifts will be performed by objective instead of the historical method of formulas. Therefore, a large part of the responsibility for budgeting will be transferred to the campus level.
- An extensive amount of time will be spent changing role definitions, training school district staff, educating the community, establishing objectives, developing and implementing programs and monitoring program

success;

- Extensive and accurate information must be provided to the campuses so that they may establish objectives and develop and implement programs to meet those objectives;
- Systematic communication is necessary as Site-Based Decision-Making is an inclusive process that involves school staff, parents and community members;
- Site-Based Decision-Making strives to decentralize decisions to the campus level and solicits the input of the following stakeholders in the decision-making process:
 -
 - Board members to evaluate the performance of the school district's Site-Based Decision-Making plan
 - Chief School Officers and other administrators to develop and implement Site-Based Decision-Making across the school district;
 - Central Office staff to provide support services to both the board members and schools in Site-Based Decision-Making initiatives;
 - Principals to develop their respective school's Site-Based Decision-Making policies and procedures as well as its campus improvement plan; and
 - Teachers, parents, students and community representatives to provide input for their respective school's Site-Based Decision-Making policies and procedures and campus improvement plan.

Overview of District Advisory Committee (DAC)

The District Advisory Committee solicits input that focuses on district-wide issues concerning planning, budgeting, curriculum, staffing patterns, staff development, and school organization, from parents, staff, and the community.

Under state statute, the planning and decision-making process is presented as an integrated process (TEC 11.251). Planning is one of six specific decision-making areas in which the district and the District Advisory Committee are involved with in accordance with HISD procedures. The other five areas include budgeting, curriculum, staffing patterns, staff development, and school organization. It is expected that the District Advisory Committee will address the six decision-making areas as interrelated factors that contribute in a coordinated manner toward accomplishing school improvement efforts.

The Superintendent has designated the General Manager of Budgeting and Financial Planning to be the liaison to the District Advisory Committee. Monthly update meetings are held and input from the District Advisory Committee is sought.

The General Manager of Budgeting and Financial Planning is also charged with providing the community stakeholders information pertaining to budget development. Also, stakeholders are advised on how they can participate and are encouraged to participate in the process. Various media are used to provide information to the stakeholders, such as, e-mail, presentations, and workshops. The community stakeholders range from the Greater Houston Partnership, MALDEF, Chamber of Commerce, Houston Chronicle Editorial Board, and various other organizations.

Descriptions of the above funds are included in this Financial Selection.

*The Copier Services and Virtual Schools Internal Service Funds are not represented on this chart since they are being merged/transitional to other funds. Copier Services transitioned to the Internal Service fund under the Print Shop. Virtual Schools transitioned to the General Fund. They are, however, represented in the financial schedules until the five year history is completed.

HOUSTON INDEPENDENT SCHOOL DISTRICT
GOVERNMENTAL AND PROPRIETARY FUNDS SELECTED ITEMS SUMMARY
FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Governmental Fund Types

Houston Independent School District

Governmental Fund Types are those through which most governmental functions of the district are financed. The acquisition, use and balances of the district's expendable financial resources, and the related liabilities are accounted for through the Governmental Fund Types. The following are the district's major governmental funds:

- **General Fund** – The *General Fund* is the primary operating fund of the district and accounts for all revenues and expenditures of the district not encompassed within other funds.
- **Special Revenue Fund** – The *Special Revenue Fund* is used to account for the proceeds of specific revenue sources (other than private-purpose trust funds or capital projects) such as federal, state or locally financed programs where unused balances are returned to the grant or at the close of specified project periods.
- **Debt Service Fund** – The *Debt Service Fund* is used to account for the accumulation of resources for, and the retirement of, general long-term debt and related costs.
- **Capital Renovation Fund** – The *Capital Renovation Fund* is used to account for financial resources to be used for the acquisition, renovation or construction of major capital facilities.
- **Public Facilities Corporation (a non-major governmental fund)** – The *Public Facilities Corporation* is used to account for financial resources to be used for the acquisition, renovation, or construction of district facilities.

Classifications of Fund Balances:

The following table shows fund balances as of June 30, 2018.

Fund Balances	Major			NonMajor		Total Governmental Funds
	General Fund	Special Revenue Fund	Debt Service Fund	Capital Renovation Fund	Capital Renovation-PFC	
Nondisposable	11,394,093	-	-	-	-	11,394,093
Restricted	-	62,903,803	120,557,656	734,975,292	17,399,029	935,835,780
Committed	46,364,840	-	-	2,729,367	-	49,094,207
Assigned	165,504,729	-	-	76,731,028	-	242,235,757
Unassigned	389,415,008	-	-	-	-	389,415,008
Total Fund Balances	612,678,670	62,903,803	120,557,656	814,435,687	17,399,029	1,627,974,845

Other Post-Employment Benefit Plans (OPEB)

Health Care Plan Description (TRS-Care)

The district participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

Employees of the system who retire with 10 or more years of eligible service credit and meet the Rule of 80 or are at least 65 years of age continue to receive health care and basic life insurance benefits through the Texas Employees Group Benefits Program (GBP) of the State Retiree Health Plan (SRHP) in accordance with Texas Insurance Code, Chapter 1551.

The district's ***Accrued Obligation for Post-Employment Benefits*** – as of June 30, 2018 net pension liability was \$64,672,473.

General Fund

Houston Independent School District

The **General Fund** is the district's principal fund, accounting for the majority of current operating expenditures. Recorded in the General Fund are transactions encompassing the approved current operating budget, related revenues, expenditures, assets, liabilities, and fund balance. Financial transactions of the district are recorded in detail in the general ledger by objects and functions within projects and programs. This fund has often been described as an operating or current fund and includes revenues from an ad valorem local maintenance tax, state funding, and other sources such as tuition, fees, and investment earnings.

The district has four sources of revenue: Local, State, Federal, and Other.

Local Sources

Current and delinquent property tax revenue (levy) is the district's largest revenue source in the amount of \$1,712,592,547 or 85.0 percent of all General Fund Revenues. The district has been seeing significant increases in the local roll values as shown in the Introductory Section of this document. However, unlike many city and county tax rolls HISD does not keep all of the increase in tax revenues generated. Under the state funding formula, as local property values rise the state reduces their share of public education. In fact, the state share of formula revenue in HISD has decreased from a high of 31.6 percent in 2010-2011 to an estimated -5.2 percent in 2018-2019, as HISD anticipates sending back more in Recapture payments than the district receives in state aid.

The revenue projections used for 2018-2019 are based off the certified estimated roll value that the district receives in April of each fiscal year. The district works with the Harris County Appraisal District (HCAD) early in the year, usually around February, to determine a starting point for tax revenue projections. These projections are used to build early estimates of the district's budget resources and help with the planning and ranking of programs in the upcoming years. The district has traditionally taken a conservative approach in early revenue and projections and in the past has been able to fund projects on a ranked planning list.

State Sources

State sources include the Foundation School Program (FSP) which is formula driven based off the district's property values and student counts at approximately \$87.27 million for 2018-2019. Available School Fund (ASF) is revenue from the states permanent fund and is revenue earned on a per capita basis for education by all school districts as outlined in the state's constitution at approximately \$86.68 million. Also included is pass-through funding of \$40 million for the state's contribution to the Texas Teacher's Retirement System (TRS). Total state funding (including the pass-through funds) is approximately 10.72 percent of the total revenues of the district. Without the pass-through funds the state funding is approximately 9.22 percent of total operating revenues. However, after netting the district's Recapture payment, actual state sources is a -5.2 percent.

Federal Sources

Federal sources total \$13.03 million and include indirect cost of \$10.78 million and revenue for the JROTC staff from the Army, Air Force, and Navy in the amount of \$1.96 million.

Other Sources

Other sources are transfers from the district's Medicaid program which are explained in more detail later in this section.

Special Revenue Fund

Houston Independent School District

The **Special Revenue Fund** accounts for all designated-purpose monies received in the form of federal, state or local grants. These grants, referred to as projects, are awarded to the Houston Independent School District for the purpose of accomplishing specified educational tasks; therefore, revenues and expenditures are recorded by project or similar groups of projects related by funding to accomplish the purpose of accounting for each grant.

Budget Assumptions

HISD continues to seek out and obtain grant funding for supplemental services for students. The Special Revenue Budget was based off of several assumptions.

- TEA has not released planning entitlements for 2018-2019. HISD has begun planning, prioritizing, and renewing the process for programs with projected planning amounts.
- Title I, Part A was projected with carryover funds based on funds to be allocated to schools on a per-pupil cost multiplied by the number of students who qualify for free or reduced-price lunches. Funds to be used to support training for effective teachers and paraprofessionals, parental involvement (ESSA requirement), services to homeless and foster care students, and supplemental services have also been used to calculate the projections.
- Title I, Part C projection is based on the number of eligible migratory children that are residing in the district and projected carryover funds from 2017-2018.
- Title I, Part D was projected based on planning amounts from 2017-2018.
- Title II, Part A was projected based on planning amounts from 2017-2018.
- Title III, Part A LEP and Immigrant was projected based on a per-pupil allocation of LEP students served according to the fall 2017 Public Education Information Management System (PEIMS) reporting figures.
- Title IV, Part A was projected based on planning amounts for previous year.
- Special Education Student Funding- IDEA, Part B and Part C was projected based on a permanent formula that includes a base amount, district enrollment of all students, and students on free and reduced-price lunch districtwide.
- Carl D. Perkins Act IV was projected based on planning entitlement
- Local and State sources are not included in the planning amounts for 2018-2019 due to no planning amounts being released for FY 2018 and/or FY 2019. The budget will be adjusted throughout 2018-2019 as grant awards are received.

Note: Fiscal year 2017-2018 only includes those grants that the district received NOGAs or pre-award notifications as of June 6, 2017. The budget will be adjusted throughout 2018-2019 as grant awards are received. Under the ESSA consolidated application HISD is now receiving Title IV funding. Local and State sources are not included in the planning amounts for 2018-2019. No planning amounts were released by TEA for the 2018-2019 fiscal year, 2018-2019 amounts are based on previous year's planning amounts.

Debt Service Fund

Houston Independent School District

The Debt Service Fund includes all accounts necessary to record transactions reflecting revenues collected from taxes and investment earnings and expenditures made for the payment of interest and principal on long-term, general debt obligations.

The tax rate for the Debt Service fund is levied to pay general obligation debt of the district. Less than 1 percent of the resources necessary to meet debt service needs are received in the form of state funds.

Growth in the property tax rolls has decreased from double digit increases in prior years and is represented in more detail in the Executive Summary.

The debt service tax rate for 2018-2019 has remained the same from the previous year at \$0.1667 in the adopted budget.

As of June 30, 2018, the district had total outstanding bonded debt principal of \$3.08 billion and other outstanding obligations of \$207.55 million for total debt principal outstanding of \$3.29 billion. The ratio of net bonded debt to assessed valuation and the amount of net bonded debt per capita are useful indicators of the district's debt position.

The district's ratings include the "Aaa" long-term rating on the District's bonds by Moody's Investors Services, Inc. and "AAA" rating by Standard and Poor's Corporation for debt enhanced by the Texas Permanent Fund guarantee. The unenhanced ratings by Moody's and Standard and Poor's are "Aaa" and "AA+" respectively. The latest review by the rating agencies was completed by both Moody's and Standard and Poor's in May, 2018. Lease revenue debt issued by the Houston Independent School received ratings of "Aa1" and "AA" by Moody's and Standard and Poor's respectively.

Capital Renovation Fund

Houston Independent School District

The **Capital Renovation Fund** is being used to account for all capital program projects on an individual project basis. The primary source of funds include the \$1.89 billion bond referendum approved in November 2012, Tax Increment Re-Investment Zones (TIRZ) funds, and Pay-As-You-Go funds.

More detail about the Capital Renovation Fund and the Facilities Bond Program can be found in the Informational Section of this document.

Budget Assumptions

REVENUE

TIRZ sources will continue based on the estimated return to HISD for educational facilities and “pass-through funds” for the 2018-2019 fiscal year.

EXPENDITURES

Decreased from 2017-2018 due to a small number of projects expected to be completed for the 2012 Facilities Capital Program.

Public Facilities Corporation

Houston Independent School District

The **Public Facility Corporation Fund** was established by the Houston Independent School District Public Facility Corporation (HISD-PFC) in 1998 and has funded the Food Services Warehouse, two high schools: Chavez and Westside, and four elementary schools: Cunningham, DeAnda, Peck, and Roosevelt. The revenue is currently funding the replacement of the North Forest High School Fonwood Early Childhood Center and the Energy Institute High School.

Budget Assumptions

REVENUE

Projected remaining interest earnings.

EXPENDITURES

Projected spending the majority of the remaining project balances, projects should be nearing completion.

Three Year Projection Summary

Houston Independent School District

The 2018-2019 Adopted Budget: **Four Major Governmental Funds -**

- **General Fund**
- **Special Revenue Fund**
- **Debt Service Fund**
- **Capital Projects Fund**

They are presented on the following pages along with three years of budget projections. Budget forecasting is one of the various tools used in the budget development process annually. Budget projection assumptions are included to identify projected revenue and other resources, expenditure demands, and changes in fund balance for the upcoming years. The figures are meant for planning purposes only and are subject to change.

Budget Projection Assumption

- The district continues to seek out and obtain grant funding for supplemental services for students.
- The State of Texas has projected growth of 1.4 percent in the education and health industry and HISD is projecting a percent growth rate in funding.
- In 2018-2019 the district will seek other federal funds to replace the USDE Magnet Grant and the Race to the Top with other initiatives.

**SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE – DEBT SERVICE FUND
PROJECTIONS FOR THE FISCAL YEARS ENDING JUNE 30, 2019 THROUGH JUNE 30, 2022**

Budget Projection Assumptions				
- Assumptions are estimates only and are contingent upon actual results. For example the required tax rate is largely contingent upon the realization of estimated roll value increases. - Roll value increases 2 percent in each fiscal year. - Debt tax rate does not change from the current \$0.1667 in subsequent years. - No new bonds are sold through 2021-2022. Variable rate principal payments scheduled each year would be available for new debt service if necessary.				
	2018-2019 Adopted	2019-2020 Projected	2020-2021 Projected	2021-2022 Projected

Internal Service Funds

Houston Independent School District

The **Health Insurance Fund** is used to account for the health insurance plan administered by the district. The plan is a premium based plan requiring the district and its employees to share the cost.

The **Workers' Compensation Fund** is used to account for risk financing activities related to the Workers' Compensation Program. All employees of the district are covered by this plan for injuries occurring on the job. The district contributes 100 percent of the funding for this program.

The **Print Shop Fund** is used to account for all the printing, copying and distribution activities of the district's print shop. Schools and departments are charged for the costs of printing and distribution requests. This year, all campus copiers have been moved into the Print Shop's budget for better management and accounting. During non-peak times, the Print Shop takes in work from other governmental agencies requiring assistance during their peak period. The district also has reciprocal agreements with other governmental agencies in the event a backlog of jobs is experienced by district users.

The **Alternative Certification Fund** is used to account for the recruiting, training, and supporting of qualified, degreed professionals. It provides professional development services to degreed interns so that they are successful in their classrooms and fulfill the requirements of SBEC (State Board for Educator Certification) of Texas teacher certification.

The **UIL Fund** is used to account for the UIL activities. It provides for schools to participate in One Act Play, Solo/Ensemble, Academics, Debate Cross-Examination, Marching Band, Concert Band, Choir, and Orchestra.

The **Athletics Fund** is used to account for the educational, social, moral and athletic skills of the student athlete. It provides a comprehensive High School and Middle School program for male and female athletes in areas such as football, basketball, track/field and soccer. The Athletics Fund is also used to schedule athletic activities, transportation trips and game officials and to efficiently operate Sports Complex venues for HISD athletics competitions and events.

The **Special Education Shared Service Fund** is used to account for school support services. These buy back services include instructional support, special education, compliance, crisis intervention and other.

The **Virtual School Fund** is used to account for the support services, coordination, implementation, and oversight of online programs throughout the district that are provided to help students and adults with online instructional courses offered through the Texas Virtual School Network (TxVSN) and the Virtual School Department. This fund transitioned to the General Fund in 2016-2017.

The **Copier Services Fund** is used to consolidate orders for all of the district's multi-function copying and duplicating devices installed in campuses, departments and HMWESC. Schools and departments choose from a long list of approved choices, the number of machines and the required features, print method (color or black & white), speed and monthly volume they need at their location. Funds to pay for their equipment are transferred from their budget into this fund at the beginning of every fiscal year. Purchase orders are then written from this fund to pay for the equipment. The fund is intended to break even every fiscal year. This fund merged with the Print Shop in 2016-2017.

Internal Service Funds - Budget Assumptions

Houston Independent School District

Health Insurance

REVENUE

Estimated medical plan enrollment is projected at 19,772 for 2018-2019 based on enrollment data adjusted for typical monthly variations.

EXPENDITURES

The net medical trend adjusted for increased trend due to a carrier change and trend reduction due to the grandfathered Health Reimbursement Account benefit is 9.7 percent. The net pharmacy trend adjusted for plan changes is 9.5 percent. Stop Loss insurance includes a \$2 million specific stop loss and aggregate medical stop loss coverage.

Workers' Compensation

REVENUE

The estimated decrease in 2018-2019 revenue is based on employer contributions. Interest revenue remains unchanged. The rates applied to payroll for Workers' Compensation remains unchanged.

EXPENDITURES

Overall, claim costs are expected to stabilize. A claim trend of 1 percent was used this year. In prior years a credit adjustment has been made due to declining claim reserve requirements, but that is not expected to continue as claim costs stabilize.

Print Shop – Administrative Services

REVENUE

An expected five percent decrease in some print spending, except at the schools due to Recapture, uncertainty and budget cuts. Social media and direct marketing efforts have been instrumental and will expand. There is an expected increased use of the SchoolPay card payment system to take orders for personal projects from employees and students. Copier services revenue will continue to grow as more copiers are ordered. All copiers in the HISD fleet are included inside the Print Shop budget and are a direct pass-through of school funds to allow efficient management and accounting of this activity.

EXPENDITURES

Purchased Web-to-Print system, which will dramatically improve customer service, job tracking, turnaround times, and operating efficiency while automating billing activities. A business analyst position has been created to manage the Web-to-Print software solution. Fund balance will be used to begin a program modernization effort to improve turnaround times, quality, and productivity. A more extensive use of FedEx ground service to deliver print project to customers.

Alternative Certification Program (ACP)

REVENUE

Alternative Certification Program revenue is based on available staffing, resignation, and termination data at the time of budget submission. As HISD continues to compete for new teacher talent and aggressively works to address strategic staffing needs, ACP, in conjunction with HR projects 2,000 teacher vacancy postings. Houston ISD ACP will serve as a certification entity for approximately 115 of these new teachers.

ACP will facilitate a fee-for-service professional development program focused on Classroom Management and Culture (CMC) and Time and Task Management (TTM) throughout the year, as needed. Both areas have been identified as critical foci for new teachers. ACP will begin another Educational Diagnostician ACP cohort in pursuit of a two-year, professional certification pathway. ACP will also partner with Teacher Career Development to co-create and facilitate learning opportunities for new teachers.

ACP is beginning another Educational Diagnostician ACP cohort as well as Counselor ACP cohort in pursuit of a two-year, professional certification pathway.

EXPENDITURES

Staff has decreased proportionally to reflect the enrollment numbers and business operation needs for 2018-2019. Staff and operating costs will be regularly monitored and adjusted as needed, based on actual enrollment numbers.

UIL Department

REVENUE

UIL revenue for 2019 is based on UIL 2019 applications received to date and current year trends in UIL academic and cocurricular events participation. Major trends include decreased revenue due to budget reductions at schools.

The largest initiative within the UIL Academics budget is The Houston Urban Debate League (HUDL). The 2018-2019 budget assumes that the district will continue to fund HUDL at the same level as in 2017-2018.

EXPENDITURES

Transportation, contracted services, student travel, and food expenses are expected to increase due to the addition of One Act Play Bi-District contests in 2017-2018. Reading material costs will decrease due to the transition to digital materials.

Athletics Department

REVENUE

The Athletic Department has based its 2018-2019 revenue projections on the 2017-2018 participation level for the first year of the program. The ticket sales and other revenues are forecasted on a conservative basis and does not take into consideration playoff receipts which is included in the current year to date receipts.

EXPENDITURES

Estimated expenditures for annual costs include official's pay for all sports will increase by \$124,000 along with the cost of vendor transportation at a cost of approximately \$500,000. There is a one time cost of \$3,297,512 which includes the following: new track at Cowart Stadium (\$820,512), softball field at Cowart Stadium (\$1,000,00), field work at Dyer and Cowart baseball field (\$25,000), end zone cameras (\$100,000), softball swing field due to construction (\$30,000), uniforms and equipment for middle schools (\$442,000), uniforms and equipment for high schools (\$800,000), replacement of football helmets (\$80,000), and TBD Cowart basketball gym.

Special Education Shared Services

REVENUE

The amount charged to schools for 2018-2019 for shared special education services will remain the same as in 2017-2018 at \$68 per student.

EXPENDITURES

Staffing of all shared service employees such as evaluation specialists and nurses, etc. will remain the same for 2018-2019. There will be no additional employees added for the new school year. The remaining expenditures will be for equipment, supplies and subscriptions, etc. paid for the schools for special education services.

Three Year Projection Summary

Houston Independent School District

The 2018-2019 Adopted Budget: **Seven Internal Service Funds -**

- **Health Service**
- **Workers Compensation**
- **Print Shop**
- **Alternative Certification**
- **UIL**
- **Athletics**
- **Special Education Shared Services**

They are presented on the following page along with three years of budget projections. Budget forecasting is one of the various tools used in the budget development process annually. Budget projection assumptions are included to identify projected revenue and other resources, expenditure demands, and changes in net assets for the upcoming years. The figures are meant for planning purposes only and are subject to change.

Budget Projection Assumption

- The state of Texas has projected growth of 1.8 percent in the education and health services industry.
- Accordingly, HISD is projecting a 1 percent growth rate in revenue and expenses.

Enterprise Funds

Houston Independent School District

The **Nutrition Services Fund** is used to account for the financial operations of the breakfast, lunch, and snack programs offered and managed through the district's own Nutrition Services Department. The district currently operates nearly 300 school cafeterias and satellite programs serving an average of over 269,000 meals a day.

The district participates in the federally funded National School Breakfast and Lunch Program which provides partial reimbursement of the cost of meals served to children. The remaining costs of preparing and serving these meals are covered by the price of the meals for students, staff and state fund. Also, over half of the schools in the district now participate in the Community Eligibility Provision (CEP). The district's Nutrition Services Department participates in the Summer Food Service as well as the Fresh Fruit and Vegetable Programs and most recently, the Child and Adult Care Food Program (CACFP).

The **Marketplace & Catering Fund** is used to account for the financial operation of the restaurant-style cafeteria on the first level of the Hattie Mae White (HMW) Educational Support Center as well as the district-wide Catering service program. The district established the Marketplace years ago as a benefit to employees working in the HMW building. The Marketplace currently serves approximately 320 employees on a daily basis as well as provides catering services to departments within HMW. The catering department was recently added to this fund to allow for enterprise-type catering services throughout the whole district and also services outside of the district. Both departments provide on-line services through the Marketplace and schoolhouse event portal.

The **Medicaid Fund** is used to account for the financial operation of special reimbursement programs offered by the district. For several years, the district has participated in a Medicaid reimbursement program, which is a federal program to provide partial reimbursement for health care services to eligible children. The district currently provides Medicaid Financial advisory services to over 500 schools in more than 100 Texas school districts.

Enterprise Funds - Budget Assumptions

Houston Independent School District

NUTRITION SERVICES

REVENUE

Federal reimbursements are projected to increase by just under 10 percent based on an increase in the federal reimbursement rates and the District moving to a 100 percent Community Eligibility Provision reimbursement model. Additionally, the CACFP (dinner) program is continuing to expand. Federal Revenue Distributed by State – Other is estimated to decrease due to budget cuts and reduced summer school sites and serving days.

EXPENSES

- Personnel costs are estimated to increase approximately 5 percent, due in part to the upgrade of transportation personnel and the addition of Food Service Attendants and other personnel.
- Contracted services costs were increased to cover the new contract for cleaning school cafeterias, as well as an industry-standard 60 percent of trash removal at schools.
- A 5.5 percent increase in food costs over prior year as a resulting from continued growth of food costs based on the CPI trend and an increase in food quality and menu choices is forecasted.
- An increase in the overhead costs includes the addition of personnel who were previously charged directly to the Nutrition Services fund.
- A planned warehouse automation initiative and technology replacements/upgrades for both POS in schools as well as equipment at the food production facility accounts for the increase in capital and non-capital equipment expenditures.

MARKETPLACE & CATERING

REVENUE

Higher revenues are projected from increasing expansion of business to both external customers by the catering department as well as HISD employees through the planned opening of 2-3 more internal sites. Growth in sales at Starbucks at HMW reflects a full year of sales versus a partial year in 2018, its opening year.

EXPENSES

Personnel costs and food costs are estimated to increase based on the increase in business from the initiatives of the catering department and the expansion of the internal sites at HISD.

MEDICAID FINANCE SERVICES

REVENUE

Revenues are estimated to remain relatively flat due to the reduction in the federal rates of reimbursement.

EXPENSES

Expenses were expected to increase by only 2 percent, primarily in personnel costs. Other costs, such as marketing, fees related to marketing efforts, and general supplies rose marginally.

Three Year Projection Summary

Houston Independent School District

The 2018-2019 Adopted Budget:

- **Nutrition Services**

The budget is presented on the following page along with three years of budget projections. Budget forecasting is one of the various tools used in the budget development process annually. Budget projection assumptions are included to identify projected revenue and other resources, expenditure demands, and changes in net assets for the upcoming years. The figures are meant for planning purposes only and are subject to change.

Budget Projection Assumptions	
* Assumptions are estimates only and are contingent upon actual results. Federal reimbursement amounts typically grow in relation to the CPI, projected at 2 percent. Marginal declines in enrollment/participation have been adjusted for in 2020, slightly offsetting the projected 2 percent CPI increase. In addition, there is expected increase in the CACFP (dinner) program.	
* Food cost is expected to increase in relation to the CPI, 2 percent projected for FY 2020 (offset by small decrease in participation as the result of declining enrollment) and 2 percent for FY 2021 and 2022. In addition, NS is expected to expend funds to replace capital assets.

Revenue and Expenditure Assumptions

Houston Independent School District

Prior to beginning the budget process for the 2018-2019 school year, assumptions with respect to the level of fund balance, sources of revenue, and an increase in expenditures, such as salaries and school allocations, were established. These assumptions are necessary in preparing budget forecasts so that long-range planning of resource allocations and revenue expectations can occur. These assumptions are listed below.

Fiscal Year

The **Fiscal Year** will run from July 1, 2018 through June 30, 2019.

Fund Balance

The **General Fund Operating Undesignated Fund Balance** is projected to remain the same for the current fiscal year 2018-2019.

Revenue

The **Taxable Value** of property in the district increased in 2018-2019 by 1.65 percent.

The **District's Optional Property Tax Exemptions** totaling over \$100 million in savings to homeowners will continue to be approved by the School Board.

The **Tax Rate** recommendation is \$1.2067 for the 2018-2019 school year.

The **Collection** ratios will be at approximately 97 percent, based on favorable economic conditions. The tax rate will be integrated into the budget development process.

Additional Sources of Funding, such as Medicaid reimbursement, will continue to be pursued.

State Funding, for fiscal year 2018-2019, will be approximately \$86.6 million, for the district's per capita allocation and the district will receive an estimated \$87.2 million through the Foundation School Program. In 2018-2019, HISD is subject to Chapter 41 recapture and will return an estimated \$272.49 million to the state.

Expenditures

The **Weighted Per Pupil Allocations** have been calculated for each school and adjustments to the PUA have been approved and added to the Weighted Per Pupil Allocation for all campuses, including adjustments for small schools and unique PUA schools.

Collections from the **Tax Increment Funds** will be designated only for capital replacement purposes. Funds are received back according to the contractual arrangements and are placed in the district's Capital Renovation Fund where the expenditures will be recorded.

Student Enrollment and ADA are projected by the Office of Budgeting and Financial Planning based on historical trends and the impact of state open-enrollment charter schools, home schools, etc.

Long-Range Planning

Three-Year Projections will be maintained to analyze the effects of fiscal year 2018-2019 revenue and expenditure decisions, which will be discussed later in this section.

Ongoing Financial Management

The budget process will be structured to identify programs and activities that can be reduced or eliminated with little or no impact on business operations or teaching and learning.

Student Enrollment Projections

Houston Independent School District

Projections of student enrollment include both the number and the type of students expected. HISD must know how many students will be enrolled before there can be any meaningful planning. Enrollment projections drive many of the revenue and expenditure components of annual operating, multiyear program, and construction budgets. At the most basic level, enrollment projections determine the number of buildings, classrooms, and faculty that the district needs. Enrollment projections also determine the functions of the district's educational programs. The types of individuals that comprise the student population are important in planning educational programs. The projection of student enrollment is important for both the next fiscal year and several subsequent fiscal years after because time frames for educational programs, as well as capital building and consolidation programs, are frequently multiyear.

Cohort Survival Ratios

The **modified cohort survival ratio** method has been the most utilized methodology for predicting student enrollment in HISD. It is also known as age, class, grade retention, or grade progression ratio. This method assumes that the historical survival rate of the members of a designated cohort (or group such as a kindergarten class that is tracked through graduation) can be used as the basis for predicting the size of similar cohorts (other kindergarten classes) as they progress through the system.

As a kindergarten class moves through the school system and emerges from the 12th grade, the composition and number of students in the class change yearly at an observable rate that is applied to other groups making the same progression from grades 1-12. Application of these observed rates of change to groups expected to enroll in kindergarten will project enrollment figures for grades 1-12 for the next 12 years. Application of the observed rates of change to a cohort already enrolled, likewise, is used to project enrollment figures for the years remaining for that cohort in the district.

In light of the recent increase in complicating factors regarding enrollment projections, the district has modified the cohort survival ratio approach using trend analysis. Without the modified approach, the cohort methodology predicts relatively high changes in enrollment through the 2019-2020 school year, which the district believes does not take recent developments into consideration, including annexation of the North Forest students and other economic factors. By incorporating the results of a three-year trend analysis, modified projections indicate that actual enrollment will remain relatively constant over the next three years. Also, campus administrators along with the Office of Budgeting and Financial Planning have made individual enrollment projections for each campus. The net result of the campus predictions suggests a slight decline in enrollment for the 2018-2019 school year, which coincides with the projections of the Budgeting and Financial Planning Office.

Factors Influencing HISD Enrollment Projections

Recent internal policy changes, local and national economic trends, immigration/emigration patterns, and increased competition from charter schools, private schools, and home schooling have raised the enrollment projection process to a new level of complexity. While the cohort survival methods (historical and linear) of projecting student enrollment have been the most successful methods to date, these methods currently predict large changes in enrollment, but the district has seen smaller actual changes and has therefore used a linear trend approach. We are now making educated adjustments to the enrollment predictions generated using a 4-year linear method. Factors considered in these adjustments include the number of charter schools operating within and near HISD borders. The recent expansion of private school facilities in the area and an estimate of the impact of increased home schooling are other factors used to adjust the enrollment projections.

To over project the number of students means that unnecessary teachers will be hired and maintained on the payroll due to contractual obligations. An under projection means that a campus will not have enough teachers for its students, and the principal and staff will struggle to find qualified staff long after most teachers have already solidified their job plans. Sometimes, enrollment projections involve determining which is the lesser of these two “evils.”

Since the district has nearly 213,528 students, differences between projected and actual enrollment can be as high as 2,000 students and still remain around one percent of the total enrollment. Therefore, in spite of the increasing factors that influence the district’s student population, the district is confident that reasonably accurate enrollment projections can be maintained, facilitating as stable an operating environment as possible.

State Education Funding Formula

Houston Independent School District

State and Local Sources

School districts in Texas generate public school formula revenue in several ways. The Foundation School Program (FSP) is the mechanism through which most revenue used to fund public education in Texas flows from the state to local districts. The statutory goals of the FSP are to guarantee that each school district in the state has adequate resources to provide a basic instructional program. School district entitlements are determined through a series of formulas based on the types of students in the district, the size of the district, and the district's taxable property value and tax rate. The FSP consists of two components: a maintenance and operations (M&O) funding component and a facilities component. Within the FSP, Tier I determines the bulk of district's entitlement, while Tier II allows school districts to generate supplemental funding for enrichment at the discretion of the district.

A district's Tier I entitlement is calculated using a basic allotment amount multiplied by the number of students in average daily attendance (ADA) and additional weighted allotments called weighted average daily attendance (WADA). Districts receive this entitlement through state aid and local property tax revenues. In 2017-2018, the basic allotment amount generated by each student was \$5,140. The basic allotment is adjusted for the cost of education index, which is meant to adjust a district's basic allotment to take into consideration areas such as greater number of students in high cost categories, regional labor cost, higher costs for goods in services in a region, and greater security needs. This cost of education index has not been updated by the state since 1993. When this adjustment is applied to HISD, the new adjusted basic allotment (ABA) is \$5,645. In addition to the basic allotment per ADA, weights are added to the allotment for students receiving additional services, such as special education, at-risk (state compensatory education), bilingual/ESL, gifted and talented (GT), and career and technology services. A note here is that GT funding is capped at five percent of the district's total ADA. The District also receives additional allotments for high school students (\$275 per ADA), transportation, and a staff allotment for a state insurance supplement. However, the district does not receive the transportation allotment after becoming subject to recapture. The total cost of Tier I is determined by summing all of these allotments. This cost is then apportioned between the state and school district as described below. In FY2018-2019, HISD's total Tier I cost is estimated at \$1.43 billion.

Property values in Texas school districts play a crucial role in determining the local and state shares of Tier I funding. A school district's share, the local fund assignment (LFA), is determined by applying the district's compressed M&O tax rate (\$0.9667) to the district's assigned taxable property value, determined by the state's comptroller office, and dividing by 100. The district's share is then subtracted from the total cost to determine the state's share. Thus, as property values increase, school districts pay a larger portion of the total cost, and the state portion of the cost decreases. In recent years, significant increases in HISD property tax rolls have outpaced student enrollment growth, reducing the state's share of Tier I funding. The district's total certified taxable roll value increased from \$109.06 billion in 2009-2010 to an estimated \$176.3 billion in 2018-2019. Correspondingly, the state share of Tier I revenue has declined over time from 26.8 percent in 2009-2010 to an estimated -5.2 percent in 2018-2019. If a school district's LFA exceeds its Tier I entitlement, the district is considered to be "budget balanced" and is subject to Chapter 41 recapture. In 2017-2018, HISD's \$1.70 billion, LFA exceeded the total cost of Tier I making HISD subject to recapture.

Tier II funding of the FSP is known as "enrichment" or "guaranteed yield" and is used to supplement the revenue received in Tier I. School districts are authorized to tax above a district's compressed rate up to a statutory \$1.17 M&O cap. The first \$0.06 pennies levied above the district's LFA rate are at the discretion of the school board, and the remaining pennies require voter approval. The first \$0.06 levied above the compressed rate are guaranteed to generate the same level of revenue as Austin Independent School District and are not subject to recapture. Remaining pennies up to the statutory M&O rate cap of \$1.17 are subject to recapture. However, because HISD's compressed tax rate is below \$1.00 our M&O tax rate cap is \$1.1700.

For 2018 tax year, the HISD Board of Education adopted a tax rate of \$1.2067 per \$100 of taxable value, including an M&O component of \$1.0400, and a debt-service (I&S) component of \$0.1667 cents. Therefore, the district is taxing the additional \$0.06 in the M&O tax rate and receiving the enrichment funding.

The facilities funding component of the FSP provides school districts with assistance for debt service related to school facilities by equalizing interest and the interest and sinking fund (I&S) tax effort. The district's I&S tax rate provides funds for payments on the debt that finances a district's facilities. The state uses this tax rate to calculate Instructional Facilities Allotments and Existing Debt Allotments. However, based on local property values, HISD does not currently qualify to receive either allotment.

School districts also receive an allotment from the Available School Fund (ASF), which is made up of money set aside by the state from current or annual revenues for the support of the public school system. Revenue for the ASF is generated by earnings from the Permanent School Fund, an endowed fund established by the Legislature for the benefit of public schools, and motor fuel tax revenue. Funds from the ASF are distributed on a per-student basis, \$447.18 in 2018-2019. However, these funds are charged against a Chapter 42 districts state aid. If a district is Chapter 41, it is entitled to the full ASF funding. In 2018-2019, HISD will generate an estimated \$86.675 million from the ASF.

Finally, school districts receive revenue through other programs, including supplemental Tax Increment Financing (TIF) payments and a staff allotment. TIF is a tool for financing public improvements by freezing assessed property values for a specified period of time within a tax increment reinvestment zones (TIRZ). Municipalities then initiate economic development projects within the TIRZ and use any annual incremental tax revenues above the frozen base to finance the developments. Until 1999, school districts could opt to contribute tax increment revenue to a TIF, reducing the taxable property reported to the state. In return, the state would hold the district harmless for resulting foregone revenue. However, in 1999 the Legislature eliminated the school districts' ability to achieve a reduction in taxable property value resulting from a TIRZ established after September 1, 1999, eliminating the hold harmless provision for new TIRZ. The district expects a supplemental TIF payment of approximately \$8.50 million.

The staff allotment was intended to offset the costs of a supplemental wage supplement for health insurance for non-administrators. School districts, including districts subject to Chapter 41 recapture, are eligible to receive funding known as Additional State Aid for Staff Allotment. School districts currently receive \$500 for each full-time employee who is not an administrator or subject to the minimum salary schedule and \$250 for each part-time employee who is not an administrator or subject to the minimum salary schedule. In 2018-2019, HISD will generate an estimated total of \$5.56 million from the staff allotment.

During the 84th Texas Legislative Session the mandatory state homestead exemption changed from \$15,000 to \$25,000. For 2018-2019 the district expects approximately \$2.39 million in state aid as a hold harmless for this change in the state mandated exemption.

The total estimated state aid from other programs is \$14.05 million.

Overall, HISD is projecting a total of \$1.88 billion in public school formula revenue in fiscal year 2019. Of this revenue, an estimated \$173.94 million is from state aid, and \$1.71 billion is from local property tax revenue. However, while the district generated \$173.94 million in state aid, HISD will pay an estimated \$272.49 million in recapture back to the state.

See chart on the next page for more detail.

Public School Formula Revenue

	2017-2018 Adopted Budget	2018-2019 Adopted Budget	Variance
Foundation School Program Block Grants	\$1,430,394,294	\$1,421,513,987	(\$8,880,307)
Transportation Allotment	\$0	\$0	\$0
High School Allotment	\$12,508,508	\$12,734,531	\$226,023
NIFA	\$0	\$0	\$0
Total Tier I Cost	\$1,442,902,802	\$1,434,248,518	(\$8,654,284)
Local Fund Assignment	(\$1,647,379,478)	(\$1,707,183,729)	(\$59,804,251)
State Share (FSP)	(\$204,476,676)	(\$272,935,211)	(\$68,458,535)
Available School Fund ⁽¹⁾	(\$38,945,766)	(\$86,675,558)	(\$47,729,791)
Adjusted FSP ⁽²⁾	\$12,508,508	\$12,734,531	\$226,023
Tier II	\$56,865,001	\$60,486,271	\$3,621,270
Other Programs	\$27,428,972	\$14,050,027	(\$13,378,945)
Available School Fund	\$38,945,766	\$86,675,558	\$47,729,791
Total State Aid	\$135,748,248	\$173,946,387	\$38,198,139
M&O Tax Collections ⁽³⁾	\$1,650,186,250	\$1,667,946,967	\$17,760,717
M&O TIRZ Tax Collections	42,549,431	44,645,580	2,096,149
Local Property Taxes	\$1,692,735,681	\$1,712,592,547	\$19,856,866
Total Formula Funding	\$1,828,483,929	\$1,886,538,934	\$58,055,005
Recapture	(\$268,986,857)	(\$272,492,039)	(\$3,505,182)
Net Available Formula Funding	\$1,559,497,072	\$1,614,046,896	\$54,549,824

Note 1: Available School Fund (ASF) nets against (reduces) Foundation School Program (FSP) for Chapter 42 District's. Chapter 41 district's are entitled to ASF and it does not.

Note 2: Even though state share is negative, the district is still entitled to receive High School Allotment and New Instructional Facilities Allotment (NIFA) under the FSP.

Note 3: M&O Tax Collections include taxes collected and then paid back to the state through the recapture payment.

Recapture

Recapture, also known as Chapter 41, is a mechanism in the state funding formulas that ensures a district's property wealth per student does not exceed certain levels set in state law, known as equalized wealth levels (EWL). A district is subject to the provisions of Chapter 41 recapture if its property wealth per weighted average daily attendance (WADA) exceeds certain equalized wealth levels in statute. State-determined EWL per WADA limits the access of school districts to the tax revenue generated by their local M&O tax efforts. The first EWL is equal to the maximum school district wealth per WADA provided by the basic allotment through Tier I. The Legislature determines EWL, which has increased from \$476,500 in property value per WADA in 2012-2013 to \$514,000 in property value per WADA in 2018-2019. The state multiplies the district's compressed M&O tax rate per WADA to determine property wealth per WADA, and any tax collections associated with property wealth in excess of the first EWL are subject to recapture.

The compressed tax rate is \$0.98 calculated by taking the districts M&O tax rate in 2016-2017 of \$1.45 multiplied by 0.6667 = \$.9667. In 2017-2018 the Board of Education voted to do a tax rate swap meaning the district reduced its Interest & Sinking (I&S) rate and increase the M&O rate by an equal amount of \$0.0133). This increased the \$0.9667 compressed tax rate to \$0.98.

Recapture at EWL1 is only taken on taxes collected at this compressed tax rate. The district's total M&O rate for 2018-2019 is \$1.04. The additional \$0.06 pennies that the district is taxing on is not subject to recapture and are referred to as "Golden Pennies" and are intended for enrichment.

As tax rolls in HISD have increased in recent years, the district's wealth per WADA has also increased. However, EWL increases authorized by the Legislature prevented the district's property tax collections from becoming subject to recapture in recent years. Despite an EWL increase in during the 2016-2017 biennium, HISD became subject to Chapter 41 recapture, which produced the first budget shortfall due to recapture. In 2018-2019, the district's property wealth per WADA was \$625,233, exceeding the statutory limit of \$514,000 per WADA and subjecting HISD to recapture. Next page is a chart, summarizing the methodology for calculating the district's 2018-2019 Recapture payment.

HOUSTON INDEPENDENT SCHOOL DISTRICT

2018-2019 Chapter 41 Recapture Payment Calculation At Original Budget

1	2018-2019 Projected WADA		267,010.725
2	2018-2019 WADA Adjustment for Tuition Students		10.003
3	2018-2019 Projected Chapter 41 WADA		267,000.722
4	2018-2019 Equalized Wealth Level 1 (EWL1)	\$	514,000.000
5	2016 Comptrollers Assigned Property Value (prior year value)	\$	166,937,675,462
6	EWL1 Property Value Limit	\$	137,238,371,144
7	Amount exceeding EWL1	\$	29,699,304,318
8	Percent over EWL1		17.79%
9	Wealth per WADA	\$	625,233
10	2018-2019 Tax Collections Subject to Recapture (at compressed rate)	\$	1,571,719,257
11	Recapture	\$	279,619,136
12	Early Agreement/Efficiency Credit (if early agreement submitted by September 1)	\$	(4,622,460)
13	Credit for Appraisal Costs	\$	(2,504,637)
14	Final 2018-2019 Recapture Payment Estimate	\$	272,492,039
CAD Cost Credit Elements			
15	CAD Costs	\$	14,940,330
16	Total M&O Tax Collections Net of TIRZ Payments	\$	1,667,946,967

The Texas Education Agency (TEA) determines the amount of recapture owed by a district by calculating the percentage of a district's taxable value that is above the equalized wealth level and then applying that percentage to the taxes generated by the district's tax rate. Therefore, in the case of HISD for 2018-2019, 17.79 percent of the district's tax base is above the equalized level, the district must remit 17.76 percent of the M&O property taxes collected at the compressed tax rate (\$0.98) to equalize wealth.

Using this formula, HISD will owe the state an estimated \$272.49 million in recapture payments in 2018-2019 after adjustments permitted in statute. As property values continue to grow, the district's estimated recapture payment will increase if no changes are made to the public school funding formula. Estimates of future recapture payments are listed in the chart below and are based on the revenue forecasts described in this book.

Chapter 41 Recapture Projections		
Fiscal Year	Recapture	Roll Value Increase
2019-2020*	291,591,548	2.00%
2020-2021*	323,938,725	2.00%
2021-2022*	356,775,368	2.00%

*Recapture payments for fiscal years 2019-2020 to 2021-2022 are based on the roll value estimates used to project revenue growth later in the Informational Section.

Districts subject to recapture have five options to equalize wealth, and districts may exercise these options singly or in combination.

- Option 1: Consolidate with another district
- Option 2: Detach property
- Option 3: Purchase attendance credits from the state and send revenue to the state
- Option 4: Contract to educate nonresident students from a partner district and send revenue to a property-poor district(s)
- Option 5: Consolidate tax bases with another district.

Options 3 and 4 must be approved by voters.

In July 2018, HISD received final notice of Chapter 41 recapture status for 2018-2019 from the Texas Education Agency. The vote to approve Option 3, to equalize the district's wealth was approved by voters in May, 2017.

Per Pupil Expenditures

HISD per-pupil expenditures are calculated according to the convention established by the Texas Education Agency. The TEA per pupil calculation uses the sum of all **operating** expenditures (which do not include debt service, capital outlay, or community services) divided by the total number of students (October enrollment snapshot used by PEIMS).

Source: Texas Academic Performance Report, 2013-2017 TEA Actual Financial Report

*Notes: FY2018, was available through 2017-2018 Budgeted Financial Data from TEA

Cost-per-pupil measures offer a more intuitive view of the cost of educating students and provide a basis for comparison of the costs of education with prior years, other local districts, other Texas districts, and national averages. Also, the larger increases in per pupil expenditures generally coincide with the biennial appropriations by the state legislature. As seen in the tables, HISD has maintained competitive cost-per-pupil averages in spite of having a student population in need of comparatively greater services and support.

It is important to note that the school funding formula in Texas equalizes funding to compensate school districts for differences in student population (numbers of students served in special programs, such as Special Education and Bilingual/ESL Education) as well as the cost of education in a particular area of the state, so that differences in spending per pupil reflect the needs of the student body rather than the ability of a district to generate local revenue.

Source: TEA, Actual Financial Data Report, 2016-2017, Average does not include HISD

Expenditures for Different Types of Pupils

The cost of educating different categories of pupils varies. For example, Special Education, Bilingual and English-as-a-Second-Language (ESL), Career and Technology, and Gifted and Talented programs all require additional funding to serve the students participating in them. The chart illustrates the average costs associated with some of these programs. These figures are based on data from the 2016-2017 school year and represent an estimate of the actual costs, which should be added to the regular education per student cost of \$3,992 to derive total costs for each student category. It is important to note that these are average expenditures; differences among students even within the same category can lead to wide variation in expenditures. As in the case of Special Education, some children spend very little time outside the regular classroom while others require intensive medical and instructional attention from Special Education teachers and staff.

Source: TEA 2016-2017 Texas Academic Performance Report (TAPR) TEA, 2016-2017 Actual Financial Data

A Comparison of Per Pupil Expenditures

HISD's per pupil expenditures were above the state average for selected large school districts (over 50,000 students). A significant portion of total expenditures were devoted to at-risk and bilingual programs because of the large numbers of students requiring these services. Austin, El Paso and Houston show the three largest amounts of funds expended for educating at-risk students; Fort Worth and Fort Bend show the largest amounts of funds expended for educating bilingual students.

Source: TEA 2016-2017 Texas Academic Performance Report (TAPR), TEA 2016-2017 PIEMS District Financial Actual Report

Note: Average does not include HISD

How was the \$7,395 for each pupil spent?

Another way to analyze expenditures is to show how the operating budget affects a typical student. For the 2016-2017 school year, the General Fund operating budget of \$1,593,031,837 (as defined by the Texas Education Agency) funded 215,408 students at an average cost of \$7,395 per pupil. The chart below shows how the different functional areas and services contribute to the overall cost of educating each student.

Explanation of Categories:

Instruction: Includes salaries, benefits, and related expenses for classroom teachers, teacher aides, and teacher assistants, etc.

Transportation: Includes expenses and salaries related to student transportation – fuel, equipment, vehicles, maintenance and repair, etc.

Facility Services: Includes salaries and other expenditures for the maintenance of schools and other district facilities. Also includes districtwide utilities and physical plant insurance expenses.

Instructional-Related Services: Includes expenses and salaries related to curriculum and staff development, subject/grade level department heads, salaries and expenses for librarians, library services, resource material, production of educational programming, maintenance of instructional networks, etc.

School Leadership: Includes salaries and expenses for principals, assistant principals and related staff, staff to record, compile and report pupil attendance data, and other staff related to non-instructional campus administration.

Instructional Resources & Media: Includes salaries and expenses for librarians, library services, resource material, production of educational programming, maintenance of instructional networks, etc.

Counseling/Social Work/Health: Includes expenses and salaries for counselors, mental health screening, diagnosticians, student appraisal services, standardized tests, truant/attendance officers, social workers, school physicians and nurses, health screening, inoculations, etc.

Security & Monitoring: Includes salaries and expenses for campus police, security guards, security devices, vehicles, school bus security monitors, school crossing guards, etc.

Communications/Data Processing/Gen. Administration: Includes expenses and salaries related to general administration (human resources, finance, legal, etc.), technology hardware and software, parental involvement programs, community services, etc.

Instructional Leadership: Includes salaries and expenses for instructional supervisors, special programs/population coordinators, and others involved in managing and coordinating instructional activity.

Nutrition Services: Includes breakfast, lunch, and other meal services for students.

Co-curricular Activities: Includes salaries, stipends, and expenses for operating athletics programs and other extra-curricular programs such as debate, FFA, drama, band, etc.

HISD Nutrition Services

Nutrition Services proudly serves more than 269,000 nutritious meals each day, fueling our students academic performance and inspiring the development of life-long dietary health and wellness behaviors. HISD Nutrition Services offers a choice of healthy meals each school day. All meals served meet nutrition standards as established by the U.S. Department of Agriculture. The chart below reflects the meal pricing history for the last four years, as well as the current year.

Performance: District Administration

Houston Independent School District

The Houston Independent School District is continuing to examine key performance ratios and statistics to ensure that overall administration is efficient and effective. One important indicator used is the percentage of expenditures going to different categories of operations. Analysis of these ratios help administrators ensure that central administration expenditures are being held at an acceptably low level and that instructional expenditures, as a share of total expenditures, remain as large as possible.

Percentage of Total Expenditures Allocated for Different Operational Areas

Six categories of expenditures have been defined by TEA's Division of Performance Reporting for use in determining the overall direction of district spending. **Instructional Expenditures** includes all activities dealing with the instruction of pupils, including teacher salaries and computer-aided instruction. **Central Administration** includes expenditures for the general administration of the district, instructional leadership, and data processing and technology services. **School Leadership** includes expenditures for administrative and operational expenses for campuses in the district. **Plant Services** contains the expenditures for physical and plant maintenance for all facilities in the district as well as security and monitoring services. **Other Operations** includes such outlays as student support services (counselors, nurses, etc.), pupil transportation, food services, co-curricular activities, and curriculum and staff development. **Non-Operations** expenditures include capital outlay expenditures, the capital projects fund, debt service expenses, and community service expenditures. The following table shows HISD trends in these areas over the past ten years.

As depicted in the table, central administration expenditures have been successfully lowered while the level of instructional expenditures has remained fairly constant. Compared with other districts in Texas, expenditures for central administration and other operations are relatively low. Since 2008 instructional expenditures have decreased 2.4 percentage points, central administration has increased by 2.4 percentage points, school leadership and other non-operations decreased by 3.6, percentage points, and all other areas have increased by 1 percentage points.

	2008	2009	2010	2011	2012	2013	2014	2015	2016	2017
Instructional	62.3%	63.1%	63.8%	65.3%	63.7%	64.9%	64.1%	65.2%	61.9%	59.9%
Central Administration	5.0%	4.7%	4.6%	4.8%	4.7%	5.4%	6.1%	6.8%	7.0%	7.4%
School Leadership	7.1%	7.1%	7.0%	8.6%	9.4%	8.4%	7.7%	7.6%	7.1%	6.9%
Plant Services	12.0%	12.1%	10.7%	13.1%	14.0%	13.4%	14.0%	12.7%	9.6%	10.5%
Other Operations	1.3%	12.7%	13.7%	8.1%	8.0%	7.9%	7.8%	7.6%	14.0%	14.9%
Other Non-Operations	3.0%	0.3%	0.2%	0.1%	0.2%	0.1%	0.1%	0.1%	0.4%	0.4%

HISD Tax Rate and Teacher Salaries

Two extremely important groups that influence the reputation and operations of the district are the local taxpayers and district teachers. A lack of satisfaction among these groups can have a very negative effect on the ability of the district to carry out its mission.

The chart on the following page compares the HISD tax rate with other Harris County school districts. HISD not only has one of the lowest tax rates by a significant margin, but also offers a 20 percent optional homestead exemption that many area districts do not offer, lowering the HISD's effective tax rate even further. Even with possible increases in the tax rate, which may prove necessary due to potential reductions in state funding, HISD's rate will likely remain among the lowest in the region.

2018 Harris County School District Tax Rates

Source: Harris County Appraisal District. The average for Harris County does not include HISD.

Teacher Salaries

Teacher salaries are an important performance indicator since the ability to provide competitive salaries reflects the ability of the district to attract and retain qualified, successful teachers. Adequate salaries are a prime component of job satisfaction for teachers and other employees; lower salaries can result in low morale, high turnover, lower student performance, and increased training and recruitment expenses. The table below compares HISD salaries with those of other large Texas school districts while the table on the next page compares HISD to other Houston-area school districts.

2018-2019 Teacher Salary Survey

Large Texas Districts

District	Bachelor's		Master's		Doctorate	
	Minimum	Maximum	Minimum	Maximum	Minimum	Maximum

*TASB data reported salary amounts are for 10-month teachers with bachelor's degree.

Tax Rates and Salaries vs. Inflation

Another verification of the effectiveness of tax rate and salary policy is to compare both with the rate of inflation over a specified period of time. Tax-rate and salary increases that either out-pace or fail to keep up with the rate of inflation, respectively, do not satisfy the groups involved. The following chart compares the Houston-area rate of inflation with the increases of each item from 2000 to 2018. The chart shows that the Houston area total inflation was 47 percent (about 2.57 percent average per year), while the tax rate decreased by 17.3 percent, and teacher salaries increased 49.3 percent over the same period.

Source: Bureau of Labor Statistics June 2018 (inflation data) CPI, Houston-Galveston-Brazoria, TX; 2000 base year; Salary and Tax data from the HISD Office of Budgeting and Financial Planning.

Note: Salary step increase for teachers was approved in August 2018 and is not reflected in the above chart

Administrative Cost Ratio

The administrative cost ratio is the ratio of administrative costs (central administration) to instructional costs (related to direct classroom instruction and student services). This ratio is legally defined and calculated annually by the Texas Education Agency (TEA) (as per Senate Bill 1). As illustrated on the next page, the administrative cost ratio has increased from 4.88 percent in 2010 to an estimated 5.14 percent for 2019. The district's ratio is still almost 60 percent lower than the state maximum standard of 11.05 percent. Since larger districts benefit from greater economies of scale, the state has set a more stringent standard and lower ratio for large districts, such as HISD.

Comparison of administrative cost ratios among the seventh largest Texas districts reveals that HISD continues to maintain a competitive position among these seventh large districts in Texas. Combined with the information from the previous chart, the data confirms that HISD is successful in maintaining and promoting efficient operations. Monitoring and improving this ratio will continue to be a district priority in the future. However, SB 900 enacted during the 78th Texas Legislature's Regular Session in 2003 repealed Section 42.201 of the Texas Education Code (TEC) relating to administrative cost ratios. The bill continued the statute only for the limited purpose of recovering amounts from districts that meet the criteria for excess administrative costs for 2002-2003. For 2003-2004 and all future years the administrative cost ratio has become a part of the District's Financial Accountability Rating issued by TEA each year under School FIRST, Financial Accountability Rating System of Texas. Historical Information from 1995-2002 will continue to be maintained at TEA's website for reference purposes.

Public vs. Private Sector

Houston Independent School District

The U.S. Equal Employment Opportunity Commission (E.E.O.C.) produces a report comparing the types of positions occupied by different ethnic groups as well as a breakdown by industry. Within each industry, the E.E.O.C. further defines position totals by administrative-supervisory and non-administrative roles and then provides a ratio of administrative-supervisory to non-administrative employees. The private sector has a much lower supervisor to non-supervisor than the Public Sector, interestingly however, HISD ratios are more closer to private sector ratios. The following chart shows a breakdown of this information.

Private Sector				
USA by Industry:	# Total Employ.	# Admin. Sup.	# Non-Sup.	Ratio
Agriculture, Forestry, & Fishing	321,995	25,706	296,289	11:53

Performance Results: Student Achievement

Houston Independent School District

The Houston Independent School District regularly evaluates student performance in many areas in order to ensure that Houston children achieve the best educational possible. Additionally, student achievement results are used by district staff to evaluate different educational initiatives and to ensure that funds are expended in the most efficient and effective ways possible. Student achievement reports to students, parents, and the community in general are provided regularly. As well as detailed reports submitted to the Texas Education Agency (TEA). For more detailed information, please visit www.houstonisd.org (under Departments tab/Research and Accountability) or Research and Accountability at 713-556-6700 research@houstonisd.org.

State of Texas Assessments of Academic Readiness (STAAR)

Standardized assessment in Texas have changed over the last decade. In 2007, the State Senate in Texas enacted Senate Bill 1031, calling for the development of an end-of-course assessment (EOC), now referred to as State of Texas Assessment of Academic Readiness (STAAR) for secondary-level courses in: Algebra I and II, Geometry, Biology, Chemistry, Physics, English I, II and III, World Geography, World History, and U.S. History. STAAR replaced the Texas Assessment of Knowledge and Skills (TAKS) program in 2012. The STAAR program for grades 3–8 assessed the same grades and subjects as were assessed on TAKS. For high school, general subject-area TAKS tests were replaced with twelve STAAR EOC assessments. STAAR EOC assessments are available for Algebra I, Geometry, Algebra II, Biology, Chemistry, Physics, English I, English II, English III, World Geography, World History, and U.S. History. TEA, in collaboration with the Texas Higher Education Coordinating Board (THECB) and Texas educators, developed this new assessment system in response to requirements set forth by the 80th and 81st Texas Legislatures. This new system focuses on increasing postsecondary readiness of graduating high school students and helps to ensure Texas students are competitive with other students both nationally and internationally. The 83rd Legislature reduced the number of EOC assessments to five to include Algebra I, English I and English II, Biology and U.S. History in House Bill 5.

In grades 3–8, students are tested in mathematics and reading. Students are also tested in writing for grades 4 and 7, science in grades 5 and 8, and social studies in grade 8. Student performance is categorized into three levels, based on assessment on cut scores. For the general STAAR assessments, STAAR Modified, and STAAR L, the labels for the performance categories are Level III: Advanced Academic Performance, Level II: Satisfactory Academic Performance, and Level I: Unsatisfactory Academic Performance. These performance level categories were set and applied in the fall of 2012.

HISD students in grade 3 through 8 take the State of Texas Assessments of Academic Readiness assessments in reading, mathematics, writing, science and social studies. HISD performance by subject and grade level for 2015-2018 is shown in the following table.

HISD Performance by Subject, and Grade Level: Spring 2015-2018

Student Performance

In 2013, the 83rd Texas Legislature passed House Bill 5, eliminating the state's cumulative score requirement for graduation. House Bill 5 also reduced the number of EOC assessments to 5; algebra I, English I, English II, biology, and U.S. History. The purpose of this report is to provide an overview of the results from the spring 2018 administration of the EOC in accordance with the rules and policies adopted by the Texas Education Administration (TEA) to implement Senate Bill 1032 all EOC assessments and Level I Minimum Academic Performance standards are reported.

According to STAAR End of Course results, HISD students are on track to graduate high school, prepared for college, and rewarding careers. HISD student performance was strongest in math and science, while students struggled most with reading and writing. In response to lagging performance in reading, HISD has invested significantly in a Literacy by 3 initiative, which involves research-based reading improvement strategies. An HISD program evaluation found the progress is having a statistically significant and positive effect on elementary school reading scores. In response, the district maintained its investment and expanded the initiative to "Literacy in the Middle" in current fiscal year, despite budgetary constraints.

The tables shown on the next page reflects HISD percentage performance for the 2017-2018 EOC tests.

Dropout Rate

The chart below reflects graduation data among various demographic groups. To increase high school graduation across all groups, HISD has implemented several initiatives. Each year the district conducts a "Grads Within Reach Walk" to encourage students to return to school and finish high school. In addition to this annual event, district dropout prevention caseworkers work year-round to keep students in school or get them back to class.

Student, Cycle Completion Status for HISD by Student Demographics												
	2014-2015				2015-2016				2016-2017			
	Grad	GED	Cont	Drop	Grad	GED	Cont	Drop	Grad	GED	Cont	Drop
All Students	81.8	0.7	6.7	10.8	82.0	0.5	6.6	10.9	80.5	0.6	6.3	12.6
African American	78.4	0.7	5.7	15.2	79.3	0.5	5.8	14.4	78.8	0.5	6.0	14.8

Note:LEP, Limited English Proficient has been changed to ELL, English Language Learners

"GRAD=Graduated; GED=Received GED; CONT=Continued HS; DROP=Dropped out"

The graph below compares various post-secondary indicators, including graduation rates and college-readiness assessments. HISD's dropout rate has fallen and the district's graduation rate has risen, as reflected in the graph below. The graph also reports the percent of 9-12 grade students who complete a college admissions assessment, either the SAT or ACT. HISD chose to test all eligible students grade 9-12 in 2016.

Graduation and Dropout Rates and College Admissions Tested

Scholastic Assessment Test (SAT I) and American College Test (ACT)

The SAT I and ACT exams are given as entrance examinations to college-bound students. The following table illustrates four key statistics regarding these exams for the latest periods available.

SAT I / ACT	2011	2012	2013	2014	2015	2016
% Tested	75.2	99.8	97.2	98.9	97.3	95.2
% at Criterion	20.0	14.8	14.5	13.8	14.2	14.1
SAT Mean	915	1253	1252	1247	1251	1251
ACT Mean	19.6	20.5	20.5	20.5	20.8	21.1

Source: TEA, Texas Academic Performance Report (TAPR), 2016-2017

Source: TEA, Texas Academic Performance Report (TAPR), 2016-2017 (Class of 2016)
 Note: Criterion for SAT=1,000; Criteria for ACT=24.00 or above

Comparison with the state average and other similar districts reveals HISD students performed comparatively well to the state average. In 2017-2018 school year, HISD educated over 18.1 percent economically disadvantage children and 13.1 percent Bilingual/ESL pupils more than the state average. HISD student achievement is commendable. A chart reflecting these trends can be found below.

Source: TEA, Texas Academic Performance Report(TAPR) 2014-2015, 2015-2016, 2016-2017

National Comparisons

Comparison of HISD's performance with that of other large urban/suburban school districts across the country is difficult because each district assesses students differently and maintain different curriculum standards. The following chart represents the best information available from the nation's largest school districts. The test score information does not include the percentage of the total student population assessed, so the results must be interpreted with caution. For more detailed information, please visit www.houstonisd.org (under Departments tab/Research and Accountability).

College Entrance Examination Performance, Average Score or Percent Meeting College-Readiness Benchmarks: Class of 2017 (or most recent, see notes)

Houston Economic/Demographic Conditions

Houston Independent School District

The Houston Independent School District exists in the heart of the Houston metropolitan area, and the fortunes and trends of the entire area directly impact the day-to-day operations and the future of the district. This section represents a view of the recent growth and diversification of the Houston economy, including selected statistics and key indicators, and projections for the future.

Overview and Economic Indicators

Houston, the fourth largest and most diverse city in the United States, is a dynamic world-class city. Houston is a leader in numerous industries, including manufacturing, healthcare services, engineering, and oil and gas industry. In addition to great businesses, the city has professional sports, first-class museums and theatres, and an exquisite restaurant scene. Houston is known for oil, NASA, urban sprawl and business friendly policies. Forbes' recently named the Bayou City the 4th Coolest City in America and ranked Houston number 15 on the list of best big cities with business and career growth jobs as the city hummed through the recession and enjoyed job growth while ranking Number 1 for manufacturing job opportunities.

Houston has produced a globally competitive, vibrant, free market urban economy and abundant opportunities for a diverse citizenry. While the source of the city's wealth was once based on natural resources, its future rests on human resources. Currently, Houston's business economy is diversifying into various industries, such as technology, medical research, health care, international trade, professional services and higher education.

The **Houston Galveston Area Council (H-GAC)** consists of Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery and Waller Counties. With an estimated population of more than 6.3 million in 2014, Houston is ranked the fourth most populous city in the United States, and the largest in the South and Southwest regions of the U.S. The downtown area has a 7-mile, 20-foot wide underground air-conditioned tunnel system that connects 81 buildings, including hotels and a shopping mall. Houston is home to the Texas Medical Center, the largest medical care and research facilities in the world. The Port of Houston is the second largest port in the United States in total tonnage and first in foreign waterborne commerce. Houston is also the headquarters not only for U.S. manned space flights but also major oil corporations and many other large high-tech firms.

Since the mid-1990's, downtown Houston has transformed into a vibrant culmination of businesses, entertainment and residences. Downtown is the newest 'place to be' with a light rail, outdoor dining, and street performances. It is a real hub where the light rail takes riders from downtown to NRG Stadium/Park, with everything from outdoor dining to laser light shows and street performers. Downtown attractions include Bayou Place, a 150,000 square-foot retail and entertainment center; Minute Maid Park, a state-of-the art ballpark with a retractable roof; the Toyota Center, home to the Houston Rockets, Houston Comets, and the Houston Aeros; the BBVA Compass Stadium, home to the Houston Dynamo Soccer Team; the George R. Brown Convention Center, used for annual business meetings, conferences, exhibits, and shows; Market Square Historic District with its historical buildings/markers, restaurants/clubs, and residential units; the Theater District (contains in total 12,948 seats for live performances and 1,480 movie seats); Chase Tower, one of the world's tallest buildings; and the Downtown Aquarium, a \$38 million restaurant and entertainment facility.

Other Houston attractions include the annual Houston Livestock Show and Rodeo, the largest in the world; the NRG Stadium, home to the Houston Texans football team; Space Center Houston; Schlitterbahn Waterpark, SplashTown Waterpark; the Houston Zoo; the Museum District; Gulf Greyhound Park; Sam Houston Race Park; San Jacinto Battleground State Historical Park; Discovery Green; Kemah Boardwalk; and Moody Gardens.

Economic Highlights

The Houston economy is projected to grow slightly over the next five years as seen below in the economic indicator forecast.

Selected Economic Indicator Five-Year Forecast

	2019	2020	2021	2022	2023
Household Population	7,081,405	7,222,074	7,361,590	7,502,872	7,642,769
% Growth	2.03	1.99	1.93	1.92	1.86
Households	2,561,163	2,615,424	2,669,909	2,725,290	2,781,222
% Growth	2.16	2.12	2.08	2.07	2.05
Jobs	3,342,308	3,396,631	3,451,816	3,506,415	3,558,380
% Growth	1.73	1.63	1.62	1.58	1.48

Source: H-GAC Regional Growth Forecasting, July, 2018

Services- The service still dominates local job growth, primarily due to the shift of jobs to the business services. Some of the largest employers in the service sector is the Texas Medical Center, the largest in the nation, providing access to over 42 member institutions including 13 hospitals, 2 specialized patient facilities, 2 medical schools, 4 nursing schools, and over 65,000 employees. HISD is also a major employer, with more than 25,000 full-time and part-time employees, including over 12,000 teachers. With more than 60 colleges, universities, and other degree-granting institutions, the total enrollment for Houston's colleges and universities, alone, is over 300,000 students.

Trade—Houston's trade is largely tied to the Port of Houston and the airport system. The Port of Houston is ranked first in the U.S. in foreign tonnage, first in import tonnage, third in export tonnage, second in total tonnage, and sixth in world-wide total tonnage. Houston's top trading partners in terms of combined imports and exports by tonnage are Mexico, Venezuela, Algeria, Saudi Arabia, Germany, Brazil, and the United Kingdom. Houston's airport system is the fourth largest in the United States and the sixth largest in the world.

Cultural—Houston has much to offer in the areas of art, music, dance, museums, and theatre. The city has several venues to showcase various talents, exhibits and shows such as the Wortham Theater Center, Jesse H. Jones Hall for the Arts, The Alley Theatre, Hobby Center for the Performing Arts, Verizon Wireless Theater, Miller Outdoor Theatre, Cynthia Woods Mitchell Pavilion, Houston Symphony, Houston Grand Opera, Alley Theatre, Theater Under the Stars, Ensemble Theatre, Stages Repertory Theatre, Main Street Theater and the Houston Ballet. Some of the numerous Museums include Art Car Museum, Health Museum the Museum of Fine Arts-Houston, The Contemporary Arts Museum-Houston, The Houston Museum of Natural Science, San Jacinto Museum of History, Buffalo Soldiers National Museum, Children's Museum of Houston, Holocaust Museum-Houston, and Houston Fire Museum.

Transportation—The Houston Airport System ("HAS") is comprised of three airports: Bush Intercontinental Airport, Hobby Airport and Ellington Airport. HAS supports over 234,000 regional jobs and contributes over \$27 billion to the local economy. In 2014, HAS served over 51.9 million passengers. The Metropolitan Transit Authority of Harris County ("METRO") operates the bus and light rail system. For the period between July 2013 to June 2014, METRO had a weekday average of 277,379 ridership.

Outdoor Recreation— The Houston Metropolitan Statistical Areas (MSA) has the largest county park in the U.S. —George Bush Park; the region also contains the third-largest municipal park in the U.S. —Cullen Park. Hermann Park, near Houston's city center, is among the top dozen most visited parks in the U.S. according to the Trust for Public Land's (TPL) 2014 Report. The City of Houston contains 52,154 acres of parks, according to TPL. Parks represent 14.1 percent of the cities land area —well above the median of 7.1 percent for cities of similar density.

Demographics

Houston is a multilingual and multicultural city, home to thousands of refugees, immigrants and expatriate workers from all over the world. Communities of foreign-born residents — Arab, Chinese, Dutch, English, Ethiopian, Indian, Japanese, Mexican, Nigerian, Pakistani, Polish, Russian, Salvadoran, and Vietnamese, to name a few, have established a rich blend of educational, cultural, social, and business support organizations.

Population by Race		
	Houston	Texas
White	52.9%	70.4%
African American	21.0%	11.8%
Asian	6.5%	3.8%
American Indian and Alaska Native	0.7%	0.7%
Native Hawaiian and Other Pacific Islander	0.1%	0.1%
Other	15.5%	10.5%
Identified by two or more races	3.3%	2.7%

Source: U.S. Bureau of the Census, Census 2010

Since the 2010 census Houston has added an estimated 570,000 residents, the largest gain of any U.S. metro area over that period. The U.S. Bureau of the Census estimated Houston's population at 6.3 million in mid 2014. Based on recent trends, Houston's population will likely exceed 6.6 million by mid 2015.

A number of factors have spurred Houston's recent population growth:

- A booming economy: The region's gross domestic product-the value of all goods and services produced in the region has grown by more than \$114.8 billions since 2010.
- Corporate moves: More than 1,500 companies have announced significant relocation or expansions in Houston over the past five years.
- Robust job growth: From April 2010 through July 2014 (the periods covered by the population estimates), Houston has added 375,000 jobs.

The following tables illustrate Houston's population by ethnicity, growth and estimates of future growth. The last table compares HISD's enrollment to Houston's H-GAC population.

Source: H-GAC Regional Growth Forecasting, July 2017
 Note: H-GAC = Houston-Galveston Area Council

Source: H-GAC Regional Growth Forecasting, July 2018; Enrollment actual and projections from the HISD Office of Budgeting and Financial Planning
 Note: H-GAC= Houston-Galveston Area Council

Note: Base year = 2014. The figures represent the relative increase since 2014. Population numbers from 2015-2022 are forecast by H-GAC, Regional Forecasting

Per Unit Allocation (PUA) Calculation

Houston Independent School District

Each year schools receive a basic allocation based on the student population makeup. This includes those students that are at-risk, economically disadvantaged, bilingual, gifted and talented, special education, and career and technology. Each student that falls within any of these student populations receives additional weights. After the weights are summed for each campus the resulting value is referred to as the Total Refined Units (TRU). The Total Refined Units are then multiplied by the Per Unit Allocation. This is the school's basic allocation for operations. While schools do receive other funding, both General Fund and Special Revenue Funds are the school's main sources of funding.

The following table shows how the PUA was calculated for the 2016-2017, 2017-2018, and 2018-2019 school years. On the following page is an example of a campus Resource Allocation Formula with explanations for each student population.

2016-2017	
Salary & Other Adjustments	
High School	\$112
Middle School	\$112
Elementary School	\$112
Budget Cut to PUA	-\$179
Athletic Stipends for secondary schools	
Per Pupil Allocation 2016-2017	
High School (exclude High School Allotment in SR1)	\$3,522
Middle School	\$3,558
Elementary School	\$3,522

2017-2018	
Salary & Other Adjustments	
High School	\$0
Middle School	\$0
Elementary School	\$0
Budget Cut to PUA	\$0
Athletic Stipends for secondary schools	\$0
Per Pupil Allocation 2017-2018	
High School (exclude High School Allotment)	\$3,522
Middle School	\$3,558
Elementary School	\$3,522

2018-2019	
Salary & Other Adjustments	
High School	\$107
Middle School	\$107
Elementary School	\$107
Budget Cut to PUA	-\$197
Athletic Stipends for secondary schools	\$0
Per Pupil Allocation 2018-2019	
High School (exclude High School Allotment)	\$3,432
Middle School	\$3,468
Elementary School	\$3,432

The Weighted Pupil Formula: The Money Follows the Students

This is total enrollment from the 2017-2018 school year, based on the Fall PEIMS submission. It is a "peak" amount and varies slightly from the total enrollment figure in the student data section due to a difference in the time frame in which the "enrollment snapshot" was taken. This number is adjusted by the school for the 2018-2019 School Year.

The average daily attendance is based on the latest available data from the Fall PEIMS submission and reflects the percentage of students in average daily attendance through that date as recorded in the HISD student information system.

Preliminary Resource Allocation (PUA Funding Formula)

Weighted Enrollment / ADA	Enrollment	ADA %	ADA Grade Level Units
EE-PK	59 x	97.50 %	x 0.5 57.53 = 57.53
K-12	486 x		x 1 473.85 = 473.85
Total Enrollment	545		531.38 531.38

Attendance and enrollment counts are weighted to reflect the relative importance of each component. These weights will undergo continuous examination and revision if necessary to ensure that allocations accurately reflect the actual costs of the various instructional programs.

Special Population Units

	Weight
Free / Reduced Lunch (Count)	493 x .075 = 30.00
At-Risk (Count)	400 x .075 = 30.00
Special Education (Count)	41 x .15 = 6.15
Gifted and Talented (Count)	96 x .12 = 11.52
Career and Technology (FTE's)	0.00 x .35 = 0.00
ELL (Count)	354 x .1 = 35.40
Homeless (Count)	28 x .05 = 1.40
Refugee (Count)	0 x .05 = 0.00

The number of weighted pupils after the weight is applied to the eligible students from each special population category. These weights will undergo continuous examination and revision, if necessary, to ensure that allocations accurately reflect the level of resources needed to appropriately educate the children in these programs.

Total Special Population Units

121.45

Total Refined Units

653.00

Basic Allocation	\$2,241,096
Capital Allocation	\$5,450
Small School Subsidy	\$0
Other Adjustment	\$0
Total RAS*	\$2,246,546
Prior Year Total RAS (for comparison)	\$2,287,706

The total base enrollment and attendance numbers are combined with the additional weighted pupil amounts to derive the total refined units. The total refined units are multiplied by the per pupil allocation amount leaving the total refined allocation for each campus.

Each campus receives a Capital Allocation of \$10.00 multiplied by the total enrollment of the campus.

This number reflects the preliminary allocation over which campus administrators have direct authority and responsibility. This amount is used to fund the basic operations of the school, from supplies to salaries. As updated and more accurate student enrollment, attendance, and special program participation figures become available, allocations will be adjusted accordingly. The preliminary budget is available to schools in March/April before the beginning of the next school year; the final review and adjustment of the allocations will occur in November/December of the current school year. This does not include other General Fund allocations that the campus receives, which is shown in more detail on each campus page.

The small school subsidy allocation is provided to campuses based off a different threshold for elementary, middle, and high schools.

The FY2018 Final Allocation is shown for each campus for comparison to the current year allocation.

* Data not published for 5 or fewer students.

The District does not fund these schools and programs in the same way that it funds other HISD schools. Since they use their own employees and resources to provide services, neither personnel information nor detailed budgets are provided in this document. The total contracted amount for each school or program is accounted for in the instructional contracted services line in the budget. This amount is based on the anticipated number of students served daily by the contracting entity.

Department goal and objective assessments

The status of department instructional and non-instructional goals and objectives and the schools they support are continually assessed through the HISD Research and Accountability department, as well as several outside organizations to include the Houston Education Research Consortium (HERC), the Council of Great City Schools.

- The HISD Research and Accountability department provides instructional and non-instructional program evaluations to district policy makers and the public to facilitate the decision making process; provides expertise, information, modeling, and analysis for the district's performance pay models and appraisal systems to determine teacher, school leader, and campus effectiveness with regard to student performance; and serves as a data resource for local, state and federal entities. Research and Accountability also develops, publishes and distributes descriptive and statistical information analyzing student data; produces district accountability reports and summaries for the district; and responds to special requests for performance data. These reports are available to the public at <http://www.houstonisd.org/Page/69988>.
- The Houston Education Research Consortium (HERC) is a research partnership between Rice University and HISD. HERC brings together education researchers and HISD's education decision makers to work to ensure that all children have access to a high quality education, regardless of their economic status or where they live. HERC's research agenda is informed by the needs of HISD's education leaders, and the decisions of these leaders are informed by the research produced by HERC and its affiliates. HISD in collaboration with HERC has produced a database containing thousands of variables which track the demographics, socioeconomic background, school zone, attendance, magnet enrollment, and academic performance of all HISD students who were enrolled at any point since 2006-07. This data, program evaluations, and research proposals are available at <http://kinder.rice.edu/herc>.
- The Council of Great City Schools' key performance indicator (KPI) performance management system is used by HISD to help inform and guide the improvement of non-instructional operations, policy decision making, and resource allocation. This includes the areas of budget and financial management, grants management, procurement, human resources, information technology, transportation, nutritional services, maintenance and operations, risk management, compensation, procurement, and safety and security. The 2017 annual report for FY2016-2017 is available at <http://cgcs.schoolwires.net/Page/24>.

Administrative Services

Chief Technology Information Officer

Mission

The Administrative Services department's mission is to support the Houston Independent School District's educational initiatives, communications and essential business processes by providing value-added services for the creation, production, dissemination, management, and preservation of documents with a superior level of professionalism, quality and efficiency.

Description

Administrative Services team is responsible for printing services (Internal Service Fund) and the records management team (General Fund) which is responsible for properly maintaining and disposing of District records in accordance with the policies of the Texas State Library and Archives Commission(TSLAC).

Services include:

- Preservation of records and information.
- Consulting with campuses and departments on the management of student and staff records.
- Assistance in developing a records-management program.

Objectives

1. To provide high-quality printed products and services to increase student achievement, improve public support/confidence and communicate a shared direction between HISD personnel, parents, students and the public.
2. Leverage cost savings for mailing and distribution by using automated technology and combining school and department mail for postage volume discount pricing.
3. Manage and maintain a district-wide records management program facilitating the effective and efficient handling of documents and records regardless of media type from creation or receipt to final disposition.

Advanced Academics

Chief Academic Officer

Mission

The mission of the Gifted and Talented Department is to provide effective practices and supports to all campuses focused on differentiated instruction that is appropriate, engaging and enhances learning for all Gifted and Talented students.

Description

The Gifted and Talented department has the primary responsibility of overseeing, supporting and monitoring the programs for K-12 identified Gifted and Talented students (G/T) district-wide. The department is focused on working with all campuses to meet the needs of their G/T identified students by ensuring that research-based instructional practices are inherent in planning and in classroom practice. The department works with campuses to leverage the power of their teachers to provide all students access to high-quality programming in the four core areas: English Language arts, Math, Science and Social Studies.

Objectives

- 1.Ensure students in grades K-12 have an opportunity to participate in Gifted and Talented testing.
- 2.Provide rigorous, differentiated curriculum for identified Gifted and Talented students in the four foundation areas: English Language Arts, Math, Science and Social Studies.
- 3.Provide support administrators, teachers, parents and the Area Schools Office through day-to-day program operations in the Gifted and Talented Department.
- 4.Provide and monitor appropriate services which ensures that a learning continuum is delivered to reinforce the strengths, needs, and interests of G/T students through the Gifted Education Plan (GEP) and showcase learning at the annual District Wide Gifted and Talented Expo.

After School Programs

Chief Academic Officer

Mission

The mission of the Afterschool Programs department is that every student in HISD will have access to a high-quality, innovative and enriching after school program in a safe and inclusive environment.

Description

The Afterschool Programs department is responsible for providing tools and resources necessary to strengthen, support and sustain high-quality after school programming for all participating HISD students. Afterschool Programs are offered to HISD students in PK3 through high school and are composed of academic supports such as tutorials and homework assistance and enrichment activities such as character building, dance, fine arts, physical fitness, robotics, sports, strategic gaming and STREAM.

The work of the department supports a focus on after school best practices through high quality professional development, technical assistance and general program supports.

Objectives

1. Implement and provide oversight for all grant funded after school programs to include After School Centers on Education (ACE), Afterschool Strategic Investment (ASI), City Connections, Mayor's After School Achievement Program (ASAP), and Partnership Project to assure compliance with district and funder requirements for continued funding.
2. Provide oversight and support for all third-party after school programs funded by schools, parent co-pays or parent organizations to assure quality programming for students and compliance with district and Texas Department of Family and Protective Services (TDFPS) guidelines.
3. Implement and provide support and oversight for after school programs provided through partnership initiatives through Strategic Partnerships Department to assure fidelity of program and expectations of partners and district are met.

Area Offices

Chief Academic Officer

Mission

The mission of the Schools Area Offices is to provide effective leadership and service to each school and its community, ensuring that all students are prepared and ready to succeed in school, college, and the career of their choice. This is done by establishing clear expectations for high quality teaching and learning, putting emphasis on educating the whole child, working to ensure that each school has effective teachers and leadership, and supporting strong parent and community engagement. The Schools Area Offices are responsible for supporting principals, communicating with parents and community members, and locating resources that improve the quality of education for all students.

Description

The School Area Offices leadership team oversees the work of 275 schools within HISD. The offices are located at the Hattie Mae White Educational Support Center. The School Area Offices include Area Superintendents, Directors, School Support Officers (SSO), and Senior Executive Administrative Assistants. The School Area Office teams are field-based supporting the practices at schools for assigned areas East, North, Northwest, South, West and Achieve 180.

Objectives

- 1.Improve student achievement in all schools by providing equal access to rigorous instruction and academic programs to all HISD students.
- 2.Recrut and retain highly qualified and effective principals in every school.
- 3.Develop rigorous instructional standards and support by aligning curriculum based on student performance data and ensure the implementation of district-wide curriculum, instruction, and assessment system that supports teacher development and promotes student learning.
- 4.Improve schools through data-driven accountability.
- 5.Create a culture of trust through action.
- 6.Improve accountability and management efficiency in schools.
- 7.Provide a safe, secure, and healthy learning environment for all students.
- 8.Engage parents, community members, and businesses in partnerships that support student achievement and engagement

Benefits Administration

Chief Financial Officer

Mission

The mission of the Benefits Department is to provide a customer service oriented department to assist employees throughout their employment in HISD to achieve optimum health and productivity.

Description

The Benefits Department is responsible for administration and support of the district's benefit programs. Most functions of the Benefits Department are funded through either the Health Insurance Fund (IS1) or the Workers' Compensation Fund (IS2). The functions remaining within the General Fund for Benefits is the management of Unemployment Compensation Claims, and general administration services for the department.

Objectives

1. Manage the district's self-insured employee medical plans.
2. Manage the HISD's voluntary employee benefit programs.
3. Manage the district's employee wellness programs.
4. Oversee HISD's two on-site employee health care clinics.
5. Administer HISD's self-insured workers' compensation claims.
6. Administer HISD's self-insured unemployment compensation claims.
7. Administer employee 457 and 403b retirement savings plans.
8. Provide retirement counselling and support.

Board Services

Chief of Staff

Mission

The mission of Board Services is to provide administrative and operational support to a nine-member publically elected Board of Education as they govern the Houston Independent School District and endeavor to serve the public trust.

Description

The Office of Board Services plays an important role in advancing the district's mission by supporting and enhancing the work of board members. The department is responsible for providing operational support to board members by ensuring their compliance with state and local laws; coordinating regular and special board meetings; maintaining official records and board meeting minutes; researching and responding to parent and constituent concerns or referring them to appropriate administrative departments; providing speech-writing and all matters of written business communication services; facilitating trustee elections and all related matters such as candidate and office holder reports; arranging board member travel and accommodations for conferences; and facilitating hearings before the Board of Education.

Objectives

1. Ensure that all support services provided to Board trustees are aligned to Board policy and reasonable expectations of the Board of Education and Superintendent of Schools so that there is consistency and equity in service levels.
2. Provide enhanced coordination and communication protocols between Board trustees and the administration to produce timely, consistent, and comprehensive outreach and response activities to HISD taxpayers, students, parents, and communities.

Budgeting & Financial Planning

Chief Financial Officer

Mission

The mission of the department of Budgeting and Financial Planning is to provide guidance in the effective and efficient use of the district's resources for the benefit of student achievement. Our goal is to maximize the available resources and equitable distribution of the funds to achieve the district's strategic goals.

Description

The department of Budgeting and Financial Planning is responsible for developing and managing the district's annual budget. This involves coordinating the receipt, input, compilation, review and approval of recommendations from schools, departments, and other programs in legally required funds. The department provides assistance to staff with planning, developing, monitoring and amending their respective budget(s) and staffing. The department prepares financial and performance reports and regularly provides training and support for the district's financial and personnel information systems to Budget Managers, Shared Decision-Making committees and other interested parties. Short and long range financial projections and student enrollment forecasts are prepared and updated on a regular basis, and information concerning current and prior years' budgets and staffing are prepared as needed. The department will continue to refine the school budget allocation process to reflect a decentralized, weighted pupil methodology.

Objectives

1. To continuously improve the efficiency and reduce the complexity of the budget process.
2. To serve as an engine for organizational development and growth.
3. To improve internal and external communication about the district's financial and operational performance.
4. To help facilitate the development of an aligned organization (Alignment refers to consistency of plans, processes, actions, information, and decisions among all regional units).
5. To provide maximum opportunity for staff growth and development.

Business Logistics & Purchasing

Chief Financial Officer

Mission

The mission of Business Logistics and Purchasing Services is to become the premier K-12 purchasing, risk management, supplier diversity and logistics platforms in the nation. We will achieve this by following standard operating procedures that are fair, transparent and inclusive to all internal and external customers.

Description

The Business Logistics and Purchasing Services department is responsible for the management and oversight of purchasing services, risk management, supplier diversity and logistics, which includes textbook operations, distribution and furniture services. Each of these departments focus substantially on the services offered to all stakeholders of the Houston Independent School District; services which include business guidance and mentoring, safety and health, insurance guidance and compliance, M/WBE review and compliance, material supply, distribution and storage, parts and supplies, textbook compliance and distribution and equipment handling. These offices service the needs of the campuses, departments community and businesses that support our goal to strengthen the social and economic foundation of Houston by assuring its youth the highest quality education available anywhere.

Objectives

1. Effectively and efficiently purchase all goods and services for the district in a cost effective and timely manner, consistent with board policy and state bid laws.
2. Exercise the district service standards of safe, courteous, responsive and efficient with internal and external customers.
3. Establish working relationships with M/WBE organizations and related Chambers to proactively increase the number of minority/women owned business that have the capacity to provide goods and services to the district.
4. Ensure the timely distribution of all warehouse stocked supplies and delivery of various types of materials, forms, and interoffice mail to facilitate our campuses and departments success.
5. Increase student achievement by properly requisitioning and delivering textbooks, in accordance with the rules and regulations of the State of Texas, and the policies and procedures of the district.

Career Readiness

Chief Strategy & Innovations Officer

Mission

The Career Readiness department supports career awareness, career exploration, and Career and Technical Education programs within HISD that ensure students graduate with the academic, technical, and employability skills to be career ready.

Description

The Career Readiness department is responsible for providing direction and leadership to campuses through its oversight of campus Career and Technical Education (CTE) pathways, Academic and Career Counseling, JROTC programs, and district registrars. Department staff provide technical assistance to campuses regarding their CTE programming; ensure that students are completing Personal Graduation Plans (PGPs) and are on track to successfully graduate; and provide professional development to CTE teachers and staff. The department also provides support with curriculum, industry certifications/licensures as well as fosters partnerships with the business community.

Objectives

1. Provide programming in all district high schools that leads directly to industry certification, associate degrees, postsecondary apprenticeship/on-the-job training, or immediate occupational opportunity.
2. Deliver relevant career interest and exploration programming that engages students in the world of work beyond high school.
3. Support the implementation of Personal Graduation Plans (PGPs) as the campus-level.
4. Increase the number of students successfully meeting the TEA College, Career, and Military Readiness Standards.
5. Engage local employers from key industrial sectors and postsecondary institutions as partners in developing Houston's talent pipeline.

Chief Academic Office

Chief Academic Officer

Mission

The mission of Academic Services is to provide quality, equitable, innovative and rigorous student learning opportunities through a comprehensive and aligned 21st century curriculum, personalized services to support students with diverse needs, and a systemic program of assessment and evaluation that informs the work of the district to prepare all students to their fullest potential.

Description

Academic Services provides responsive, personalized programs, resources, and services to meet the diverse needs of all students – academically and social-emotional - and improve effectiveness of teachers and school leaders so students in every classroom learn, every day. Academics designs professional development aligned to the district's core initiatives coupled with use of research-based practices and student data. The Academic division designs rigorous and aligned curriculum, implements responsive student programming aligned to the global graduate profile, coaches and supports teacher and school leader development, and designs enriching student and parent engagement programming to meet the mission. The offices and departments reporting to the Chief Academic Officer include Advanced Academics, College and Career Readiness, Elementary Curriculum & Development, Secondary Curriculum & Development, Special Populations (including Special Education, Interventions Office, Multilingual Services), Leadership and Teacher Development, Research and Accountability, Student Assessment, Federal & State Compliance, School Choice, and Student Support Services.

Objectives

1. Provide services and resources to support the percentage of students reading and writing at or above grade level for grade 3 through English II to increase by three percentage points annually between spring 2017 and spring 2020.
2. Provide services and resources to support the percentage of graduates meeting the Global Graduate standards to increase three percentage points annually per year up to 85% by 2022.
3. Provide services and resources, among students who exhibit below satisfactory performance on state assessments, to support the percentage of at least one year of academic growth to increase three percentage points annually in reading and in math between spring 2017 and spring 2020.
4. Provide services and resources to support the decrease by 5 percentage points annually of overall student discipline referrals will between spring 2017 and spring 2020. Provide support focus on Social Emotional Learning and wrap-around services.
5. Develop capacity and practice in utilizing multiple data resources for data-driven instruction.
6. Improve student achievement by providing skill development and resources for implementation of research-based effective literacy strategies.

Chief Audit Executive

Chief Audit Executive

Mission

The mission of the Office of Internal Audit is to examine and evaluate the adequacy and effectiveness of internal accounting and operating controls, including, but not limited to, the District's means of safeguarding assets; effectively and efficiently utilizing resources; and accomplishing established goals and objectives. The Office of Internal Audit shall conduct independent and objective audits, investigations, inspections, and offer consulting engagements within the District to add value to the District's strategic goals and objectives. The Chief Audit Executive shall be responsible for managing, directing, and controlling all activities to promote the integrity, economy, effectiveness, and efficiency of operations, and assist senior management in the prevention and detection of fraud, waste, and abuse.

Description

The Office of Internal Audit (OIA) executes its plans for assurance (audit) services, investigations, and consulting engagements. The OIA reports on the effectiveness of the District's governance, risk management, and internal control environment in accordance with the Internal Audit Activity Charter approved by the President of the Board of Education. The OIA is authorized to have full, free, and unrestricted access to any and all of HISD's records, physical properties, and personnel pertinent to carrying out any type of activity mentioned above. The OIA complies with standards promulgated by applicable professional organizations, primarily the Institute of Internal Auditors; Government Accountability Office; American Institute of Certified Public Accountants; and the Association of Certified Fraud Examiners.

Objectives

1. Assess the District's exposure to risk that can prevent or minimize the ability to achieve their stated strategic objectives.
2. Evaluate the reliability and integrity of information and the means used to identify, measure, classify, and report such information.
3. Evaluate the systems and internal controls established to ensure compliance with policies, plans, procedures, laws, and regulations which could have a significant impact on the District.
4. Evaluate the means of safeguarding assets and, as appropriate, verifying the existence of such assets. Evaluate the effectiveness and efficiency with which resources are employed.
5. Evaluate operations or programs to ascertain whether results are consistent with established objectives and goals, and whether the operations or programs are being carried out as planned.
6. Perform audits, investigations, and consulting engagements to evaluate the system of internal controls and/or for the detection of fraud, waste and abuse.
7. Evaluate governance processes and provide consulting and advisory services related to governance, risk management and controls as appropriate.
8. Report periodically on the OIA's activity, purpose, authority, responsibility, and performance relative to its plan.
9. Report significant risk exposures and control issues, including fraud risks and governance issues.
10. Evaluate specific operations at the request of the Board or management, as appropriate.

Chief Development Officer

Chief Development Officer

Mission

The mission of the Development team is to mobilize the local community in support of innovative priorities in HISD to improve outcomes for all students. We do this by raising targeted funds, identifying, developing, and engaging external business and community partners. We also strive to communicate with external stakeholders in a way that underscores the importance of public education and engenders confidence in HISD.

Description

The Development Team is comprised of 5 branches, the HISD Foundation, strategic partnerships, special events, Volunteers in Public Schools (VIPS), and the information center. The department is responsible for targeted fundraising, cultivating and securing, corporate and community partnerships, executing districtwide special events, managing the district's VIPS program, and maintaining relationships with Houston's faith-based leaders and organizations.

Objectives

- 1.Raise funds in support of strategic initiatives of the district to increase student achievement.
- 2.Identify corporate and community resources, attract and retain corporate and community involvement in support of HISD programs and initiatives.
- 3.Serve as the community's Initial point of contact for districtwide partnerships and volunteer recruitment efforts.
- 4.Maintain effectiveness of key strategic partnerships department initiatives in support of student achievement.

Chief Financial Officer

Mission

The mission of the Office of the Chief Financial Officer is to provide financial leadership and manage resources in support of the district's purpose to assure that Houston ISD students receive the highest-quality elementary and secondary education available.

Description

The Office of the Chief Financial Officer is responsible for the management of the finance functions of the district, including:

1. Budgeting and distribution of district resources.
2. Maximizing revenues.
3. Maintaining public trust and confidence by providing complete, timely, and accurate financial information.
4. Safeguarding assets by maintaining and continuously improving internal controls.
5. Implementation and consistent application of sound management practices and controls.
6. Understanding and responding to internal and external customers' business needs.

The Office includes the following departments: Controller's Office, Budgeting and Financial Planning, Benefits, Medicaid Finance Consulting Services, Business Logistics & Purchasing and Tax and Financial Management Attorney.

Objectives

1. Continue improving services to schools and departments through review of current operational processes and utilization of new systems to improve service delivery and increase accuracy of information.
2. Establish clear objectives for each of the administrative staff and, with them, set up performance measures for all departments.
3. Benchmark operational departments against those in industry and other large urban districts.
4. Educate community on Texas school finance and how it affects Houston ISD.

Chief Government Relations & Strategy

Chief Govnmnt'l Relations Officer

Mission

The mission of the Government Relations Department is to work with HISD personnel and federal, state, and local officials on funding and legislative actions that ultimately improve student achievement.

Description

The Government Relations Department serves as a liaison between Houston ISD and all three levels of government. The department keeps elected officials engaged by proactively sharing information about district activities, initiatives, board agenda items, or any news issues happening at the schools or districtwide. This level of engagement helps foster a partnership that, in turn, helps advance the district's legislative and funding needs at all levels of government.

Objectives

1. Develop legislative strategies, bill analyses, policy briefs, rule action analysis and other correspondence that supports student achievement, by working with HISD's Board of Education, superintendent, direct reports, school leaders and other key district personnel.
2. Monitor and analyze policy/funding issues being considered by the U.S. Congress, Texas Legislature, county/city government and state and federal regulatory agencies that impact HISD.
3. Build, maintain and support the district's relationships and activities with federal, state, and local governmental entities and key partners to support the district's public policy and regulatory positions.

Chief Human Resource

Chief Human Resource Officer

Mission

The mission of the Human Resources Office is to advance world-class human resource practices and build a culture of growth across the district to attract, develop, and retain top talent in education.

Description

The Human Resources Department provides strategic leadership to a full-service Human Resources division including Talent Acquisition, Recruitment and Selection, On-Boarding and Organizational Development, Compensation and Salary Administration, Human Capital Accountability, Employee Relations, Human Capital Management, and Leadership Development and School Leadership.

Objectives

1. Effectively and efficiently purchase all goods and services requisitioned by the district in a cost effective and timely manner, consistent with Board Policy and State bid law.
2. Conduct and manage bid projects for all necessary spend categories greater than \$50,000 per annum, consistent with Board policy and State bid law.
3. Through continuous process improvement enhance the Strategic Sourcing Process to manage our procurement events that also brings best value to the taxpayers of HISD.
4. Generate enough cost savings annually to offset the cost to maintain the Procurement Department by the district.
5. Increase the number of certified public procurement professionals on staff from 10 percent to 30 percent.
6. Decrease the number of traditional purchase orders by 20 percent.
7. Continue to develop and implement an improved purchasing database and prepare reports that enable the scheduling of renewals, track bids and contracts.
8. Complete the review, update and publish our procurement procedures manual to include the new procedures from SAP One Source and ISO 9001.
9. Evaluate terms & conditions for bid specifications to support performance standards and enhance quality of goods and services in compliance with all Federal Regulations, State Statutes, and Board Policies.

Chief of Staff

Chief of Staff

Mission

The mission of the Office of the Chief of Staff is to facilitate coordination and communication among the direct reporting staff of the Superintendent of Schools so that HISD's purpose and goals are effectively and efficiently achieved in an environment of collegiality and cooperation.

Description

The Office of the Chief of Staff facilitates coordination and communication among the direct reports of the Superintendent of Schools so that the Superintendent is informed about current issues and areas of need within the district and that the Superintendent's instructions to staff are carried out. The Chief of Staff facilitates staff communication with members of the HISD Board of Education and participates in the development of districtwide communications and activities that inform the public and promote positive community relations. Additionally, the Chief of Staff monitors the implementation of major initiatives and ensures alignment with the district's purpose and goals. Board Services, HISD Foundation, and Strategic Partnerships report directly to the Chief of Staff.

Objectives

1. Better coordination and communication among the Superintendent's direct reports to ensure major initiatives are implemented with fidelity and aligned with the district's purpose and goals.
2. Better coordination and communication among direct reporting staff of the Superintendent of Schools to ensure Board of Education members are informed of the district's progress.

Chief Operating Officer

Chief Operating Officer

Mission

The mission of the Chief Operating Officer is to improve the lives and build the trust of students, parents, employees, and other stakeholders by providing the students of HISD with exceptional service, which includes: safe transportation to and from school, nutritious meals to enable learning, conducive facilities, and an overall assurance that students are physically in a safe school environment.

Description

The Chief Operating Officer acts on behalf of the Superintendent by providing broad business-oriented perspectives in developing strategies and policies that enhance the effectiveness and efficiency of non-instructional service delivery to schools and departments. The position provides leadership, oversight, coordination, assistance, coaching, and support to the heads of Nutrition Services, Facilities Services and Fleet Operations, Construction Services, Transportation, Business Operations Strategic Engagement and Outreach, and Business Operations Support. The COO also provides oversight to the HISD Police department.

Objectives

1. Provide more effective and efficient business operations support to campuses and departments.
2. Implement a Facilities-to-Standard Program that works to improve the overall condition of the district's facility portfolio.
3. Ensure a high level of coordination and support among the business operations departments.
4. Support principals by providing subject matter expertise from staff and vendors who can assist with decision-making regarding business-related matters, and help provide principals with an understanding of how such matters affect their school.
5. Review performance metrics and establish improvement objectives with the business operations departments.
6. Provide assistance to ensure business operations departments are in compliance with local, state, and federal regulations.
7. Develop the Business Operations Emergency Preparedness Plan.

College Readiness

Chief Strategy & Innovations Officer

Mission

The College Readiness Department is committed to developing a college-going culture within HISD by increasing college awareness, college readiness and college access for all HISD students. The department strives to support students, families, school counselors and staff, by providing resources and partnering with institutions that support the college admissions and matriculation process.

Description

The College Readiness department manages the campus-based College and Career Readiness advisors who provide direct support to students in grades 9-12 that increase successful postsecondary enrollment. Department staff assists schools in developing a college-ready culture through the LAUNCH initiative, which engages students in the goal-setting and college exploration process in the freshman and sophomore years and which provides high-quality comprehensive advising to juniors and seniors; and which supports the matriculation process to ensure the foundation for successful college completion. The department is also responsible for district-wide strategies that increase financial aid (FAFSA) completion and increase the number of scholarship dollars awarded to HISD students.

Objectives

1. Build a district-level college-going culture and increase awareness of post-secondary opportunities for students at all grade levels.
2. Increase the number of students who are deemed College, Career and Military Ready as determined by TEA Accountability Standards.
3. Provide support and professional development for campus-based staff, including counselors and school administrators who support college access at their respective campuses.
4. Work directly with students to increase the number of HISD Graduates who enroll in appropriately matched post-secondary institutions, and increase the number who successfully matriculate into those institutions.
5. Support the technological platforms and data tracking systems that increase college enrollment across the district.

Compensation

Chief Human Resource Officer

Mission

The mission of the Compensation department is to ensure competitive, equitable, and legally compliant compensation programs for all HISD employees through provision of strategic and tactical planning activities, advisory services, economic monitoring and assessment, and appropriate classification and compensation of positions within the district.

Description

The Compensation department is responsible for developing and implementing the district's compensation policies and pay structures covering all district employees. The department also ensures compliance with the Fair Labor Standards Act, Texas Education Code, and other regulators/regulations of base and incentive compensation programs. The department is also charged with responsibility for job classification, employee contract designation and administration, maintenance of employee service information required under TRS and by the TEA, and the authorization/auditing of stipends and other incentive/subsidy payments.

Objectives

1. Contribute to the development and evolution of compensation-related programs that promote the Total rewards philosophy and approach.
2. Ensure competitive, equitable, and legally compliant compensation practices through ongoing operations of the department.
3. Administer the contract process as directed by Texas Education Code or district policy.

Construction & Facility Services

Chief Operating Officer

Mission

The mission of the Chief Operating Officer is to improve the lives and build the trust of students, parents, employees, and other stakeholders by providing the students of HISD with exceptional service, which includes: safe transportation to and from school, nutritious meals to enable learning, conducive facilities, and an overall assurance that students are physically in a safe school environment.

Description

The Chief Operating Officer acts on behalf of the Superintendent by providing broad business-oriented perspectives in developing strategies and policies that enhance the effectiveness and efficiency of non-instructional service delivery to schools and departments. The position provides leadership, oversight, coordination, assistance, coaching, and support to the heads of Nutrition Services, Facilities Services, Construction Services, Business Logistics & Transportation, and Business Operations Support.

Objectives

1. Provide more effective and efficient business operations support to campuses and departments.
2. Implement a Facilities-to-Standard Program that works to improve the overall condition of the district's facility portfolio.
3. Ensure a high level of coordination and support among the business operations departments.
4. Support principals by providing subject matter expertise from staff and vendors who can assist with decision-making regarding business-related matters, and help provide principals with an understanding of how such matters affect their school.
5. Review performance metrics and establish improvement objectives with the business operations departments.
6. Provide assistance to ensure business operation departments are in compliance with local, state, and federal regulations.
7. Develop the Business Operations Emergency Preparedness Plan.

Controller's Office

Chief Financial Officer

Mission

The Controller's Office supports the mission of the District by implementing best business practices to provide financial services and systems that enable stakeholders to have timely access to accurate financial data while maintaining proper internal controls and safeguarding of District assets.

Description

The Controller's Office is primarily responsible for the smooth operation of the District's financial functions by maintaining open communication and good working relationships with schools, departments, vendors, elected officers, and the community. The Controller's Office coordinates the financial activities of the District including Accounts Payable, Payroll, Accounting for Bond Funds, Enterprise Funds, and Internal Service Funds, General Accounting, Fixed Assets, Treasury, and Governance, Risk and Compliance. The staff of the Controller's Office consistently seeks to ensure that taxpayers' funds are spent and accounted for prudently, lawfully and efficiently.

Objectives

- 1.Prepare the Comprehensive Annual Financial Report (CAFR) in accordance with generally accepted accounting principles and reporting standards promulgated by the Governmental Accounting Standards Board (GASB).
- 2.Collect and record the District's revenues, primarily, tax collections, state foundation payments, school lunch receipts, and grant revenue.
- 3.Properly record expenditures to budgetary accounts of the District.
- 4.Invest available funds in accordance with the District's Cash Management and Investment Policy.
- 5.Provide timely financial information and reports to stakeholders, including state and federal agencies.
- 6.Pay employees timely and correctly.
- 7.Process vendor payments timely and accurately.
- 8.Make better business decisions by predicting how risk impacts the District.
- 9.Provide appropriate documentation and guidance in the Financial Procedures Manual to insure internal controls are in place.

Drop Out

Chief Academic Officer

Mission

The mission of the Drop Out Prevention department is to provide district-wide leadership with regards to increasing student attendance and decreasing the student dropout rate and to support all aspects of school reform.

Description

The department of Drop Out Prevention is responsible for the planning, implementation, and coordination of dropout prevention and recovery strategies in HISD. In addition, the department oversees compulsory attendance compliance and truancy prevention activities in cooperation with attendance personnel throughout the district. The Drop Out Prevention Office collaborates with HISD departments and community partners to help keep all students in school.

Objectives

1. Ensure all students met district's attendance expectation to provide them the opportunity to grow academically above expected levels.
2. Students will have sufficient attendance allowing them to meet local, state and national achievement requirements.
3. Increase four year graduation rate at all campuses.
4. Provide campus trainings on attendance and dropout preventions.
5. Enhance staff training and work assignments as it relates to supporting campuses and each other.
6. Continue to increase campus awareness of discipline issues, transitions and resources.
7. Efficiently and effectively advise on the use of funds for dropout prevention, dropout recovery and truancy reduction programs.
8. Improve public awareness of truancy and dropout issues.
9. Foster a positive environment by increasing people's knowledge of schools of choice and the application process.
10. Increase community partnership to help support student needs to help them stay in school.

Dyslexia

Chief Academic Officer

Mission

The mission of the Houston Independent School District Dyslexia Program is to provide specialized instruction to the individual needs of students with dyslexia and academic support to prepare them to be successful, lifetime readers and writers.

Description

Houston ISD has partnered with the Neuhaus Education Center to ensure that each Dyslexia Interventionist is trained with the Basic Language Skills Program to serve all students identified with Dyslexia.

Objectives

1. Service small groups of 6-8 students identified as Dyslexic. Services will be provided Monday – Thursday/60 minutes per group.
2. Support campuses with the screening, identification, and direct services.
3. Progress monitor students with Dyslexia via the Dyslexia Progress Monitoring Tool located in EasyIEP.
4. Collaborate with campus-based Intervention Assistance Teams, 504 Committees and Annual Review and Dismissal Committees (ARD).
5. Implement Basic Language Skills curriculum and continue to engage in learning through partnership with Neuhaus.

Elementary Curriculum

Chief Academic Officer

Mission

The mission of the Elementary Curriculum and Development department is to provide a viable and rigorous curriculum aligned to state and national standards coupled with high quality professional development leading to the growth and success of all students. The elementary curriculum is supported by research-based best practices for instruction and formative assessment to advance student learning in a college and career ready culture.

Description

The Elementary Curriculum and Development department is responsible for providing high-quality rigorous Pre-K through 5 curriculum, instruction, and formative assessment programs that facilitate relevant and engaging educational experiences resulting in college and career readiness for all HISD students.

Elementary Curriculum and Development is composed of foundation and enrichment curriculum areas including Early Childhood, Reading/Language Arts, Dual Language, Mathematics, Science, Social Studies, Fine Arts, Library Services, and Health and Physical Education. The work of the department supports a focus on elementary school best practices through high quality professional development and Teacher Development Specialist job-embedded instructional coaching and support.

Objectives

1. Provide and implement a district-wide PK-5 curriculum, instruction and formative assessment system that builds teacher capacity and promotes student achievement.
2. Implement the HISD Literacy By 3 balanced reading framework to support small group guided reading instruction and independent reading using leveled text on every elementary campus.
3. Provide high quality PK-5 teacher content and pedagogy training for approximately 6,000 teachers on 9 early childhood campuses, 11 K-8 campuses, and 159 elementary campuses.
4. Provide job-embedded Teacher Development Specialist coaching support on elementary high-needs campuses to build teacher capacity, increase student achievement, and eliminate the number of Elementary Improvement Required campuses.
5. Provide Pre-kindergarten curriculum, training, and support for 700 teachers across 164 campuses to facilitate high-quality teaching environments, parent and family engagement, and kindergarten readiness.
6. Provide PK-3 Dual Language curriculum planning guides along with Dual Language Teacher Development Specialist job-embedded coaching on 55 elementary campuses to facilitate biliteracy and biculturalism.
7. Collaborate with Elementary School Area Offices, Multilingual, Special Education, Student Assessment, and Research departments to align support and resources.
8. Facilitate and implement the Read Houston Read volunteer program with approximately 1,000 face to face and virtual volunteers to foster advocacy and first grade reading success.
9. Facilitate and implement the Houston Real Men Read mentoring program.

Employee Relations

Chief Human Resource Officer

Mission

The mission of the Employee Relations Department is to make the Houston Independent School District an employer of choice that retains the most highly qualified personnel by providing assistance in addressing the disciplinary, grievance and investigative processes in a manner that exemplifies the pursuit of high standards while adhering to the principles of Common Decency and Fundamental Fairness for all parties.

Description

The primary responsibility of the Employee Relations Department is to support district employees in understanding and implementing district policies and procedures regarding personnel issues. The department also serves as a resource to guide district administrators through the disciplinary, grievance and investigative processes in a manner that adheres to district policy, State and Federal law. The purpose of employee relations is to improve employer-employee relations while mitigating litigation by fostering and maintaining professional standards of conduct.

Objectives

1. Provide training on the grievance and investigation processes.
2. Provide technical assistance and assist administrators in preparing disciplinary recommendations for legal review and scrutiny.
3. Process HR paperwork for termination of contract employees including compiling recommendation, drafting notice letters and ensuring that appropriate paperwork is prepared for the personnel file.
4. Provide oversight and assistance for the district's grievance processes.
5. Facilitate and/or conduct EEO, EEOC and Workplace Bullying investigations.

Equity and Outreach

Chief Strategy & Innovations Officer

Mission

The Department of Equity and Outreach works to ensure that all HISD students, families and communities have equitable access to the knowledge, skills, and resources necessary to support academic excellence.

Description

The Equity and Outreach Department is responsible for overseeing the Family and Community Engagement (FACE) department; the district Parent / Community Liaisons and the Ascending to Men (ATM) Initiative. Department staff support the Family Friendly School Initiative, the framework that helps schools maintain a positive relationship with families and their community; is responsible for staffing the Parent and Community Assistance Center, and support the academic achievement of males of color within HISD through the Ascending to Men Initiative. The Equity and Outreach department also manages the Community Advisory Committee, which supports the district by providing diverse perspectives and recommendations to HISD administration regarding district issues and initiatives.

Objectives

- 1.Strengthen the relationships between the district, schools, families and the communities that support them by providing professional development, training and campus assistance for staff members, parents and community partners.
- 2.Engage directly with HISD families through a variety of events, including Parent University and various campus-based events.
- 3.Improve the academic performance of males of color within HISD through mentorship, academic support and community partnerships.
- 4.Engage with community stakeholders who represent the diversity of perspectives within HISD to provide feedback and support to the district's strategic priorities and initiatives.

Ethics & Compliance Office

Chief Audit Executive

Mission

The mission of the Ethics and Compliance Office is to assist the Superintendent, Board of Education, and executive management in pursuing the District's "Declaration of Beliefs and Visions", "Strategic Direction", goals and core values while maintaining ethical standards and compliance with laws, regulations, and District policies.

Description

The Ethics & Compliance Office is responsible for the design and overall effectiveness of the system of internal controls and compliance framework that supports ethical compliance with laws, regulations, policies and procedures. The Ethics & Compliance Office supervises the E-Rate Compliance Program, Children's Internet Protection Act and the District's AlertLine. Using the compliance framework and working in conjunction with HISD staff, the Ethics & Compliance Office monitors compliance, assists in developing training, and actively works to promote an ethical atmosphere. Additionally, the Ethics & Compliance Office serves as a resource for the entire HISD community by answering questions related to Ethics & Compliance to ensure questions do not become concerns.

Objectives

1. Promote an organizational culture that encourages ethical conduct and a commitment to compliance with federal and state laws and regulations, district standards and other applicable requirements.
2. Develop and maintain clear lines of communication with key personnel throughout HISD, by promoting an open-door policy fostering confidentiality and trustworthiness.
3. In conjunction with the Office of Internal Audit, work in collaboration with senior management to coordinate compliance risk assessments and implement compliance check lists to mitigate risks.
4. Provide training opportunities to increase education in ethics and compliance.
5. Serve as a resource to answer ethical and compliance questions before they become issues.

Facilities Services Custodial Operations

Chief Operating Officer

Mission

The mission of Facilities Services Custodial Operations Department is to provide "Service Excellence" in our service delivery, while developing trust through the support we provide for all stakeholders.

Description

The Facilities Services and Fleet Operations Department consist of all personnel required to maintain a clean and safe school environment as well as those. The focus of this department is on the cleanliness of all classrooms, restrooms, hallways, offices, work areas, floor care, transportable buildings and grounds. Custodians and Plant Operators are housed at school locations but are funded and managed centrally by the Facilities Services Custodial Operations department. Additionally, the department is responsible for the upkeep and management of the district's fleet vehicles. This work force is assisted using contracted cleaning services as needed. This department works to provide an environment conducive to teaching and learning.

Objectives

1. Ensure that all facilities are maintained at a standard that is conducive for student learning and achievement.
2. Maintain clean and safe facilities through efficient and effective management practices, possible with trained, skilled, responsive employees.
3. Focus on each service request, agree on a course of responsive action, resolve the problem, and follow up to ensure customer satisfaction.
4. Provide excellent customer support built on courteous, caring, and responsive service.
5. Guarantee that every service offered is reflection of Facilities Services as seen through the lens of our customers: students, employees, and community patrons.
6. Provide coordination, planning, scheduling, and completion of each request for service and respond in a way that is timely, efficient, and courteous.
7. Consistently provide exceptional service, supporting campus-based administration, ensuring that we exceed expectations in providing care for our facilities.

Federal & State Compliance

Chief Academic Officer

Mission

The mission of the Federal and State Compliance (FSC) department is to provide administrative guidance and support to HISD schools and departments on PEIMS data collection and reporting. The department is responsible for ensuring PEIMS data is both accurate and precise in order to maximize PEIMS related funding.

Description

The Federal & State Compliance Department (FSC) intra-departmental teams are Data Monitoring, Data Quality, Data Reporting, and Attendance Monitoring. The FSC department facilitates implementation of PEIMS related requirements from the Texas Education Agency, HISD board of education, through the development of published guidelines, targeted professional development, and collaboration with PEIMS contributors across the district. Primary support services for schools and departments include: assistance resolving PEIMS coding issues, advice related to policy compliance, and training PEIMS data personnel.

Objectives

1. To meet or exceed state established thresholds for data quality per the Texas Education Agency (TEA).
2. To maintain the student membership database.
4. To respond to requests for PEIMS data within established timelines.
5. To implement solutions that improve accuracy and precision of PEIMS data.

Financial Management Attorney

Chief Financial Officer

Mission

The mission of the Tax and Financial Management Attorney is to

1. Provide efficient and experienced specialized legal and administrative services in the areas of finance, business and operations, real estate, construction and technology in order to promote financial and management efficiency and effectiveness.
2. Provide specialized contractual services for construction and bond program, technology operations, real estate, and business and finance operations to protect the district in its contractual and business relationships.
3. Manage and provide for the collection of all school district ad valorem property taxes to support district operations.
4. Assist in providing legislative liaison services for the district.

Description

The Tax and Financial Management Attorney reports to the Chief Financial Officer and performs multiple legal and administrative functions in areas of finance, business, real estate, construction, bond program, facilities, technology, legislation and contracts. The Tax and Financial Management Attorney's department oversees and manages all tax collections for the district and serves as the liaison for district interaction and relations with the Harris County Tax Office, the Harris County Appraisal District, and the district delinquent tax collection attorneys. The Tax and Financial Management also provides assistance related to legislative oversight in finance and tax related areas.

Objectives

1. To provide legal and administrative services in the areas of finance, business, construction, bond program, real estate and technology in a timely manner to facilitate efficiency in school district operations.
2. To negotiate, draft and review finance, business, construction, real estate and technology contracts on a timely basis to maximize operational efficiency of the district.
3. To provide for collection of property taxes on an efficient and timely basis in order to maximize revenues for the district.

General Counsel

General Counsel

Mission

The mission of the Office of Legal Services is to provide quality legal services to the school district in a thorough and cost-effective manner, protecting the rights and responsibilities of students, parents, employees, and the Board of Education in accordance with established local, state, and federal laws and regulations in order to support the provision of educational services to all students.

Description

The Office of Legal Services serves as in-house legal counsel to the Superintendent of Schools and staff on various issues in school law relating to local, state, and federal laws, rules, and regulations as well as district policy and administrative procedures. The Office of Legal Services represents the school district in judicial and administrative proceedings, monitors legal services contracted from outside law firms and oversees the Public Information Office, Policy Administration and HISD Board Services. The Office assists in employee and student grievance and disciplinary matters including employee termination and nonrenewal hearings, student grievances, public grievances and expulsion hearings and hearings conducted under the Individuals with Disabilities Education Act. The Office also coordinates the school district's responses to investigations by the Texas Education Agency, the U.S. Department of Education Office of Civil Rights, and other state and federal agencies. The Office conducts professional development training for staff and provides legal assistance in reviewing contracts for goods and services and in drafting and revision of district policies and procedures.

Objectives

1. Focus on preventive legal counseling and staff training.
2. Assist in developing and implementing policies which promote a positive learning and working environment.
3. Effectively represent the district in administrative and judicial proceedings
4. Monitor and evaluate services provided by outside counsel.

Health & Medical Services

Chief Academic Officer

Mission

The mission of Health and Medical Services is to support Houston Independent School District schools to build capacity to provide a safe and healthy environment in which students have the optimum opportunity to benefit from education and achieve their maximum potential.

Description

The Health and Medical Services Department provides support schools and community in health and health-related activities that impact student health, safety and achievement.

Regulatory state health requirements and standards of practice provide the foundation for the development of policy and practices designed to directly support campuses with compliance with state and federal guidelines and training of school nurses to deliver an effective school health program. A key role of the department is to establish and maintain community partnerships that support access to health services that reduce absenteeism. Services include communicable disease control, surveillance and reporting, immunization access, mandated health screening compliance, reporting and resources, medical evaluations for employees and special education referrals, chronic disease management and resources.

Health Services supports the hiring and training of qualified nurses by interviewing, vetting and recruiting potential nurse candidates and implementation of a comprehensive orientation that prepares the experienced professional RN to transition into the practice of school nursing.

The department serves a valuable role in creating a safe environment through the provision of CPR/AED/First Aid training and management and oversight of AEDs.

Supports are well established to assist campuses in meeting the health care needs of students with chronic illnesses and complex health care needs through the management of external partnerships, grants and contracts that provide appropriate health interventions.

Objectives

1. Guide and support the development of an effective school health program.
2. Support access to services that reduce health-related barriers.
3. Support appropriate interventions for students with high-risk medical needs or chronic medical conditions that jeopardize their health and put them at risk for failure and dropout.

HR Business Partners

Chief Human Resource Officer

Mission

The mission of the HR Business Partners is to move our organization to its next level of achievement by cultivating human capital and providing support and guidance to our employees to excel in their work. To deliver the upmost customer service experience to all clients. To have a highly effective teacher in every classroom and a highly-effective leader on every school campus, our employees will increase student achievement.

Description

The HR Business Partner team is responsible for coordinating the functions of recruitment, staffing, placement and other personnel activities of all district employees. Specific responsibilities include following Board-approved policies and procedures and working with a variety of central office departments to support schools and departments. HRBPs provide services to stakeholders with expertise in employment law and district policy. As a team, we actively support and collaborate with Talent Acquisition and other departments in HR to support principals and hiring managers to staff vacancies. HRBPs consistently monitor and track progress from vacancies to staffed positions through data from Applitrack and OneSource for schools and departments to maintain zero vacancies.

Objectives

1. Customer service is a priority in the performance of our work to all stakeholders.
2. To create positive hiring experiences for candidates and hiring managers.
3. To support staff recruitment efforts for placement of highly, effective teachers, leadership, and other district positions.
4. To provide all stakeholders with timely and accurate information.
5. To proactively collaborate with principals, Schools Office and department managers to process applicants to fill specific vacancy needs.
6. To consistently monitor and track team progress through the use of data-driven metrics.

HR Business Services

Chief Human Resource Officer

Mission

Our mission is to focus on operational excellence in the delivery of all HR services for Houston Independent School District employees. We provide support and guidance to employees and departments on human capital programs, systems and data that assist the district in making key decisions on how to lead, support and direct the workforce in supporting student growth and development

Description

Human Resource Business Services exists to administer HR services that support employees throughout their career within HISD. Serving as the first line of contact for all employees with regard to leave administration, payroll & time inquires and corrections, certification, personnel record management, criminal background review, visa management, associate teacher staffing and discipline, as well as the Early Notification Program. In addition, to employee service offerings we also serve as the operational arm of HR overseeing human capital data systems and vendor management (i.e. AppliTrack, SAP, ADP Leave Management, AESOP (substitute management system), data governance & quality, reporting and data analysis) for all administrative areas related to human capital data, employee records retention and compliance standards.

Objectives

1. Focused on reviewing processes, systems, policies and communications in order to improve our overall customer service and responsiveness ratings as a Human Resources department.
2. Provide timely, accurate and relevant information to employees in order to deliver on the commitment to customer satisfaction.
3. Continuously improve HR operations to align with industry best practices.
4. To ensure 100% of our campuses have certified and highly qualified certified personnel on every campus.

Information Technology – Applications

Chief Technology Information Officer

Mission

The mission of the Information Technology (IT) department is to transform education through technology by proactively serving as business partners and enabling positive returns on investments in student achievement and management excellence.

Description

Through our mission the Student Management Systems, Finance and Operations Systems, HCM Systems and Custom Applications departments are responsible for supporting the front-line applications that the schools and business areas need to perform their duties. They encompass the Student Information System, Finance, Payroll, Warehouse, Operations, Fleet, Nutrition, Appraisal, Learning, TADS, and Find-a-School systems. These systems are responsible for:

- Gathering the data for the district to support our funding from student data (attendance and enrollment)
- General operations (shopping carts, purchase orders, building maintenance, etc.)

Every day these systems automate processes, collect data, integrate with third-party systems, and enable student learning.

Objectives

- 1.Build a secure, scalable and reliable technology environment
- 2.Successfully deploy IT services and provide sustainable support models
- 3.Build and lead responsive and efficient processes
- 4.Create customer service excellence through IT talent development, accountability and management framework
- 5.Build and maintain data privacy, accuracy, quality and security
- 6.Build and maintain trusted internal and external partnerships

Information Technology – Customer Service

Chief Technology Information Officer

Mission

The mission of the Information Technology (IT) department is to transform education through technology by proactively serving as business partners and enabling positive returns on investments in student achievement and management excellence.

Description

The goal of Customer Services is to provide exceptional support for the users of Houston ISD technology systems, applications and equipment. Providing this high level of support for HISD teachers, administrators and staff, enables the division to have a positive impact on the quality education that HISD provides its students. The teams in IT Customer Service are IT Service Desk, Technology Training, Application Support and Access and Administrative Services, which includes Print Services, Records Management and Fleet Copiers.

Through our mission, HISD IT will become the best K-12 technology department in the nation by focusing on the following goals:

- Provide a leadership role in HISD's Digital Transformation
- Provide a robust IT infrastructure
- Provide adequate supports for Achieve 180

Objectives

1. Build a secure, scalable and reliable technology environment
2. Successfully deploy IT services and provide sustainable support models
3. Build and lead responsive and efficient processes
4. Create customer service excellence through IT talent development, accountability and management framework
5. Build and maintain data privacy, accuracy, quality and security

Information Technology – Data

Chief Technology Information Officer

Mission

The mission of the Information Technology (IT) department is to transform education through technology by proactively serving as business partners and enabling positive returns on investments in student achievement and management excellence.

Description

Through our mission, the HISD IT Data and Business Solutions, Data Warehouse, Information Analysis and Utilization, IT CFS and SAP/BI teams will utilize best industry practices to share student data as well as integrate student data into instructional applications. As shared resources across multiple departments, the priorities for which data is developed are set by their respective governance committees. These departments are responsible for:

- Providing the tools and technology to the HISD enterprise to access, analyze, and utilize their data
- Integration of student data into the instructional applications utilized by our students on a daily basis
- Vetting Data Sharing Agreements with vendors to ensure policy and regulation compliance
- A4E Dashboards, OneSource BI Analytics Dashboards, and PowerUser query environment

Objectives

1. Build a secure, scalable and reliable technology environment
2. Successfully deploy IT services and provide sustainable support models
3. Build and lead responsive and efficient processes
4. Create customer service excellence through IT talent development, accountability and management framework
5. Build and maintain data privacy, accuracy, quality and security

Information Technology – Education Technology

Chief Technology Information Officer

Mission

The mission of the Information Technology (IT) department is to transform education through technology by proactively serving as business partners and enabling positive returns on investments in student achievement and management excellence.

Description

Through our mission, the HISD Ed Tech team will provide district and campus staff with quality support, resources and services with emphasis on student learning and performance utilizing digital technologies.

- Identify, evaluate and implement innovative technologies (hardware and software) for all content areas and for all teaching and learning environments
- Provide students, teachers and administrators with opportunities to learn and demonstrate the appropriate and safe use of technologies
- Provide teachers and administrators with training and customer service resources that provide engaging and personalized instruction for students
- Provide teachers and administrators with digital resources and technology integration resources to evaluate the effectiveness and appropriateness of utilizing technology

Information Technology – Operations

Chief Technology Information Officer

Mission

The mission of the Information Technology (IT) department is to transform education through technology by proactively serving as business partners and enabling positive returns on investments in student achievement and management excellence.

Description

The IT Infrastructure, Engineering & Operations department is responsible for the hardware and software systems that enable IT applications and services to be delivered effectively, reliably and securely to students and staff districtwide and beyond the district. This includes identity management services, server compute, cloud services, storage, wireless and wired campus network, Internet, telecommunication, and end user device services. These departments are responsible for:

- Providing the foundation for integrating hardware, software, and services to connect 200,000+ end computing devices, printers, servers, storage, wireless access points, and telephony
- Designing network architecture, audio / video conferencing, network engineering, and telecommunications services to support video, voice and data traffic to meet the network growth demands for academic instruction and business environments
- Providing enterprise systems support, database management, storage and server virtualization, email provision and single sign on services
- Providing security services to protect the internal and external perimeter network from security threats
- Providing 24/7 support and maintaining the day to day Network Operations Center and Datacenter facilities
- Deploying and managing PowerUp program devices in all High Schools

Objectives

1. Build a secure, scalable and reliable technology environment
2. Successfully deploy IT services and provide sustainable support models
3. Build and lead responsive and efficient processes
4. Create customer service excellence through IT talent development, accountability and management framework

Innovation & Postsecondary

Chief Strategy & Innovations Officer

Mission

The HISD Innovation and Postsecondary Programming is committed to fostering innovative programming that supports student success in specialty Postsecondary Programs; specifically, Advanced Placement (AP), International Baccalaureate (IB) and Dual Credit.

Description

The Innovation and Postsecondary Programming Department is responsible for managing the implementation of the district's Advanced Placement (AP), International Baccalaureate (IB) and Dual-Credit programs, as well as specialty programs including EMERGE and Project Explore. The department also manages projects such as the district's Summer Internship Program and HISD Confucius Institute. Department staff provide professional development and logistical support to campus teachers and administrators to increase program effectiveness and ensure that each campus has a strategy for meeting their student's postsecondary needs.

Objectives

- 1.Support campuses in developing a comprehensive post-secondary programming strategy that ensures the most optimal outcomes for AP, IB and Dual-Credit Programs
- 2.Increase the number of students who are deemed College, Career and Military Ready as determined by TEA Accountability Standards.
- 3.Provide professional development and technical assistance for campus-based staff who work with AP, IB and Dual Credit; and support the IB Candidacy / Authorization process for new IB campuses.
- 4.Increase college awareness, preparation and successful PGP completion at district middle schools to increase the number of students prepared to meet college ready indicators at the high school level.

Interventions

Chief Academic Officer

Mission

The mission of the Interventions Office is to provide leadership, service, and support that empowers campus teams to establish and maintain a comprehensive system for providing students with academic interventions and supports at intensifying levels according to students' individual strengths and areas for growth; thereby ensuring each student graduates from high school ready to succeed in college and career of their choice.

Description

The Interventions Office provides support to campus Interventions Assistance Teams (IAT) in ensuring that they have a systematic way to identify, support, and monitor students' progress towards academic goals.
Functions overseen by the Interventions Office include: summer school, dyslexia services, and support for school-based Interventions Assistance Teams (IAT) and Response to Intervention (RtI). The department includes Interventions Assistance Teams (IAT) district liaisons who support campuses with implementation of IAT process, practices, data reviews and resources.

Objectives

1. Effectively oversee and improve outcomes for programs designed to serve as academic interventions: Summer School, After-School Programming, tutoring, dyslexia support, IAT/RtI, etc.
2. Define critical issues and identify resources for academic interventions that support goals for student academic growth, including identification of effective specialized interventions and a clearinghouse of evidence-based options for campus IAT consideration.
3. Build and support collaborative campus teams (IATs) to provide a comprehensive system of academic interventions and supports at intensifying levels according to student strengths and areas for growth; collaborate with the Social and Emotional Learning Department to ensure campus support/training is aligned and IATs address academics and behavior with regard to interventions and supports.
4. Leverage district and community resources to improve the implementation of interventions across the district in order to accelerate closure of student achievement gaps.
5. Establish an effective early-warning and progress monitoring system in collaboration with district and campus leaders.
6. Review and analyze data to make district and campus-level recommendations on most effective interventions, including piloting programs and disseminating findings for informed choice use by all district campuses.
7. Coordinate work of district departments, including Curriculum and Development, Multilingual, and Special Education and Gifted and Talented to ensure HISD provides students identified with dyslexia the services they require.

Library Services

Chief Academic Officer

Mission

The mission of the HISD Department of Library Services is to provide integrated services enabling schools to enhance the quality of instruction and instructional delivery to improve student achievement, information literacy, and facilitate a 21st century learning environment, enabling all HISD students to be good digital citizens.

Description

Library Services is responsible for providing technical and professional support to school libraries, librarians and communities. This support includes, but is not limited to, staff development for librarians and library staff, technology, collection analysis, appraisals, student services, clinical supervision, online resources, student reading programs, and support for new school openings, school renovations, and closing schools. Additionally Library Services supports the advancement of technology on all campuses, and promotes the learning commons/libraries evolution into a 21st century information rich environment. The support and instruction of librarians as information professionals is one of our goals and missions, as is the support of all HISD departments in providing safe, information rich digital resources for all HISD stakeholders.

Objectives

1. Library Services will support campus librarians in taking an active leadership role in campus staff development, especially in the areas of technology and blended learning and provide a minimum of five professional development activities during the school year.
2. Library Services will support campus librarians as they promote literacy through a variety of reading motivation activities and increase participation by 10% in at least two of the following district supported activities: Name That Book, Real Men Read, Gulf Coast Reads, Jumpstart Read for the Record and Summer Reading. This includes collaboration with the Houston Public Library.
3. Library Services will provide district wide training for online resources, emerging technologies, Web 2.0, automation software support, and print resources to HISD librarians, administrators, teachers, and other staff. This includes support of the HUB and Power Up programs through training and communication.

Media Relations Chief Communications

Mission

The mission of the Media Relations department is to boost the perception of the district by finding positive stories to share on our multimedia platforms. The mission is also to enhance the public image of the district by collaborating with news media to place positive news stories on air, online and in print. We respond quickly, accurately, and transparently to media inquiries to make sure the district's perspective is represented fairly in news stories.

Description

The Media Relations department is responsible for telling HISD's story and promoting the positive work happening every day in schools and classrooms district-wide. The department consists of the Press Secretary, a Senior Media Relations Specialist and a Media Relations Specialist. The Press Secretary serves as chief spokesperson for the district and works with schools, departments and district leadership to find and pitch positive news stories. The Media Relations team also produces and reviews responses to media inquiries, gathers information from HISD officials, and assists with the coordination of press conferences.

Objectives

- 1.Support the district's major initiatives through strategic communications to increase student achievement and parent involvement.
- 2.Enhance external communications to foster transparency and increase community engagement, building public confidence.
- 3.Build a culture of trust in which every employee receives information and support through targeted internal communications.

Momentum Academy

Chief Academic Officer

Mission

The mission of On-Time Grad Academy is to support high schools in collaboration with the City of Houston with increasing the graduation rate, decreasing dropout rate, and expand wrap around supports to students that have been identified as at-risk of dropping out.

Description

On-Time Grad Academy is an HISD- City of Houston partnership program that provides educational opportunities to at-risk high school students in the City's multiservice center sites. On-Time Grad Academy provides original credit and credit recovery options for students in a non-traditional setting. The city supports this program by providing space free of charge and wrap-around assistance, e.g., diabetes prevention, food assistance, etc. The program also offers credit recovery options during winter break, spring break, and summer opportunities.

Objectives

1. To define critical issues, identify resource requirements, and set bold, measurable and achievable goals focused on student academic growth.
2. To increase resources and services provided directly to schools.
3. To collaborate with various functional areas to manage events and projects that have district wide impact.

Multilingual Program

Chief Academic Officer

Mission

The mission of the Multilingual Programs Department is to institutionalize comprehensive and proactive programming and compliance systems to ensure that all district EL, Immigrant, Refugee, and Migrant students will successfully graduate from high school and be prepared to attend the post-secondary option of their choice. Students continuously participating in a Dual Language program will successfully graduate from high school bilingual and biliterate.

Description

The Multilingual Programs Department offers administrative leadership and support for Bilingual and English as a Second Language Education and alternative language programs for all identified students who have limited proficiency in English or are eligible EL, Immigrant, migrant, refugee, and newcomer. It also provides Dual Language campuses with necessary guidance to create and uphold an instructional climate supportive of biliteracy and bilingualism.

Objectives

1. Provide programming and compliance support for the implementation of Bilingual and English as a Second Language programs
2. Provide compliance and instructional support for the implementation of the Migrant Education Program
3. Provide campus guidance and classroom instructional support for the provision of appropriate refugee and newcomer services.
4. Monitor district compliance with state and federal regulations that impact services for English Learners, immigrant, migrant, refugee, and newcomer students.
5. Support campuses with the implementation of Dual Language programming.

Multimedia Services

Chief Communications

Mission

The mission of the Multimedia Services department is to provide current information to all stakeholders and students about district initiatives and available programs that benefit all children. The department serves as a tool to keep all parents and the community informed, to tell the stories of our schools and students, and to make the district's resources more accessible to our stakeholders.

Description

The Multimedia Services department is made up of Senior Producers, Directors and two Photographers, with unique skills and knowledge in television and film production, and journalism. The Multimedia team handles an important demand for communications to parents and students -- especially during critical times and crises.

The team also oversees the 24-hour cable access channel and produces regular content as new district initiatives are promoted and events are shared. Education-focused stories are documented and broadcasted, both through the district's website and through social media channels. The team also supports Hattie Mae White Educational Support Center in all audio/video needs and provides technical support for Board of Education meetings, press conferences, and special events.

Objectives

- 1.Support the district's major initiatives through strategic communications to increase student achievement and parent involvement.
- 2.Enhance external communications to foster transparency and increase community engagement, building public confidence.
- 3.Build a culture of trust in which every employee receives information and support through targeted internal communications.

Office of Communication

Chief Communications

Mission

The overall mission of the Office of Communications focuses on several areas:

- Enhance transparent, two-way internal and external district-wide communication with staff, parents, students and stakeholders through multiple channels of communications to strengthen public confidence in the school district.
- Foster stakeholder access to district resources and information in multiple languages.
- Develop strategic communication plans about pertinent districtwide initiatives and leverage community and media partnerships to enhance student achievement and public support.

Description

The Communications Office is responsible for management and oversight of several areas:

- Media Relations
- Communications & Publications
- Internal Communications
- Multimedia & Telecommunications
- District Website
- Social Media
- Translations/ Interpretations
- Benefit Communications

Under the leadership of the Chief Communications Officer, the department divisions are responsible for working collaboratively and with other departments to develop successful relationships that enhance student achievement, build support for district programs and initiatives, and boost public and employee confidence in the district's goals and mission. The approach is cohesive and strategic, making use of all district communication channels including HISD TV, media outlets, district's website, news blog, text-messaging, email blasts, social media, robocalls, e-newsletters, academic memos, press conferences, and translation and interpretation in different languages, including English, Spanish, Arabic and Vietnamese.

Objectives

1. Support the district's major initiatives through strategic communications to increase student achievement and parent involvement.
2. Enhance external communications to foster transparency and increase community engagement, building public confidence.
3. Build a culture of trust in which every employee receives information and support through targeted internal communications.

Police Department

Chief Operating Officer

Mission

The Mission of the HISD Police Department is to ensure an environment where students feel safe to learn, employees feel safe to work and the community is confident in the safety of the district.

Description

A core value of the Houston Independent School District is "safety above all else". The HISD Police Department mission is consistent with District Core Values and Goals. The Police Department is responsible for providing a learning and working environment where students, teachers, administrators and visitors feel safe. The Police Department is responsible for staffing a police officer at secondary campuses in the district along with providing mobile patrol units and investigative resources to protect all district interests. All personnel assigned to the HISD Police Department have dedicated themselves to provide mentorship and twenty-four hour a day safety and security of students, educators, support staff, visitors and property of the school district

Objectives

1. The principal goal of the Houston ISD Police Department is to preserve the constitutional rights of the faculty, staff and students by being committed to preserving peace, order and safety within the schools and community.
2. Maintaining the one on one relationship between the police and the community, satisfaction is closely related to citizen's expectations;
3. The critical nature of community satisfaction is the primary goal of the Police Department; and
4. The Houston ISD Police Department will continue to serve the community with respect, fairness and compassion.

Psychological Services

Chief Academic Officer

Mission

The mission of the Psychological Services Department is to improve the academic and social functioning and to reduce the absenteeism and dropout rates of identified students in at-risk situations. This is accomplished by providing direct individual and group crisis intervention services to students, and consultation services to administrators, teachers, and parents in order to reduce the barriers to learning and help the students remain in school. The services provide support for district priorities to Increase Student Achievement, Improve Human Capital, Provide a Safe Environment, Improve Public Confidence In Schools, and Create a Positive District Culture as well as core values of Safety Above All Else and Parents are Partners.

Description

The Psychological Services Department is the District's psychological and behavioral intervention unit. It is essentially a clinic without walls in that the Department takes the services to the students to reduce barriers to learning, helps students stay in school and improves school climate. Services include: Crisis Intervention (individual & school-wide), Suicide prevention training, Mental Health, First Aid training, De-Escalation Training, Non-Suicidal Self Injury training, assessment and intervention with students experiencing trauma assault, grief, or other conflicts, violence prevention training and assessment, consultation and support to staff and parents for behavioral, social, and emotional problems, and trainings to campus staff. Additionally, Psychological Services is responsible for the coordination and training of the All District Crisis Team (ACT).

Objectives

1. Monitor, support and provide direct and indirect crisis intervention and behavioral/social consultation to students and staff in order to remove behavioral/emotional barriers to learning, increase school engagement, and promotes positive school climates.
2. Assist campuses with implementation of prevention and intervention strategies at all levels of the PBIS multi-tier model of support.
3. Expand psychology services provided for serious non-crisis, critical incidents to help students remain in learning through the APA-approved Internship, residency, & practicum training.
4. Provide psychologist continuing education, required supervision, and management related to district, staff and professional psychology issues.

Recruitment & Selectection

Chief Human Resource Officer

Mission

The mission of the Recruitment & Selection department is to recruit and select highly-effective associate teachers, teachers, campus and central office leadership. By having a highly effective teacher in every classroom and a highly-effective leader on every school campus, we will increase student achievement across all levels.

Description

The Recruitment and Selection department within Human Resources is comprised of: Teacher Recruitment and Selection, Leadership Recruitment and Selection, Associate Teacher (substitute) Recruitment, and Central Office Leadership Recruitment. As a team, we build strong partnerships with external stakeholders to increase talent pipelines, actively market the district to prospective candidates, create and implement valid and consistent selection processes to fill our pipeline with strong and qualified candidates, proactively collaborate with principals and departmental hiring managers to fill open positions, partner with other departments to create positive hiring experiences for candidates and hiring managers, and consistently monitor and track progress through data.

Objectives

1. To actively promote and market the district to internal and external candidates, and to recruit candidates to apply to associate teacher, teacher and campus leadership positions.
2. To create and implement valid and consistent selection policies and practices to obtain strong, quality candidates.
3. To proactively collaborate with principals and Schools Office leadership to identify appropriate applicants to fill specific vacancy needs.
4. To consistently monitor and track team progress through the use of data-driven metrics.

Research and Accountability

Chief Academic Officer

Mission

The mission of the Department of Research and Accountability is to provide accurate, timely, and useful data and information to improve the lives of all students.

Description

The Department of Research and Accountability is responsible for the evaluation of state and federally funded educational programs, the production of districtwide data reports, and the response to special requests from School Board members, district personnel, and the public. Staff conduct program evaluations of local, state and federally funded programs, projects, and conduct activities related to the research, evaluation, and assessment of the district. Districtwide publications are disseminated publically which address student outcomes such as: student and teacher demographic characteristics, academic performance, accountability, effectiveness of school-based programs, and other school-related information. The department staff performs specialized tasks such as the development and implementation of the Board monitoring system, evaluation and reporting on Achieve 180, support for Teacher and School Leader Appraisal systems, and evaluations of priority programs that include appropriate process and product evaluation design, evaluation instruments, database management, and data collection techniques.

Objectives

1. Support Federal, state, and local-funded educational programs in HISD by providing timely and useful planning, research and evaluation information in formative and summative reports.
2. Produce statistical reports and complete special requests required to ensure compliance with state and federal guidelines.
3. Ensure data quality and operations and serve as a data resource to the department, district, local, state, and federal entities.
4. Analyze student performance data, produce district's accountability system reports, Board Monitoring Report, and data summaries, and respond to special requests for performance data.
5. Design, implement, and provide data that links student performance to classroom, campus, and district effectiveness that can be used in performance pay and appraisal systems.
6. Effectively manage and support the district's Research Practice Partnership with the Houston Education Research Consortium to provide research that informs practice in the district with the goal of closing performance gaps between student groups.

School Choice

Chief Academic Officer

Mission

The mission of the Houston Independent School District's Office of School Choice is to provide a broad system of specialized educational choices designed to meet the needs, interests, and/or talents of HISD's diverse, multicultural student population in a rigorous educational setting. It is committed to providing equity in access to quality programs throughout HISD.

Description

The Office of School Choice has the responsibility for the District's Magnet Programs and for specialized, quality integrated programs of choice. The department is involved in the design, development and implementation of new, expanded, and modified Magnet programs and provides support services to the 121 programs in 112 schools. It also plans/executes a community awareness campaign and multiple student recruitment activities to ensure that all Houston area students have equal access to these programs. Other activities include - design and implementation of appropriate in-services for Magnet coordinators and principals, assistance in development of specialized curriculum for Magnet courses, preparation of annual budgets, coordination of Magnet student application and acceptance procedures, and provide support through the HISD choice program transfer options.

Objectives

1. Provide support for the implementation of new programs and for established programs.
2. Develop and implement Magnet awareness/recruitment activities.
3. Coordinate development of courses to enrich the Magnet course sequence.
4. Ensure school equity and promote educational enrichment for students.
5. Provide training for magnet principals, coordinators, and regional personnel regarding meeting, maintaining and monitoring of magnet standards.
6. Implement and monitor all facets of the 2017 Magnet Schools Assistance Program (MSAP) Grant awarded by the US Department of Education.

Secondary Curriculum Chief Academic Officer

Mission

The mission of Secondary Curriculum and Development is to support the increase of student achievement in grades 6-12 by providing professional learning for best instructional practices as well as rigorous curriculum that is aligned to state and national standards and addresses the needs of all learners.

Description

The Secondary Curriculum and Development team encompasses Secondary Mathematics, Secondary English/Language Arts, Secondary Science, Secondary Social Studies, Instructional Technology, Secondary Literacy, Health/Physical Education, Digital Learning & Resources, STEM, and World Languages (LOTE). Directors or managers for each area oversee teams of curriculum specialists and teacher development specialists who write and vet curriculum and assessments, coach teachers at campuses, and provide district-wide professional learning.

Objectives

1. Continuously revise the curriculum to ensure a well-crafted, focused, valid, digital curriculum to direct teaching in core content areas for grades 6-12 (impacting approximately 7,000 teachers on over 100 secondary campuses).
2. Provide formative assessments, aligned to the curriculum in grades 6-12.
3. Work with other departments to ensure coherent, appropriate support of district initiatives (SPED, Multilingual, Research, School Offices, and Student Assessment).
4. Model best instructional practices and provide professional learning opportunities for 6-12 teachers that align with the goals of PowerUp.
5. Implement secondary literacy initiatives (Literacy in the Middle and Literacy Empowered) by providing resources, professional development, and supportive curriculum. Monitor and coach teachers and leaders in order to increase student achievement through a systematic and balanced approach to teaching reading and writing in all content areas.
6. Develop, curate, and align resources in the HISD "HUB" online learning management system.
7. Support district-wide instructional materials adoptions for textbook and technology resources.
8. Provide regular instructional coaching support for middle and high school teachers in order to increase achievement and eliminate secondary IR campuses in HISD.
9. Develop teacher leader cohorts in each secondary area to support and build sustainable, high-quality staff on secondary campuses in HISD.

Special Education

Chief Academic Officer

Mission

It is the mission of the Special Education Department to provide quality programs and services to diverse groups of students that promote equity, success, and contribute to preparing students who are members of special populations for college and or careers.

Description

The Special Education Department provides leadership and support to district and campus leaders to ensure adequate and appropriate resources, services, and programs are available for students with disabilities by removing barriers and raising expectations.

Objectives

- 1.1 Provide supports and tools to assist schools in appropriately identifying students for Tier 2 and Tier 3 instruction.
- 1.2 Support schools in implementing a continuum of practices and preventive strategies for students identified through screening as at-risk.
- 1.3 Monitor RTI/IAT implementation.
- 2.1 Clarify policies and procedures for special education referral, evaluation and identification.
- 3.1 Ensure HISD staff develop high-quality IEPs.
- 3.2 Ensure that a full continuum of service delivery placement options is available in each region.
- 3.3 Provide support to ensure effective implementation of services outlined in IEPs.
- 4.1 Provide Principals, Assistant Principals/Dean, Teachers, and Special Ed. Department Chairs with high-quality professional development opportunities.
- 4.2 Provide high quality professional learning tools for parents and educators to fidelity of implementation of special education requirements.
- 4.3 Provide high quality professional learning opportunities for parents to ensure participation in Goalbook, and increased understanding of transition programming.
- 5.1 Improve communication processes for gathering and disseminating information.
- 5.2 Monitor and enforce critical aspects of special education identification and service delivery.

St.Comp.Ed/Risk/Homeless

Chief Academic Officer

Mission

The mission of State Compensatory Education is to provide appropriate programs and/or services designed to supplement the regular education program for students identified as at risk of dropping out of school based on the 13 state criteria and HISD's 2 local criteria.

Description

The State Compensatory Education Program's purpose is to increase the academic achievement and reduce the drop out rate for at-risk students. The goal is to reduce any disparity in performance on assessment instruments (STAAR 3-8 and STAAR End of Course, etc.) or disparity in the rates of high school completion between students at risk of dropping out of school and all other district students.

As required by law, the state compensatory education program must be described in the campus and district improvement plan. It is the primary record supporting expenditures attributed to the state compensatory education program.

Objectives

1. Identify all district students who meet the state criteria for being at risk of dropping out of school.
2. Code all at risk students who meet one or more of the 13 state criteria for being at risk in Chancery so it can be reported to PEIMS.
3. Identify students who meet the 2 local criteria (students who are identified as dyslexic and students who are placed in a DAEP program for non-mandatory placement). These local criteria are not reported to PEIMS.
4. Provide campus and districtwide programs and/or services designed to supplement the regular education program for students identified as at risk of dropping out of school.
5. Comply with all state and district guidelines regarding the identification and services for students at risk of dropping out of school, related documentation and related budgets. Campus-based personnel, who have been specifically designated by the principal, are responsible for the accuracy of data related to at-risk student eligibility and services in the Student Information System (SIS) Chancery program.
6. Design programs and/or services so that students who are not currently performing at grade level will be performing at grade level at the conclusion of the next regular school term. Campuses must be able to evaluate the programs and/or services that they are providing for their students who are at risk of dropping out of school.
7. Design appropriate training for district staff.

Student Assessment

Chief Academic Officer

Mission

The mission of the Student Assessment Department is to design and manage the district and department's resources to ensure schools have assessment resources and services in real time to positively impact student achievement, support special populations, and promote college and career readiness.

Description

The Student Assessment Department consists of the Summative Assessment, Formative Assessment, Online Assessment, Test Materials Center (TMC) and Data Driven Instruction teams. The department is responsible for the following:

- 1.Managing and overseeing the development, administration, scoring, and analysis of the Texas assessment program on all matters related to international, national, state, and Houston Independent School District test administrations.
- 2.Providing direct support, guidance, and resources to schools on formative assessment administration (OnTrack) and the use of assessment data to make instructional decisions.
- 3.Sole distribution point for housing, securing, and distributing secured test materials including security documentation required by the Texas Education Agency (TEA) for state programs.
- 4.Supporting schools with assessments performed online, including selection, preparation, testing technology plan, implementation, and finalization of summative and formative assessments.
- 5.Assisting school leadership in overall data disaggregation to inform instructional practices and coordinate teacher, student, and community data literacy to meet campuses curriculum and instructional goals of the campus.

Objectives

- 1.By June 2019, the Achieve 180 Schools' Office will reduce the number of schools identified as Improvement Required (IR) from 11 to 0. In addition, no schools from the other schools' office areas will move into Improvement Required status.
- 2.Disaggregate data at strategic times in the year to prioritize the work, narrow the focus, monitor improvement, and action plan instruction.
- 3.Enhance HISD curriculum by connecting lead4ward resources in response to data trends and areas of need.
- 4.Engage in differentiated instruction that meets the individual and specific learning needs of students with disabilities and struggling learners including special populations to increase student outcomes.
- 5.Build capacity of leaders and teachers using a structured and consistent approach to data disaggregation with a common language, and data tools to supports instructional practice.

Student Assistance Chief Academic Officer

Mission

The mission of the Student Assistance Department is to heighten awareness, remove barriers to attendance and academic success of students with chronic attendance issues, living in homeless situations, foster care placement and residential treatment.

Description

The project provides support such as required clothing, shoes, hygiene items, undergarments, backpacks, supplies, and nonperishable food items. Referrals for additional services such as housing, food, employment, and physical and mental health are provided as needed. Project staff advocate for students and parents through identification and awareness activities, enrollment assistance, and parent education.

Objectives

1. By June 2019, attendance of identified homeless, foster care, residential treatment and students with chronic attendance issues will increase by 10%.
2. By June 2019, 100% of students who are identified as homeless, foster care or residential treatment will be provided uniforms upon request.
3. Provide direct services and supports to 100% of parents and parenting students identified as homeless, foster care, residential treatment and students with chronic attendance issues to ensure that students can remain in school and participate fully.
4. By June 2019, outreach staff will train a campus representative from each campus staff on McKinney – Act.
5. By June 2019, outreach staff will train a campus representative from each campus staff on House Bill 2398 under the Texas Education Code.

Student Support Services

Chief Academic Officer

Mission

The mission of Student Support Services is to provide leadership and service that meet the needs of schools, students and communities; thereby ensuring that all HISD students graduate from high school ready to succeed in college and career of their choice.

Description

The Office of Student Support is responsible for assisting the Superintendent of Schools in ensuring that the district meets its primary goal, to increase student achievement, by having an effective teacher in every classroom, an effective principal in every school, data-driven accountability and contributes to a culture of trust through action by vigilant monitoring of compliance with all local, state, and federal expectations. More specifically, the Office of Student Support oversees the implementation of support services and compliance functions for all elementary, middle, and high schools in the district. The Office of Student Support also aligns resources and supports for teachers and principals and verifies that the district is providing equitable and quality educational opportunities for its students.

The office consists of the following departments:

1. Athletics—which includes UIL Academics and Equipment/Stadium Management.
2. School Choice—which includes Magnet Grants/Programs, and Student Transfers.
3. School Support—which includes Charter Schools, Counseling and Guidance/District Registrar, Demographics, Federal and State Compliance, and Parent/Community Assistance.
4. Student Support—which includes Drop Out Prevention, Health and Medical Services, JJAEP/Safe Schools, State Compensatory Education, and Social and Emotional Learning.

Objectives

1. To define critical issues, identify resource requirements, and set bold, measurable and achievable goals focused on student academic growth.
2. To increase resources and services provided directly to schools.
3. To collaborate with various functional areas to manage events and projects that have district wide impact.

Superintendent of Schools

Superintendent of Schools

Mission

The mission of the Superintendent of Schools is to provide the leadership and guidance in establishing a public educational system that will produce a more effective learning environment for our diverse student population.

Description

The Superintendent of Schools is responsible for coordination of the overall administration of the school district and liaison with the Board of Education. Directly reporting to this office are the Chief of Staff, Chief Academic Officer, Chief Financial Officer, Chief Operating Officer, Chief Human Resources Officer, Chief Communications Officer, Chief Technology Information Officer, Chief Strategy and Innovation Officer, General Counsel, Chief Strategy and Innovations Officer, Chief Development Officer, Chief Governmental Relations and Strategy Officer and Area Superintendents(6).

Objectives

1. Increase student achievement
2. Improve human capital.
3. Provide a safe environment.
4. Increase management effectiveness and efficiency.
5. Improve public support and confidence in schools.
6. Create a positive culture.

Transportation Services

Chief Operating Officer

Mission

The mission of the Transportation Services Department is to improve lives and build trust by providing safe, efficient and reliable transportation services to the students of HISD so that they may access the educational and cultural opportunities provided by the district and become productive community members in a safe and caring environment.

Description

The Transportation Services Department is responsible for supporting the student's educational day by providing safe, professional, and efficient transportation to and from school, educational field trips, athletic competitions, and events. Coordination of these events requires a fleet of professional bus drivers with commercial driver's licenses and a competent support staff. The Transportation Services Department is the largest single district provider of school bus service in the state of Texas. The department employs over 1,400 employees and maintains a fleet of roughly 1,100 buses that operate from four terminal sites. It uses 990 buses to transport approximately 36,000 students to and from school daily. The HISD bus fleet travels more than 86,000 miles per day and approximately 15 million miles annually. Assisting the daily professional contribution of the drivers and transportation supervisors are the Transportation Operations, Routing & Scheduling, Field Trips Sections, Quality Assurance, and Motor Pools.

Objectives

- 1.Ensure that eligible HISD students and programs receive safe, reliable, and on-time transportation services to support student attendance and learning.
- 2.Exercise the four service standards of safe, courteous, responsive and efficient with internal and external customers.
- 3.Procure and install card/badge readers on all buses to enhance safety/security and improve data collection in support of annual route services report submitted to TEA.
- 4.Increase hourly employee headcount (drivers and attendants) in support of on time delivery to campuses.

Virtual Instruction

Chief Academic Officer

Mission

The mission of the Virtual Instruction Department is to provide two-way interactive learning anytime, anywhere, and for any student.

Description

The Virtual Instruction Department serves two primary functions in the district:

1. Provide high quality online instructional courses to students within HISD and across the globe.
2. Assist in the coordination, implementation, and oversight of online programs throughout the district. The department also manages the development, marketing, and distribution of other web-based educational products and services throughout the district to students, teachers, and staff.

Objectives

1. Establish HISD as a leader in providing exceptional online educational curriculum.
2. Improve campus course completion, participation, and success in district-wide Online Initiatives.

Wrap-Around Services

Chief Academic Officer

Mission

The mission of the Wraparound Services Department is to empower every community with a comprehensive district-wide plan to connect non-academic supports needed to improve the well-being of all students. The non-academic supports address critical issues such as mental health and physical needs, food insecurity, lack of stable housing, violence, incarceration of a parent, legal and crisis support, and many other challenges that can have adverse effects on a student's readiness and ability to learn.

Description

The Wraparound Services Department has developed a framework, including a definition, processes, and goals, needed to deliver community-based wraparound services. The department is codifying the district's responsibilities regarding support and implementation of wraparound services. The department is also including methods to identify non-academic needs of students and schools, increase access to effective services to meet students' needs, and set-up robust governance structures.

The Wraparound Services Department is establishing a team to facilitate implementation of the wraparound services framework and support community-driven sustainability. Additionally, the department will evaluate the impact of community-based wraparound services by utilizing academics, behavior, and attendance data. A health needs assessment is conducted through our partnership with Rice University and we utilize the recommendations from the Boston Consultancy Group (BCG) to inform our practice.

Objectives

1. Continue the development of the Community School Model and feeder pattern framework on all HISD campuses, including the definition, process and goals, to provide emotional and social supports to meet the needs of the whole child by 2022.
2. Continue in the development of Wraparound Resource Specialist cohorts of Every Community, Every School within the district and increase annually until all schools are served by 2022.
3. Train and support Specialists and key personnel on the data tracker.
4. Train and support Principals on the Community Schools Model framework, definition, process, and goals.
5. To develop a district-wide understanding of the Community Schools Model through professional development.
6. To create a Community Council at the school, community and district level.
7. Continue with the implementation of tools for campuses to conduct a needs assessment, to access a provider database, a data tracker, and professional development in 2018-2019, and will increase annually until all campuses access the tools and trainings by 2022.
8. To utilize the Community School's Rubric to measure the implementation of the Community Schools Model.
9. To increase external partnerships at each campus.

Districtwide Services

Description

The District-wide School Services budget is funded centrally, but ultimately has direct benefit to students and schools. These are programs and services which all schools or groups of schools receive during the year, and they are provided at no cost to the school's individual budget. Because the services and programs are offered district-wide, they reflect the diverse needs and interests among the students and staff. For example, programs include the district's bilingual stipends, critical shortage stipends, professional development stipends, other campus stipends and incentives paid for by the district, long-term substitutes, and armored car services. Also included in this budget is the district's long-range technology plan. The technology plan is designed to address the district's technology infrastructure initiative which will continue to increase access to electronic communication networks between schools and departments and improve training for all staff and students in the most up-to-date instructional and administrative computer applications.

The District-wide Utilities comprise of electricity, water, gas, and telephone expenses.

The District-wide Operating Services budget includes district-wide costs that in many cases aren't attributable to any one campus. Included are district-wide benefits which includes only employee benefits and includes Medicare, Group Health and Life Insurance, Workers' Compensation, TRS On-Behalf Payments, Unemployment Compensation, TRS Above State Minimum, Sick Leave Payments, Social Security, and benefits for the Buy-Back Services program. Benefit costs are directly allocated to the schools and departments based on their prior-year expense levels. In addition, there are expenditures for external legal and auditing services, tax evaluation and collection costs, contracted services, management consulting services, bonding and insurance fees, election costs, utilities, tax increment reinvestment zone (TIRZ), and other miscellaneous district-wide costs.

Capital Program

The Capital Program is a plan for creating, maintaining and paying for HISD's present and future infrastructure needs. About every five to six years, an external consultant assesses the district's facilities and makes recommendations to the Board of Education by identifying existing facilities repair needs or potential replacements as well as other new facilities required in the future.

Capital Renovation Fund

The Capital Renovation Fund is a governmental fund used for the accounting of all non-routine capital improvement costs for renovation, expansions, upgrades and rebuilding of district facilities. The Capital Renovation Fund has four different funding sources to fund its capital projects needs including:

- Voter-approved bond funds
- Pay-As-You-Go Program
- Tax Increment Reinvestment Zone (TIRZ) funds
- Miscellaneous funding

Voter-Approved Bond Funds—Facilities-to-Standard Program

The various projects funded by these sources have allowed the district to update its infrastructure to meet student's educational needs of the 21st century. HISD has built a nationwide reputation for progress and innovation in public education and the successes of the district's current facilities program has indeed contributed to the HISD's prestige. Schools that are clean, safe, modern and inviting, allow teachers to concentrate on teaching while providing students with optimal learning environments, as evidenced by improvements in student academic performance as a result of HISD's Facilities Program. The Capital Renovation Fund accounts for the district's capital improvement programs which are primarily funded by voter authorized bonds.

In 1997, HISD undertook a systematic, objective approach to rebuild and repair school buildings for Houston's children, then, now, and for the future. Two Project Management firms, Jacob's Engineering, Inc. and 3D/International, Inc., conducted a comprehensive assessment of the conditions and educational suitability of all the HISD facilities, documenting more than \$1.2 billion of needed repairs. The completed assessment provided HISD with information to develop a request for a bond referendum.

The recommended facility plan provided for creating safe, high-quality facilities while dramatically improving learning environments for Houston students, by rebuilding, expanding, upgrading and renovating schools that no longer met contemporary standards for learning. In addition, the facility plan aimed to benefit Houston's communities by funding new and upgraded schools that would promote safer neighborhoods. The original plan called for a three-phase Facilities-to-Standard Program to address improvements to the HISD schools and support facilities. The program phases would be funded by three individual bond referendums. The first bond program, Rebuild 2002 for \$678 million, was approved in 1998 by overwhelming voter support.

In July 2002, the HISD's Board of Education voted to place another bond referendum on the general election ballot in November 2002, to begin the second phase of school construction and renovation. The initiative was called Rebuild HISD, which was designed to help continue the district's outstanding record of academic progress and operation innovation by bringing more district facilities up to standard. In November 2002, Houston voters approved the second, \$808.6 million bond program, Rebuild HISD.

In November 2007, HISD went to the voters for the third phase of the Facilities-to-Standard Program requesting \$805 million to complete this project. Once again, the votes were in favor of this program.

In November 2012, Houston voters by a margin of nearly 2 to 1 approved a \$1.89 billion bond referendum to replace and repair 40 schools, including 29 high schools. In addition, the bond program includes funds that will benefit students across the district, including funding for technology upgrades, replacement of regional field houses, athletic facilities improvements, middle school restroom renovations, and safety and security upgrades.

Despite a challenging construction market, the bond program is making progress in the planning, design, and construction of new schools. The amount of construction work now taking place is unrivaled and marks a major district milestone as 6.8 million of square footage is planned in this program.

For each of these programs, the Construction Services Department was charged with the selection of program managers, who are responsible for managing the architects, engineers, and general contractors to carry out projects

from planning to completion. The Bond Oversight Committee, an independent citizen's committee composed of building and construction professionals and community members, was created to ensure that the various projects stay on track and that taxpayer dollars are being spent wisely. Construction Services provides the Bond Oversight Committee with regular updates, status reports, and program information. It is the ultimate goal of Construction Services to ensure that the Bond Program upholds the HISD's long-term commitment to Houston's schools, students, and communities.

Pay-As-You-Go Program

During the 2005-2006 school year, the district began a new "Pay-As-You-Go" Program primarily to provide needed renovations and repairs to school buildings and other facilities that are not part of the approved bond funds. This program generated approximately \$232 million for facilities over six years and approximately \$210 million in cost avoidance by lowering the amount of future bond money needed for facilities. The program funds were funded 100 percent by the general fund. The district committed \$15 million per year to this program for ongoing non-routine costs that are not part of an existing bond program. The goal of the program is to provide needed repairs and maintenance to campuses and other facilities; hence, reducing the need for more frequent bond issues for major repairs, renovations, and replacements. The Pay-As-You-Go Program will continue; however, as of the 2016-2017 school year, the \$15 million allocation will remain in the General Fund and will no longer be a direct source of funding for the Capital Renovation Fund.

Tax Increment Reinvestment Zones (TIRZ)

The City of Houston began its use of tax increment reinvestment zones in 1990 with the creation of Zone 1, Lamar Terrance Zone (St. George Place). This first effort was as a result of the City's receipt of a petition by area residents for the zone's creation. The zone's project plan and reinvestment financing plan set forth the plan to construct and finance costs associated with the installation of new public infrastructure in the form of water, waste water and storm sewer facilities. From a tax increment financing perspective, this zone's redevelopment of a blighted area was considered "traditional" tax increment financing. Funds for a TIRZ are generated from the property value increases to property with a TIRZ.

The City has created twenty (27) tax increment reinvestment zones. The HISD originally participated in sixteen (16) of these zones (listed below) commonly known as:

Zone 1	Lamar Terrance	Zone 9	South Post Oak
Zone 2	Midtown	Zone 12	City Park
Zone 3	Market Square	Zone 13	Old Sixth Ward
Zone 4	Village Enclave (expired)	Zone 14	Fourth Ward
Zone 5	Memorial Heights (expired)	Zone 15	East Downtown
Zone 6	Eastside	Zone 16	Uptown
Zone 7	Old Spanish Trail/Almeda Corridor	Zone 18	Fifth Ward
Zone 8	Gulfgate	Zone 19	Upper Kirby (expired)

At inception, the HISD limited its term of participation in the respective zones and participation will be ending over the coming years.

The primary reason for the City's request for the HISD to participate in the tax increment zones was because the HISD's participation is generally required in order for the zones to succeed. The long-term result of a successful increment zone will be increased property values, which will benefit all taxing entities through an increased tax base thus perpetuating increased tax revenues. Without the zones, property values in those areas would be much less likely to increase at the rate that has subsequently occurred.

Miscellaneous Funding

Proceeds from sales of capital assets, capital leases, lease revenue, and miscellaneous sources are used for emergency capital needs approved by the Board of Education.

Available Program Funds as of June 30, 2018

Below is a table representing the funds discussed above.

Fund	Available Balances as of June 30, 2018
Rebuild 2012	\$ 826,064,522
Rebuild 2007	1,994,148
Pay-As-You-Go Program	7,922,067
TIRZ's	93,496,533
Miscellaneous Funding	52,246,041
TOTAL	\$ 981,723,311

Available balances for Bond Programs that are programmatically complete are used for other Board-approved projects.

Revenue Sources for the Capital Renovation Fund

The primary source of funding for the Capital Renovation Fund is generated through the issuance of bonds which requires prior approval by the HISD Board of Education and ultimately by Houston voters. Proceeds from the sale of bonds along with other revenue sources are loaded directly into capital renovation reserve funds to be immediately used for approved bond referendums and other board-approved projects. Debt Service costs related to the sale of bonds are not accounted for in the Capital Project Fund, but in the Debt Service Fund. The District has a separate fund set up exclusively to account for all debt service costs. Below is a chart representing actual capital project revenues over the past five years.

Revenue Source	2014 Actual	2015 Actual	2016 Actual	2017 Actual	2018 Actual
Transfers In	\$ 15,546,592	\$ 17,471,484	\$ 15,553,307	\$ 28,000,000	\$ 56,000,000

Impact on General Operating Budget

In HISD, for the past several years the General Operating Budget has experienced no material impact leading up to or during construction. The district uses three primary funds for construction and major maintenance costs to buildings.

1. The Capital Renovation Fund - all revenue and expenditures related to the construction of new and renovated facilities, and for non-routine maintenance costs not associated with a bond program. The sources of funds were previously discussed.
2. The General Operating Fund - accounts for all routine building maintenance and operating costs such as: custodial and maintenance staffing, utilities, property insurance, maintenance and repair, and grounds.
3. The Debt Service Fund - accounts for the repayment for all debt issued by the district.

Primary Items Impacting the General Fund Budget

Typically, three primary items impact the General Fund Budget:

1. **Utility Costs** – The fiscal year 2018 had approximately \$45 million (gas, water, electricity) of expenses. This is consistent with last year. The district budgets utilities based on total utility rates, historical analysis, expected square footage, and the district's contracted rate to determine total expenditures. To date, our construction program has not significantly affected our operating expenses because HISD currently holds over 30,000,000 square feet within its real estate portfolio. Thus far, our construction programs have focused primarily on building elementary and high schools. As a result, adding two or three new schools each budget year does not significantly change the district's total square footage or utility expenses. In fact, the district is affected more by swings in utility rates than the district's construction programs. In the cases of construction projects that had temporary or swing space added, these utility costs were paid by the construction project budgets.
2. **Custodial / Maintenance staff costs** - Because HISD has been primarily renovating and replacing facilities, HISD has not seen significant costs associated with construction activities. Renovations and expansions to a campus are generally absorbed by existing staff. The district has also been closing small campuses and the staff have been redirected to other facilities. The district solicits changes to staffing each year during the budget process to identify additional staffing needs due to new campuses coming online.
3. **Insurance** - Unlike most homeowners, HISD does not purchase insurance covering every loss. Instead, the district purchases a loss value for the total district. For example, the district may purchase insurance for losses up to \$250 million. The amount afforded fluctuates in the market based on current or recent events. For example, multiple hurricanes and/or tornadoes throughout the country can cause the amount of available insurance to decrease. In this instance, the district may have to pay the same or more for less coverage.

Routine vs. Non-Routine Expenditures

Capital expenditures for construction, renovation, expansion and replacement are considered to be significant, non-routine expenditures, which encompass the majority of the expenditures in the district's Capital Renovation Fund. Additionally, the district plans for unexpected urgent situations such as roof or mechanical failures with its Emergency Fund. These expenses are non-routine in nature, but this fund has been established because historically they are inevitable. Other items that fall under non-routine expenditures are those for catastrophic events, such as those experienced after Tropical Storm Allison, Hurricane Ike, and Hurricane Harvey due to flooding, high winds, and extended electricity outages.

Expenditures that are categorized as routine are those that deal with general facility maintenance and upkeep. For example, routine preventative maintenance is done at all facilities to address mechanical systems and building infrastructure, which in turn, ultimately lowers the number of work orders (i.e., maintenance requests) requiring emergency repairs and extends the life of equipment. Another program that is viewed favorably by the district's principals is that of the Maintenance Response Team (MRT). This team is typically made up of a workforce that includes painters and maintenance personnel and works a guaranteed number of manpower hours to address campus-specific needs. The campus principal prioritizes the needs as well as existing work orders. The MRT is on a schedule, rotating a facility roughly every 90 days, and currently the district is actively working to reduce this time-span.

Other routine programs include life-safety code compliance initiatives and asbestos projects. These are not considered significant, but are routine in nature.

Non-Routine Expenditures

The district addresses non-routine capital projects and maintenance costs through its maintenance team. These items are defined as work needing to be addressed through future capital planning and are outside of the normal preventative maintenance schedule. Examples of the non-routine projects include the installation of new equipment at facilities that require tradesmen (i.e., electricians or plumbers) such as adding electrical outlets for technology equipment, painting, sidewalks, flooring, changing interior locks, drainage, etc.

These high-cost, non-routine expenditures are generally handled through the district's Pay-As-You-Go Program and can either be planned major maintenance items or unexpected emergency repairs and maintenance.

The district plans for unexpected urgent situations with its Emergency Fund. HISD defines an emergency as anything preventing or substantially impairing normal operations; a condition that poses an eminent threat to the health, safety, or welfare of students; and/or has potential catastrophic financial loss. These expenses are non-routine in nature but this Emergency Fund has been established because history has shown they are expected due to the number and age of facilities within the district's portfolio.

The General Operating Fund's unassigned fund balance is also available for major costs; however, the use of the unassigned fund balance requires action by the Board of Education and is used as the absolute last resort. The district generally attempts to fund from existing resources from the current year budget through reappropriation or redirection of funds.

Hurricane Harvey related expenses have been charged to a fund specifically setup to be reimbursed by insurance proceeds. The charges did not impact the normal Maintenance & Operations funds. The claims process is on-going.

Routine Expenditures

The district funds the routine expenditures from the General Operating Fund in the Facility Services (FS). FS operates with a staff of over 2,000 full-time employees. This HISD department manages over 2,800 buildings (approximately 600 permanent and 2,200 temporary). The FS Leadership Teams oversee 2,100 acres of school and administrative spaces. At over 30 million square feet, FS administers one of the largest and most diverse portfolios of real estate assets in the U.S..

The FS budget provides routine maintenance services in the major categories below. The FS Department has a total budget of approximately \$94.4 million for routine maintenance and operations. This includes salary and non-salary costs. Below are the major areas of maintenance for which FS is responsible:

Security systems (alarms, CCTV, radios)	Locksmith	Warranties	Swimming pools
Fire extinguishers	Plumbing	Grounds care	Radio towers
Building automation	Environmental affairs	Fencing	Cooling towers
Roofing	HVAC	Pest control	Fire alarm monitoring
Glass	Preventative maintenance	Custodial services	Parking lot striping
Metal shop	Minor construction	Water treatment contracts	Maintenance schedule planning
Window units	Code compliance	Solid waste contracts	Call center
Electricians	Inspections	Elevator & wheel chair	General maintenance and repairs

HISD Bond Programs

HISD Rebuild 2002 Bond

Phase 1, Rebuild 2002 was a \$678 million bond referendum that successfully built ten new relief schools, renovated 69 schools and renovated 22 support facilities identified as being in the worst condition. The program focused primarily on the district's most urgent concerns, including fire and life safety, structural integrity and overcrowding.

Rebuild 2002 was completed on time and under budget. In fact, Rebuild 2002 was so successful, savings enabled the HISD to build one additional elementary school and renovate nine other schools that were not included in the original program scope.

The selection of the ten new relief school locations was based on six major factors:

1. Current overcrowding
2. Broad public support
3. Maintaining community participation in the schools

4. Potential/projected growth of the community
5. Geographic equity
6. Cost effectiveness and program effectiveness

The repairs and renovations of the 69 schools and 22 support facilities were prioritized based on the severity of the problems:

1. Code compliance issues, such as building and fire code violations
2. Problems that interfered with the educational mission such as failing roofs and air conditioning systems
3. Problems that required short-term correction such as exterior windows and walls
4. Problems that required long-term corrections such as floors and ceilings
5. Building and site improvements such as lighting, electrical, computer networking, television cabling, plumbing fixtures, and parking

Even after adding program scope, including a new school and nine renovations, Rebuild 2002 still had funds remaining. These funds resulted from interest income and balances from projects completed under budget, allowing the district to fund various maintenance projects and other board-approved projects. HISD Rebuild 2002 Bond is 100 percent complete.

Rebuild HISD Bond

While Rebuild 2002 successfully addressed the needs of about one-third of HISD's schools, the needs at many of the remaining schools and facilities were still prevalent. At that time, the average age of the HISD schools was 45 years. Consequently, in April 2002, a new technical assessment of the schools and support facilities not included in the Rebuild 2002 bond program was conducted. The study identified more than \$1 billion of capital renovation needs. As in the previous program, schools with the greatest needs were given the highest priority. Renovations at some schools would have been so extensive such that replacing the schools with new buildings was more economical. Voters of the Houston Independent School District agreed and approved the passage of an \$808.6 million bond package.

The Rebuild HISD program was credited with:

- Building five new schools
- Building five early childhood centers
- Replacing 22 aging schools
- Renovating 32 schools
- Expanding 11 existing schools
- Upgrading 55 gymnasiums
- Building a new bus service facility
- The majority of elementary schools receiving new playground equipment and covered structures

Construction activities were completed after four years. Further, the source of funds used by the Rebuild HISD program included bond proceeds, investment earnings and miscellaneous revenues. Rebuild HISD Bond is 100 percent complete.

2007 Facilities Capital Program

The 2007 Facilities Capital Program is comprised of an \$805 million approved bond referendum, \$145 million in Pay-As-You-Go Program Funds, and \$95 million in real estate and capital project reserves for a total funding of \$1.045 billion. This section's primary focus will be on the \$805 million approved bond referendum.

In August 2007, the Houston Independent School District Board of Education voted to place an \$805 million bond referendum on the November 2007 general election ballot. The proposed bond initiative was the third in a series of three bond issues aimed at renovating, repairing, and replacing aging school facilities throughout the district. Based on property values and projections at the time of the election there was no tax rate increase required to fund the bond referendum.

Based on an independent facilities survey and input from community town hall meetings, the \$805 million bond proposal funded the following:

- Safety and Security upgrades, including new fencing, security cameras, public address systems, and other enhancements at all schools in the district
- Middle and high school science labs updates and improvements

- 13 new schools to replace aging facilities too costly to repair: Alameda ES, Berry ES, Carnegie Vanguard HS, Cunningham ES, DeChaumes ES, Frost ES, Gregg ES, Herod ES, Horn ES, Lovett ES, Patterson ES, Piney Point ES, and Roosevelt ES
- Three new schools to relieve overcrowding: Reagan Pre-K-8 (to relieve Dowling MS); DeAnda ES (to relieve Mitchell ES), and Neff/White ES
- Two early college high schools (ECHS) in the north and south, and a third ECHS in a renovated facility in central Houston
- Seven new schools to replace and/or consolidate outdated facilities with low enrollment:
 - New school at Dogan to serve students from Scott and Dogan Elementary Schools
 - New school to serve students at Atherton Elementary School
 - New school at Sherman to serve students from Sherman and Crawford Elementary Schools
 - New school at Allen to serve Allen and Kennedy Elementary Schools
 - New school at Peck to serve students from Peck and MacArthur Elementary Schools
 - New school to serve students at Lewis Elementary School
 - New school at Turner to serve students at Turner and Lockhart Elementary Schools (board member contributed \$11 million to make this a replacement campus)
- Expansion of two schools to relieve overcrowding: Crockett ES and Valley West ES
- Renovation and expansion of one existing school to replace an older school with low enrollment: to McDade ES (Which would also serve students attending Kashmere Gardens)
- Renovations and repairs to 134 schools
- Improve infrastructure and accessibility at Barnett, Butler and Delmar stadiums

All projects associated with the 2007 Facilities Capital Program are 100 percent complete.

2012 Houston Schools Bond Program

On November 6, 2012, Houstonians voted by a margin of nearly 2 to 1 to approve a \$1.89 billion bond to replace and repair 40 schools across the district, including 29 high schools. Planning for new and renovated campuses has begun with design work this year, and construction to begin in 2014. The entire project will be spread out over the next six to eight years to help control costs and allow the district to gradually phase in a 4.85-cent property tax rate increase over the next five years.

The Bond Program also includes work that will benefit students across the district, including \$100 million in technology upgrades, \$44.7 million to replace regional field houses and improve athletic facilities, \$35 million to renovate middle school restrooms, and \$17.3 million for safety and security improvements.

Projects funded through the bond program include:

New campuses for 21 high schools: Austin, Bellaire, Northside (formally Davis HS), DeBakey, Eastwood, Furr, High School for the Performing and Visual Arts, Jordan, Lamar, Wisdom (formally Lee HS), Madison, Mickey Leland, Milby, North Early College, Sam Houston, Sharpstown, South Early College, Sterling, Washington, Worthing, and Yates.

Partially replacing three high schools: Waltrip, Westbury, and Young Women's College Prep Academy.

Renovating four high schools: Jones, Kashmere, Scarborough, and Sharpstown International.

Converting five elementary schools to K-8 campuses: Garden Oaks Montessori, Mandarin Chinese Language Immersion School, Pilgrim Academy, Wharton Dual Language School, and Wilson Montessori.

Building three new elementary campuses: Askew, Parker, and Mark White.

Replacing/completing two middle school campuses: Tanglewood (formally Grady MS) - new addition to complete new campus and Lawson (formally Dowling MS) - new campus.

The Board of Education has also agreed to rebuild two schools – Condit Elementary and the High School for Law Enforcement and Criminal Justice – either through the sale of surplus district property or by using any potential leftover bond funds.

Information Technology Capital Plan

Information Technology addressed the following initiatives utilizing the available Capital Funds. The remaining Capital Funds were reallocated to the General Fund to offset budgetary constraints of the District.

Infrastructure, Engineering and Operations

The district's need to migrate off an unsupported legacy email archiving system used for email discovery was required to handle the volume of emails the district archives. The existing system could no longer handle the email volume inside the system which encompasses 8 years. The funding allowed the district to migrate all archived emails over to Office 365 for email retention.

Educational Solutions

Efforts include the technology components that support the transformation of teaching, learning and leading through connecting technology integration to teaching practices, such as Power Up Hub.

The General Fund provided \$53 million out of the approximately \$100 million initially allocated to the Information Technology Capital Program. The table below represents the amounts that have been approved by the Board of Education from these funds for various initiatives. The remainder of these funds were reallocated to the General Fund to assist with the budget constraints:

Board Approved Technology Initiative	Original Budget Board Approved	Total Spent to Date	Amount Reallocated to General Fund 2018-2019
Application Upgrades	\$ 7,072,860	\$ 2,974,456	\$ 4,098,404
Data Integration - Dashboards	3,663,508	3,025,080	638,428
Digital Teaching Platform	6,719,350	6,719,350	-
Information Management	770,000	432,080	337,920
Infrastructure	18,541,877	11,415,213	7,126,664
Technology Phase 1	10,101,670	9,869,252	232,418
Technology Phase 2	13,498,936	9,891,066	3,607,870
Technology Phase 3	4,821,000	4,807,066	13,934
IT: Network Infrastr Design Int	48,000	47,975	25
Web Filtering	5,123,233	3,867,497	1,255,736
Totals	\$ 70,360,434	\$ 53,049,035	\$ 17,311,399

2012 Houston Schools Bond Program Projects

The HISD 2012 Bond Program utilizes four Program Management firms to act as an extension of the HISD staff due to the large size of the program. The four Program Management firms are Heery International, Kwame Building Group, Rice & Gardner, and URS Corp. These firms were contracted early in the program to assist in executing projects from inception to final completion. On this particular program, Program Management Firms (PM or PMs) are utilized on new construction, renovation and renovation/addition projects.

The phases of the HISD's bond work include planning, design, bid and award, construction, and warranty.

- Planning:** Planning is the first phase of a building program, which includes evaluating the needs of students, administrators, and community members to achieve a desired goal of creating a 21st century learning environment.

- Design:** The second phase is design, which is comprised of three sub phases: Schematic Design, Design Development; Construction Documents.

- Schematic Design:** Typically includes a simple site plan, floor plans, simple building cross-sections, an outline specification with general information about building systems, a table comparing required square footages from the educational specifications with actual square footages shown on the drawings, a preliminary estimate of cost options, and three-dimensional depictions of the exterior of the building.

- Design Development:** Process in which schematic design drawings are further developed to include more detail, including: detailed site plan; room layouts; door and window types; interior and exterior elevations;

reflected ceiling plans; plumbing, mechanical, structural, and electrical drawings; and kitchen layouts.

- Construction Documents:** Extremely detailed drawings and specifications showing and describing all of the details required to construct the building.

During this phase, HISD contracts with an Architect and Engineer Firm (A/E) to develop architectural drawings utilized for construction.

- Bid and Award:** HISD and/or Construction Managers (CM or CMs) select and contract with firms to conduct work on school buildings and capital projects through the bid and award process. The process includes an advertisement for the work scope, acceptance of proposed bids, an evaluation of bids and bidders, and an award to the lowest most responsible bidder.

- Construction Phase:** Work that might be included in construction includes painting, structural repairs, mechanical, electrical, and plumbing (MEP) improvements, American with Disabilities Act (ADA) upgrades, roof installation and/or repair, safety and security improvements like cameras, and hazardous material abatement. Substantial completion of the construction work includes the project management team, A/E and CM walking the project site to compile a punch list detailing work still required by the CM before final completion can be achieved. This substantial completion also triggers the HISD property insurance and the beginning of the year-long “Warranty” phase. During the warranty phase, the CM completes any punch list items and fulfills any warranty items that arise with work performed as a part of the construction contract.

The HISD Board of Education has approved three different kinds of construction contracts: Construction Manager at Risk (CMAR), Competitive Sealed Proposal (CSP), and Bidding.

- CMAR:** is approved for new construction at \$5 million and above.

- CSP:** is for new construction up to \$5 million and renovation projects estimated at \$1 million and above, with no upper limit.

- Bidding:** is for new and renovation projects under \$1 million.

The HISD 2012 Facilities Capital Program was divided into four groups along with District Wide Athletics, District Wide Land, Middle School Restroom Renovations, District Wide Technology and District Wide Safety and Security. At the time of publication of this document, all projects are in closeout or completed with the exception of Bellaire HS, Northside HS, Lamar HS, and Austin HS.

Over the 2015-2016 school year, more than 300 Project Advisory Team meetings have taken place and nearly 25 community meetings were facilitated to keep hundreds of stakeholders informed. The Bond Oversight Committee, an independent citizens panel established to monitor the progress of the bond program, is ensuring that all bond revenues are being spent appropriately as well as evaluating progress. Construction is underway on 17 campuses across the city – with more soon to begin. Additionally, 10 schools have celebrated the beginning of construction with groundbreakings, beam-signings, and other events.

The district’s bond program has brought many bid opportunities for subcontractors. The Supplier Diversity and Communications team continues to provide support in publicizing these opportunities to M/WBEs through pre-bid meetings led by CMARs and through web articles and emails. Additional bid packages will be released by CMARs as additional projects come online.

To date, contracts awarded for professional services represent 28.07 percent commitment rate by M/WBE firms. The M/WBE commitment for construction services range from 10 to 30 percent.

2012 Houston Schools Bond Project Highlights

HISD’s Bond Program – approved by voters in 2012 – calls for the renovation or rebuilding of 40 schools across the district.

After a delayed start due to Hurricane Harvey, the 2017-2018 school year began in September with the formal opening of eight bond schools, including Furr, Wisdom, Milby, Waltrip, and Kashmere high schools, and Mickey Leland College Preparatory Academy for Young Men. DeBakey High School for Health Professions was completed in time for summer school, but formally opened its doors to all students for the new school year.

In January, three bond schools opened new facilities to students returning from winter break. Sharpstown and Scarborough high schools opened completed facilities, while Austin High School opened a temporary campus designed to house students while their old school is demolished and rebuilt.

Additional openings took place in March 2018, with Parker Elementary School opening its new building, and Westbury High School, Wilson Montessori, and Garden Oaks Montessori opening new additions.

However, the biggest bond school opening to date came in August 2018, as 11 bond schools — more than any other time in district history — finished construction and formally opened their doors to students for the first time.

The 11 schools included Energy Institute, Washington, and Yates high schools, Eastwood, Pilgrim, and Young Women's College Preparatory academies, Wilson and Garden Oaks Montessori schools, High School for Law and Justice, Lawson Middle School, and Askew Elementary School.

The opening marked a significant milestone for the 2012 Bond Program as all HISD school construction was reported to be almost three-quarters complete. That number is expected to top 80 percent by the end of 2018, as the district prepares to open up to six more schools.

Once all work is finished, the district will have one of the most modern portfolios of urban high schools in the country.

Glossary, Definitions, and Data Sources

Houston Independent School District

DEFINITIONS AND DATA SOURCES

TERM	DEFINITION
Academic Excellence Indicator System (AEIS):	The Academic Excellence Indicator System (AEIS) pulls together a wide range of information on the performance of students in each school and district in Texas every year. Also included are prior year financial data. This information is put into the annual AEIS reports, which are available each year in the fall.
Accelerating Student Progress, Increasing Results & Expectations (ASPIRE)	ASPIRE (Accelerating Student Progress Increasing Results & Expectation) is HISD's educational-improvement and performance-management model that engages all employees in creating a culture of excellence. ASPIRE payouts occur in January following the previous fiscal year's performance results.
Accreted Value	The value of a multi-year investment that accrues interest but doesn't pay that interest until maturity.
ACHIEVE 180	A research-based action plan to support, strengthen, and empower underserved and underperforming HISD feeder pattern communities to increase student achievement. Best practices from successful school turnaround initiatives, including effective teachers, strong principal leadership, and an environment of high expectations for both students and staff, are incorporated into the plan.
Activity Funds	Activity funds are defined as funds consisting of resources received and held by the school, as trustee, to be expanded or invested in accordance with conditions of the trust. Specifically, they are funds accumulated from various school-approved, fund-raising activities such as receipt of student dues or fees, commissions, investment interest and donations. All funds collected by district personnel from students are defined as Activity Funds and must be handled through the activity funds accounts.
Ad Valorem Local Maintenance Tax	The amount or rate of taxes levied for the maintenance and operations of the school district.

Adequate Yearly Progress (AYP)	Under the accountability provisions in the No Child Left Behind (NCLB) Act, all public school campuses, school districts, and the state are evaluated for Adequate Yearly Progress (AYP). Districts, campuses, and the state are required to meet AYP criteria on three measures: Reading/ Language Arts, Mathematics, and either Graduation Rate (for high schools and districts) or Attendance Rate (for elementary and middle/junior high schools).
Administrative Cost Ratio	The ratio of function 21 and 41 expenditures to function 11, 12, 13, and 31 expenditures. It only includes major object codes 6100 to 6400. Please refer to the Accounting Basis under the Organizational Section for definitions of each of these components.
Admission, Review, and Dismissal/Individual Education Program (ARD/IED)	The Admission, Review, and Dismissal is a meeting conducted that establishes eligibility for special education services, and develops and reviews the Individual Education Plan to make decisions concerning the educational program for students who are eligible to receive special education services.
Advanced Placement Courses and Exams (AP)	Courses which give students a chance to receive college credit for a high school course by taking an exam at year end.
Alternative Certification	Alternative certification programs (ACP's) offer a nontraditional route to certification that may allow you to teach while completing the requirements. These programs are located in universities, school districts, education service centers, community colleges, and private entities. A list of approved programs is available. Only programs found on this list may recommend an individual for a Texas educator certificate.
American Association of School Administrators (AASA)	AASA, the School Superintendents Association, founded in 1865, is the professional organization for more than 13,000 educational leaders in the United States and throughout the world. AASA members range from chief executive officers, superintendents and senior level school administrators to cabinet members, professors and aspiring school system leaders.
American College Test (ACT)	The ACT is a national college-admission exam. It assesses both the general educational level of high school students and their readiness for college-level work. The ACT consists of four tests: English, Mathematics, Reading, and Science Reasoning. The tests are curriculum-based and universally accepted by U.S. colleges and universities.

Analytics for Education (A4E)	Technological tool or Achievement Dashboard used by HISD to monitor performance indicators.
Annual Financial and Compliance Report	See Comprehensive Annual Financial Report (CAFR)
Appropriation	Budget dollars that have been set aside for a particular expenditure (salaries, instructional supplies, capital outlay, etc).
Association of School Business Officials International (ASBO)	The Association of School Business Officials International (ASBO) is a professional association that provides programs and services to promote the highest standards of school business management practices, professional growth, and the effective use of educational resources.
At-Risk Students	A designation assigned to students using categories identified by the state. Elementary students in pre-kindergarten through third grade are designated as – at risk// of dropping out of school if they did not perform satisfactorily on the HISD pre-kindergarten language arts and mathematics assessments, the mCLASS CIRCLE assessment or the Texas Primary Reading Inventory (TPRI)/ Tejas Lee. Secondary students are —at-risk if they failed two or more foundation courses during a semester in the preceding or current school year or are not maintaining such an average in the current semester. Elementary and secondary school students are designated as —at-risk of dropping out of school if they are Limited English Proficient (LEP), failed any section of TAKS on the most recent attempt, were not advanced from one grade level to the next for one or more school years. Additional criteria include students who are pregnant and/or a parent, are homeless, have been previously reported as a dropout, reside in a residential placement facility, are in the custody or care of the Department of Protective and Regulatory Services, attend a disciplinary alternative education program, are on conditional release through the judicial courts, or have been expelled during the preceding or current school year.
Athletics Fund	Used to account for the educational, social, moral and athletic skills of the student athlete. It provides a comprehensive High School and Middle School program for male and female athletes in areas such as football, basketball, track/field and soccer. The Athletics Fund is also used to schedule athletic activities, transportation trips and games officials and to efficiently operate Sports Complex Venus for HISD athletics competitions and events.
Average Daily Attendance (ADA)	The average number of students that are in attendance daily in the school district determined by the number of days a student attends school compared to the number of days the student was enrolled.

Average Market Value	This is determined by the county appraisal district and reflects the average price that a property sells at within the district's boundaries. This is different from the average taxable value.
Average Scale Scores	Test results can be used to evaluate the performance of a group over time. Average scale scores and the percentage of students meeting the standard/meeting minimum expectations can be analyzed across administrations within the same grade and subject area to give insight into whether student performance is improving across years.
Average Taxable Value (ATV)	This is determined by the county appraisal district based on appraised value of a home and deducting any state mandated exemptions and any local option exemptions. This is the amount that the homeowner will actually pay taxes on.
Award for Excellence in Financial Management	Awarded by the Council of the Great City Schools, the award is based on a thorough outside review of HISD's management practices conducted by senior financial executives from some of the country's largest school systems. Areas they review include finance and budget, business services, human resources, and information technology.
Benchmarking	Analyzing and comparing performance or other indicators to the industry or peers to help in process improvement.
Biennium	A period of two years. Example: HISD adopts a new budget each year (annually) while the State of Texas adopts a biennial budget (a two year budget).
Bilingual	A student that speaks two or more languages.
Biofuel	A fuel that is derived from biological materials, such as plants and animals and can also be seen as fuel derived from organic matter.
Board Policy CA (Local)	Collection of board policies that help to govern the district's business, personnel, instructional, student, and community interaction.
Bond Referendum	A proposal to the taxpayers requesting the approval to issue bonded debt for capital expenditure for district facilities, vehicles, or other capital items.

Budget	A plan of financial operations embodying an estimate of proposed expenditures for a given period or purpose and the proposed means of financing them. The budget usually consists of three parts. The first part contains a message from the budget-making authority together with a summary of the proposed expenditures and the means of financing them. The second part consists of schedules supporting the summary. These schedules show in detail the proposed expenditures and means of financing them together with information as to past years' actual revenues and expenditures and other data used in making the estimates. The third part is composed of drafts of the appropriation, revenue, and borrowing measures necessary to put the budget into effect.
Budget Units	Refers to departments or campuses that have budgets and have the authority to spend those funds.
Budgetary Accounts	Those accounts necessary to reflect budget operations and conditions, such as estimated revenues, appropriations, and encumbrances, the net balance, and other related information.
Buy Back Services	Services that are provided internally to other campuses and departments at a fee for service
Campus Resource Allocation	The resource allocation process by which campuses generate the funding that they ultimately build budgets from each school year. Refer to the Schools Section for detailed description of the resource allocation.
Capital Budget	A plan of proposed capital outlays and the means of financing them for the current fiscal period. It is usually a part of the current budget. If a capital program is in operation, it will be the first year thereof. A capital program is sometimes referred to as a capital budget.
Capital Outlay	Expenditures that result in the acquisition of, or addition to, fixed assets. In this district, a fixed asset is defined as a tangible item whose expected life is two or more years and whose value is greater than \$5,000. Items that have a cost of more than \$500 per item are also purchased from capital outlay funds, but are not classified as fixed assets. Exceptions to value limitations are software (\$1,500 or more per item) and catalogued library materials. The capital items below \$500 per item are changed to supplies before submission to the State as required by PEIMS guidelines.
Capital Renovation Fund	Accounts for all capital program projects on an individual project basis. The primary source of funding is voter approved bonds. See the Capital Renovation section for more information.

Career Pathways	HISD's Career Pathways program gives more than 200 teachers the chance to serve in leadership roles on their campus while paying them additional money and affording them leadership opportunities.
Carryover Budget	Funds that are moved from one fiscal year to another fiscal year usually due to purchase order obligations. This can also be funds that were not used on a specific project by the end of a fiscal year but are still needed to complete that project in the next fiscal year.
Chancery SMS	The student information system used by HISD. Schools use the software to perform various functions including student registration and enrollment, attendance tracking, grade reporting, and creation of student transcripts. Data that is collected in Chancery is often provided to other HISD data systems. Reports that go to the Texas Education Agency based on student data are generated from Chancery or from data collected in Chancery.
Child and Adult Care Food Program (CACFP)	The United States Department of Agriculture's (USDA) Child and Adult care food program provides aid to child and adult care institutions and family or group day care homes for the provision of nutritious foods that contribute to the wellness, healthy growth, and development of young children, and the health and wellness of older adults and chronically impaired disabled persons.
College Board	Founded in 1900, the College Board was created to expand access to higher education. Today, the membership association is made up of over 6,000 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education.
Compensatory Education	Program and instructional services which are designed for at-risk students. These programs and services are funded with State Compensatory Education funds.
Comprehensive Annual Financial Report (CAFR)	Document prepared by Accounting to report the detailed results of district operations.
Community Eligibility Provision (CEP)	The Community Eligibility Provision allows high-poverty schools to provide breakfast and lunch free to all students, ensuring that they are well nourished and able to learn throughout the school day. Families do not need to provide a school lunch application in order to qualify. The schools participating in the Community Eligibility Provision are determined by HISD according to a formula that takes into account free and reduced lunch rates and other factors.
Construction Manager-Program Administrator (CM-PA)	The Construction Manager-Program Administrator (CM-PA) means the organization, selected to represent HISD in managing the Construction Project.

Core Values	HISD has adopted 6 core values: Safety Above All Else, Student Learning Is the Main Thing, Focus on Results and Excellence, Parents Are Partners, Common Decency, and Human Capital.
Cost of Education Index (CEI)	The Cost of Education Index (CEI) attempts to adjust for varying economic conditions across the state, based mainly on the size of the district, the teacher salaries of neighboring districts, and the percentage of low-income students in the district in 1989–1990. The index has not been updated since that time.
Council of the Great City Schools (CGCS)	Goals: To educate all urban school students to the highest academic standards. To lead, govern and manage our urban public schools in ways that advance the education of our children and inspire the public's confidence. To engage parents and build a confident, committed and supportive urban community for raising the achievement of urban public school children. For more information visit www.cgcs.org
Credit Recovery	Credit recovery allows a student to make up or re-take a course that they previously did not receive credit for taking.
Crisis Prevention Institute (CPI)	Crisis Prevention Institute is a program used in HISD to train staff to implement safe behavior management methods that focus on prevention.
Debt Instruments	The type of debt issued, such as bonds, certificates, mortgages, or other agreements between a lender and a borrower.
Debt Service Fund	Resources that are budgeted for payment of the district's debt including principal, interest and other debt service fees.
Debt Service Obligations	The total amount of debt principal that the district owes.
Debt Service Rate	The tax rate applied to the taxable value that is dedicated to the payment of the district's debt. These funds cannot be used for any other purpose.
Designated fund balance	Represents tentative plans for future use of financial resources.
Direct Certification	Direct certification is a federally mandated process used by School Nutrition Program sponsors to certify school-age recipients whose families receive services through the Texas Department of Human Services, such as SNAP, for participation in the school lunch program without completing an application. If at least 51 percent of a school's population qualifies via direct certification, a school may qualify for the community eligibility provision.

District Advisory Committee (DAC)	Committee made up of parents, students, and other community members who wish to be a part of the decision-making process at HISD and offer ideas and feedback at the district level.
District Award for Teacher Excellence (DATE)	DATE is a non-competitive grant that provides funding to support the establishment of district-wide goals and the implementation of a financial awards system designed to: 1) award teachers for positively impacting student achievement, 2) target the district's most in-need campuses to improve teacher quality, and 3) create capacity and sustainability for improved instruction within the district. DATE allows districts the opportunity to create a district-wide incentive plan, create a local incentive award plan targeting specific campuses, or implement the Teacher Advancement Program (TAP), a strategy developed by the Milken Family Foundation.
Dual-Credit Partnerships	An agreement between the district and a college or university to provide college credit for classes attended during high school at a local college or university.
Economy of Scale	The cost advantage that arises with increased output of a product.
End of Course (EOC) Assessments	STAAR end of course (EOC) assessments are for high school students in specific subject areas. Current EOC tests are administered in Algebra I, biology, English I, English II, English III, and U.S. History.
Effective Teacher Initiative	Effective Teachers Initiative was instituted to ensure success for all students through an effective teacher in every classroom. HISD's priorities are to hire early, identify and hire from the teaching preparation programs that have a record of producing effective teachers, use a rigorous selection process, empower principals to make strategic hiring and retention decisions, and offer incentives to attract top talent.
EMERGE	EMERGE-HISD is a program that prepares talented HISD students from under-served communities to successfully attend and graduate from the nation's top colleges and universities. Students in the EMERGE-HISD program benefit from extensive programming, individualized support and tailored resources throughout grades 9-12. EMERGE Program Managers, graduates of top-tier colleges and universities, work closely with students and their families to ensure students' success at the nation's top colleges.
Encumbrance Accounting	The system under which purchase orders, contracts, and other commitments for the expenditure of funds are recognized in the accounting system in order to reserve the portion of the applicable appropriation.

English as a Second Language (ESL)	See English Language Learners (ELL).
English Language Learners (ELL)	A person who is in the process of acquiring English and has another language as the first native language. The terms English language learner and limited English proficient student are used interchangeably.
E-rate	E-Rate is the commonly used name for the Schools and Libraries Program of the Universal Service Fund, which is administered by the Universal Service Administrative Company (USAC) under the direction of the Federal Communications Commission (FCC). The program provides discounts to assist most schools and libraries in the United States (and U.S. territories) to obtain affordable telecommunications and Internet access. It is one of four support programs funded through a Universal Service fee charged to companies that provide interstate and/or international telecommunications services.
Enrollment Snapshot	This is used by the district and the state to take a snapshot of the number of students enrolled in total and in each instructional program on one day of the year. This is used for projections for the district and the state as well as the final budget settle up for schools in HISD.
Enterprise Funds	Enterprise funds are traditionally funds that provide a service in a for-profit capacity.
Estimated Frozen	Frozen values refer to exemptions granted for homeowners for things like over 65, veteran, and surviving spouse.
Ethnicity	Percentages of ethnic/racial composition of the student population enrolled at the school as of the PEIMS Snapshot Date every October, but refined and reported in the final PEIMS submission of every January. The five categories required by the Texas Education Agency and used in this document are:
Fair Market Value	The amount at which the investment can be exchanged in a current transaction between willing parties.
Fallout	These are funds that remain unspent at the end of a fiscal year. Some of these funds end up in the district's fund balance. The district anticipates a certain amount of fallout each year that helps to balance the district budget.
Foundation School Program (FSP)	The Foundation School Program (FSP) is the primary source of state funding for Texas school districts. The program is administered by the Texas Education Agency (TEA). The FSP, in its current form, is meant to ensure that all school districts, regardless of property wealth, receive "substantially equal access to similar revenue per student at similar tax effort."

Free/Reduced Lunch	Percentages of students approved for free or reduced lunch at the school. The state takes the highest six months' average for funding purposes.
Full Time Equivalent (FTE)	This is the full time status of an employee. For example a full time employee is a 1.0 FTE and a half time employee is 0.5 FTE.
Fund Balance	See Fund Equity.
Fund Equity (resources)	Fund Equity is one indicator of the financial health and stability of a school district. A common misconception is that fund equity is surplus cash and therefore should correspond to the district's bank balance. Very simply stated, Fund Equity represents the excess of a district's assets over its liabilities (what the district owns minus what it owes). Cash is an asset, but is only one of many district assets – some others would include: accounts receivable, prepaid expenses, supplies, equipment and buildings.
Futures Academy	The HISD Futures Academy Program gives students the opportunity to earn an Associate's degree and valuable industry certifications in high-demand career fields while in high school at no cost.
Generally Accepted Accounting Principles (GAAP) for Governmental Entities	Generally Accepted Accounting Principles (GAAP) refer to the standard framework of guidelines for financial accounting used in any given jurisdiction; generally known as accounting standards. GAAP includes the standards, conventions, and rules accountants follow in recording and summarizing, and in the preparation of financial statements. The various rules and pronouncements come from the Financial Accounting Standards Board (FASB) - http://www.fasb.org/home - which is a non-profit organization that the accounting profession has created to promulgate the rules of GAAP reporting and to amend the rules of GAAP reporting as occasion requires.
Governmental Accounting Standards Board (GASB)	The Governmental Accounting Standards Board (GASB) is the independent organization that establishes and improves standards of accounting and financial reporting for U.S. state and local governments. Established in 1984 by agreement of the Financial Accounting Foundation (FAF) and 10 national associations of state and local government officials, the GASB is recognized by governments, the accounting industry, and the capital markets as the official source of generally accepted accounting principles (GAAP) for state and local governments.
Gifted and Talented (G/T)	A child or youth who performs at or shows the potential for performing at a remarkably high level of accomplishment when compared to others of the same age, experience, or environment and who:

Green Pioneer Award	The Texas Gulf Coast Chapter of the U.S. Green Building Council presented HISD with its Green Pioneer Award in recognition of the district's "unwavering dedication to building sustainable schools for generations."
Harris County Appraisal District (HCAD)	Assesses and collects the district's taxes. The district sets the tax rate and HCAD uses the tax rate to determine the taxes due to the district. HCAD is responsible for sending out the tax notices and collecting the taxes for the district.
Healthy, Hunger Free Kids Act of 2010	Federal legislation that authorizes funds and sets policy for the U.S. Department of Agriculture's core child nutrition programs, including the National School Lunch Program, the School Breakfast Program, among others.
Houston Galveston Area Council (H-GAC)	Houston Galveston Area Council is a region wide voluntary association of local governments. The 13-county H-GAC service region is growing, becoming more diverse, and constantly changing. In order to address the needs of citizens and businesses, local governments are providing leadership to guide regional development wisely and manage change constructively.
HISD Foundation	An independent 501 (c)(3) not-for-profit organization governed by a volunteer board of directors that partners with the HISD Superintendent and Board of Education to raise private funds to support HISD districtwide and school-based programs and initiatives.
Homestead Exemption	Reduction to the taxable value of a home as a primary residence to the taxpayer. The state has a state mandated amount of \$15,000 and the district currently provides an optional exemption of an additional 20%
International Baccalaureate Primary Years Program (IB PYP)	An educational program managed by the International Baccalaureate program for student aged 3 to 12 in subject areas including, language, social studies, mathematics, science and technology, arts, personal, social and physical education.
IDEA – Special Education	The Individuals with Disabilities Education Act (IDEA) is a United States federal law that governs how states and public agencies provide early intervention, special education, and related services to children with disabilities. It addresses the educational needs of children with disabilities from birth to age 18 or 21 in cases that involve 14 specified categories of disability.
Individualized Education Programs (IEP)	The Individualized Education Program (IEP) is developed by the ARD Committee. The IEP must include the special education and related services to be provided to the child to meet his or her unique needs.

Insurance Recovery Proceeds	Proceeds received from the insurance company for losses above the deductible the district is required to pay.
Instructional Practice (IP) Rubric	The Instructional Practice (IP) rubric is a tool developed and used by HISD when appraising teachers and determining professional expectations (PE).
Intergovernmental Charges	“Intergovernmental” is a classification that is appropriate where one governmental unit transfers resources to another. In particular, Chapter 41 purchase of WADA and the transfer of students where one school district pays another school district for educating students are examples of intergovernmental charges.
Internal Control Reviews	Reviews of whether or not the district's internal controls are providing the intended business process and preventing damage or loss to district assets.
Internal Controls	Designed to provide management with reasonable, but not absolute, assurance that assets are safeguarded.
Internal Service Funds	Provide services to campuses or departments through a fee for service program.
International Baccalaureate Program (IB)	The International Baccalaureate (IB) offers four high quality international education programs to more than one million students in 146 countries.
Intranet	The district's internal network. This is accessible on the local network or through a user account access from outside the local server.
Istation Reading	A comprehensive computer-based reading program used in HISD that maximizes students' reading fluency, comprehension and retention, and academic success
Levy	Value that the district will collect taxes on.
Limited English Proficiency (LEP)	Persons unable to communicate effectively in English.
Linked Learning Program	A district initiative to connect academics to real-world experiences by combining technical curricula with exposure to real-world professionals. The programs engages students in industry-themed program, such as engineering, arts and media, and biomedicine and health.
Literacy x 3 Program	A district-wide literacy initiative intended to increase student reading scores.
Maintenance and Operating (M&O) Rate	Tax rate for funding the district's maintenance and operations, not including the debt service.
Maintenance of Effort (MOE)	Refers to the Federal requirement that the district maintain the same funding level per special education student that it spent in the previous year.

Maintenance Response Team (MRT)	Routine and aesthetic issues classified as those which will be addressed by the Maintenance Response Team (MRT) or Preventative maintenance (PM) activities.
Mandatory Expenditure Levels	The state requires districts to spend a statutory minimum amount of the funds the district receives for special education, bilingual, gifted and talented, career and technology, and at-risk students.
Medicaid Fund	Used to account for the financial operation of special reimbursement programs offered by the District. For several years, the district has been a consultant to other school districts in a Medicaid reimbursement program which is a federal program that provides partial reimbursement for health care services to eligible children. In addition to processing its own internal Medicaid claims, the District currently provides Medicaid consulting services to other Texas school districts.
Meritorious Budget Award (MBA)	A prestigious award for excellence in budget presentation awarded by the Association of School Business Officials International. This award is conferred only to school entities that have met or exceeded the Meritorious Budget Award criteria.
Mexican American Legal Defense and Educational Fund (MALDEF)	Founded in 1968, MALDEF is the nation's leading Latino legal civil rights organization. Often described as the "law firm of the Latino community", MALDEF promotes social change through advocacy, communications, community education, and litigation in the areas of education, employment, immigrant rights, and political access.
Montessori Methods	Montessori is a revolutionary method of observing and supporting the natural development of children. Montessori educational practice helps children develop creativity, problem solving, critical thinking and time-management skills, to contribute to society and the environment, and to become fulfilled persons in their particular time and place on Earth. The basis of Montessori practice in the classroom is mixed age group (3 - 6 ages in one class), individual choice of research and work, and uninterrupted concentration. Group lessons are seldom found in a Montessori classroom, but learning abounds.
Moody's Corporation	A credit rating, research, and risk analysis firm. The Company provides credit ratings and related research, data and analytical tools, quantitative credit risk measures, risk scoring software, and credit portfolio management solutions and securities pricing software and valuation models.

National Assessment of Educational Progress (NAEP)	The National Assessment of Educational Progress (NAEP) is the largest nationally representative and continuing assessment of what America's students know and can do in various subject areas. The National Assessment Governing Board, appointed by the U.S. Secretary of Education but independent of the Department, sets policy for NAEP and is responsible for developing the framework and test specifications.
National Blue Ribbon Award	The National Blue Ribbon Schools Program recognizes public and non-public elementary, middle, and high schools where students achieve at very high levels and/or where the achievement gap is narrowing. The Program sets a standard of excellence for all schools striving for the highest level of achievement. The U. S. Department of Education bestows this award. For more information refer to http://www2.ed.gov/nationalblueribbonschools
National Center for Education Statistics (NCES)	National Center for Education Statistics (NCES) is the primary federal entity for collecting and analyzing data related to education in the U.S. and other nations. NCES is located within the U.S. Department of Education and the Institute of Education Sciences.
National Center for Educational Achievement (NCEA)	The National Center for Educational Achievement (NCEA) is a non-profit, non-partisan ACT organization whose mission is to help K-12 students reach College and Career Readiness (CCR). Reaching CCR requires rigorous academic preparation that should begin early during students' K-12 education. NCEA carries out data analysis, research, advocacy, and program development that promotes high academic standards and student achievement throughout K-12 to help more students reach college and career readiness.
National Percentile Ranking (NPR)	Percentiles are employed in evaluating standardized tests, measuring group performance and evaluating distribution of wealth across a population. On tests, a percentile is the percentage of scores less than a given score. Percentiles are useful for evaluating things such as test scores because they convert raw data into a simpler form that is easier to understand.
National School Breakfast and Lunch Program	The School Breakfast Program (SBP) provides cash assistance to States to operate nonprofit breakfast programs in schools and residential childcare institutions. The program is administered at the Federal level by FNS (Food and Nutrition Service). State education agencies administer the SBP at the State level, and local school food authorities operate it in schools.

National School Lunch Program (NSLP)	The National School Lunch Program (NSLP) is a federally assisted meal program operating in public and nonprofit private schools and residential child care institutions. It provides nutritionally balanced, low-cost or free lunches to children each school day. The program was established under the National School Lunch Act, signed by President Harry Truman in 1946.
National School Public Relations Association (NSPRA)	The NSPRA awards a Gold Medallion Award annually to recognize outstanding school public relations programs.
Newsweek's Top High School Rankings	For more than a decade, Newsweek has published an annual list of America's Top High Schools, ranked primarily according to a ratio of AP/IB exams to the number of students graduating.
Normal Curve Equivalent (NCE)	The NCE distribution is an equal-interval, continuous scoring scale, which is normalized and universal.
Notice of Grant Award (NOGA)	After submitting a grant application and negotiating an application to approval, TEA then awards the grant funds by issuing the Notice of Grant Award (NOGA). At that point the grant application becomes a contract describing a program that the school district is legally obligated to deliver.
Nutrition Services	The fund used to account for the district's food service activities at all HISD schools.
On-Behalf payments	Funds collected by the district on behalf of the employee and then sent to the Texas Retirement System (TRS).
Other financing sources	Includes such revenues as transfers from other funds, sale of bonds, and sales of assets. These items are outside of the regular local, state, and federal operating revenue the district receives.
Pay-As-You-Go capital program	Funds that are transferred from the general operating fund to the capital renovation fund and are for ongoing maintenance of the district's facilities. See the Capital Renovation Section for more information.
Pedagogy	Study of teaching methods, including the aims of education and the ways in which such goals may be achieved. The field relies heavily on educational psychology, or theories about the way in which learning takes place.
PowerUp	A district-wide initiative to transform teaching and learning through digital-age instruction, technology, and personalization.
Practicum	In a college or university- the part of a course consisting of practical work in a particular field.

Premium on Bond Sale	A bond premium is a bond that is trading above its par value. This bond premium will reduce the yield to maturity of the bond, while a bond discount will enhance its yield. The size of the premium will decline as the bond approaches maturity. The premium will dwindle to zero at maturity, since bond issues are generally redeemed at par.
Preliminary SAT/ National Merit Scholarship Qualifying Test (PSAT/NMSQT)	A standardized test administered by the College Board and cosponsored by the National Merit Scholarship Corporation. Scores from the PSAT/ NMSQT are used to determine eligibility and qualification for the National Merit Scholarship Program.
Public Education Information Management System (PEIMS)	PEIMS is a statewide data collection and reporting system operated by the Texas Education Agency. It includes extensive information on students, staffing, and school budgets/finances, and serves as the fundamental database for many statewide reports on public education. The fall PEIMS data submission date is in October of each year. Except where otherwise noted, student and position information is taken from this PEIMS database.
Public Facilities Corporation/ Public Facility Corporation (HISDPFC)	The Public Facility Corporation fund was established by the Houston Independent School District Public Facility Corporation (HISDPFC) in 1998. Currently it funds two high schools: Westide and Chavez; four elementary schools: DeAnda, Roosevelt, Peck, and Cunningham; and the Food Services Warehouse.
Pupil-Staff Ratio	A ratio of the number of students to staff in the district.
Permanent School Fund	An endowed fund established by the Texas Legislature for the benefit of Texas Public Schools. Revenues from the sale of certain state lands and mineral rights revenues are deposited into the PSF.
RDA Group	A global market research and consulting firm that conducted the "Your Voice" district survey. Originally founded in 1969 as Research Data Analysis, Inc. they changed their name in 1996 to the RDA Group.
Regular Program Adjustment Factor (RPAF)	With the passage of SB 1 (82-1), the Texas Legislature made several changes to school finance formulas. One of these changes codified the calculation of the regular program allotment, which is equal to a district's number of students in average daily attendance ¹ multiplied by the adjusted basic allotment and then by what is known as the regular program adjustment factor (RPAF). The RPAF has the effect of reducing the amount of funding school districts receive.

Reserved Fund Balance	The term reserve should be used in governmental fund financial reporting only to identify the portion of the fund balance that is not available for appropriation or expenditure, and/or legally earmarked for a specific future use - i.e., legal restriction on the use of assets.
Reserve for Operations	Reservation of 5% of the district's General Fund Budget that can only be used with a 2/3's vote of the Board of Education.
ROTC Reimbursement	The Federal Government reimburses the district for a portion of the salary of ROTC (Reserve Officers Training Corps.) qualified staff. The reimbursement is based on a Federal calculation of the amount the employee would have received if on active duty.
Response to Intervention (RTI)	Response to Intervention (RTI) is the practice of meeting the academic and behavioral needs of all students through a variety of services containing the following key elements: High-quality instruction and scientific research-based tiered interventions aligned with individual student need. Frequent monitoring of student progress to make results-based academic and/or behavioral decisions. Application of student response data to important educational decisions (such as those regarding placement, intervention, curriculum, and instructional goals and methodologies).
Responsive equilibrium	Responsive equilibrium represents the balance between the educational needs of students and the ability of the community and the state to provide the necessary financial support to serve them.
Scale Score	The basic score on any test is the raw score, which is simply the number of questions correct. A raw score can be interpreted only in terms of a particular set of test questions. Unlike raw scores, scale scores can be interpreted across different sets of test questions. Scale scores allow direct comparisons of student performance between specific sets of test questions from different test administrations. A scale score is a conversion of the raw score onto a scale that is common to all test forms for that assessment. The scale score takes into account the difficulty level of the specific set of questions on which it is based. It quantifies a student's performance relative to the passing standards or proficiency levels. (TEA Student Assessment Division).

Scholastic Assessment Test (SAT)	The SAT Reasoning Test (SAT) is a college-entrance exam developed by the SAT College Board. The SAT provides a standard by which the skills of students applying for colleges and universities can be compared nationally. Standardized tests are designed to allow college admissions officers to judge all students by a common measuring stick. Standardized test scores compensate for the uncertainty surrounding high school grades, school-to-school differences, grade inflation, and teaching quality, for example. The SAT was redesigned for 2005, and a writing section was included.
School Allocation Handbook	Provides details on how the district's per unit allocation for campuses is calculated and how a campus generates funds. This document is available on the district's Budgeting and Financial Planning website.
School Foundation Funding	The Foundation School Program (FSP) is the primary source of state funding for Texas school districts. The program is administered by the Texas Education Agency (TEA). The FSP, in its current form, is meant to ensure that all school districts, regardless of property wealth, receive "substantially equal access to similar revenue per student at similar tax effort."
Schools FIRST	The purpose of the Financial Accountability Rating System of Texas (Texas Administrative Code (TAC), Title 19, § 109.1001) is to ensure that school districts and open-enrollment charter schools are held accountable for the quality of their financial management practices and achieve improved performance in the management of their financial resources. The system is designed to encourage Texas public schools to manage their financial resources better in order to provide the maximum allocation possible for direct instructional purposes. The system will also disclose the quality of local management and decision-making processes that impact the allocation of financial resources in Texas public schools.
Schoolwires	Schoolwires is a content management system that will allow your department to create a robust public site that not only represents your office professionally, but also provides numerous tools to help maximize your web presence.
School-Within-A-School (SWAS)	An educational model that provides establishes a smaller educational unit with separate educational program within a school. The smaller unit typically maintains its own staff, students, and budget.

Science Technology Engineering Math (STEM)	The Science, Technology, Engineering, and Mathematics (STEM) Education Coalition works to support STEM programs for teachers and students at the U.S. Department of Education, the National Science Foundation, and other agencies that offer STEM related programs.
Shared Decision-Making Committee (SDMC)/ Site Based Decision Making (SBDM)	State established the SDMC in 1992. Site-based decision making (SBDM) is a process for decentralizing decisions to improve the educational outcomes at every school campus through a collaborative effort by which principals, teachers, campus staff, district staff, parents, and community representatives assess educational outcomes of all students, determine goals and strategies, and ensure that strategies are implemented and adjusted to improve student achievement.
Small School Subsidy	Additional funds received above the base per unit allocation for those campuses that fall below 500 students for elementary schools, 750 students for middle schools, and 1,000 students for High Schools. These funds are meant to assist these small schools in providing the same ancillary opportunities to students that larger campuses are able to provide.
Special Populations	Special populations refer to students that are in state specific categories. These include special education, career and technology, bilingual/esl, at-risk, and gifted and talented.
Special Revenue Fund	The fund that the district uses to account for all grants received by the district including all local, state, federal, and private grants received.
SRA's Corrective Reading Program	Science Research Associates is a Chicago-based publisher of educational materials and school-room reading comprehension products.
Standard Error of Measurement (SEM)	Standard error is a measure of uncertainty around an estimate.
State of Texas Assessments of Academic Readiness (STAAR)	Annual assessments implemented by the Texas Educational Agency in the following subject areas and grades: Reading and Mathematics, grades 3–8 , Writing at grades 4 and 7, Science at grades 5 and 8, Social Studies at grade 8, End-of-Course (EOC) assessments for English I, English II, Algebra I, Biology and U.S History
STAAR Standards	STAAR performance standards relate levels of test performance to the expectations defined in the state-mandated curriculum standards known as the Texas Essential Knowledge and Skills (TEKS). Cut scores established by the agency distinguish between performance levels, or categories. The process of establishing cut scores that define performance levels for an assessment is standard setting. Standard setting is also used to classify students into an appropriate performance category.

Standard & Poor's	With offices in 23 countries and a history that dates back more than 150 years, Standard & Poor's is known to investors worldwide as a leader of financial- market intelligence. Today Standard & Poor's strives to provide investors who want to make better informed investment decisions with market intelligence in the form of credit ratings, indices, investment research and risk evaluations and solutions.
Stanford and Aprenda Exams	Stanford 10 provides reliable data to help measure student progress toward content standards and high expectations. This multiple-choice assessment helps to identify student strengths and needs, leading to effective placement and instructional planning. Help Spanish-speaking students meet the challenging academic content and achievement standards that all students are expected to meet. Aprenda 3 mirrors the Stanford Achievement Test Series, Tenth Edition (Stanford 10), to provide the highest quality assessment of content standards. Hispanic educators assisted in the development of Aprenda 3 to ensure the test language used is culturally neutral.
State Charter Schools	To further promote local initiative, the 1995 revision of the Texas Education Code established a new type of public school, known as a charter school. Charter schools are subject to fewer state laws than other public schools with the idea of ensuring fiscal and academic accountability without undue regulation of instructional methods or pedagogical innovation. Like school districts, charter schools are monitored and accredited under the statewide testing and accountability system.
State Fiscal Stabilization Funds (SFSF)	The State Fiscal Stabilization Fund (SFSF) program is a new one-time appropriation of \$53.6 billion under the American Recovery and Reinvestment Act of 2009 (ARRA). Of the amount appropriated, the U.S. Department of Education will award governors approximately \$48.6 billion by formula under the SFSF program in exchange for a commitment to advance essential education reforms to benefit students from early learning through post-secondary education, including: college- and career-ready standards and high-quality, valid and reliable assessments for all students; development and use of pre-K through post-secondary and career data systems; increasing teacher effectiveness and ensuring an equitable distribution of qualified teachers; and turning around the lowest-performing schools.

State of Texas Assessments of Academic Readiness (STAAR)	Beginning in spring 2012, the State of Texas Assessments of Academic Readiness (STAAR™) replaced the Texas Assessment of Knowledge and Skills (TAKS). The STAAR program at grades 3-8 assesses the same subjects and grades that were assessed on TAKS. At high school level, however, grade-specific assessments will be replaced with five end-of-course (EOC) assessments: Algebra I, biology, English I, English II, English III, and U.S. History. Based on performance on the STAARs schools and districts in Texas receive one of four possible rankings: Exemplary, Recognized, Academically Acceptable, and Academically Unacceptable.
Summer Food Service Program	The Summer Food Service Program (SFSP) provides free, nutritious meals to help children in low-income areas get the nutrition they need to learn, play, and grow, throughout the summer months when they are out of school.
Targeted Assistance Program	A targeted assistance program directs services only to students identified as failing, or most at risk of failing, to meet the state's performance standards.
Target Revenue Reduction Factor (TRF)	A factor used by the Texas Education Agency in calculating state aid for a school district.
TAKS Accommodated Exams	The Texas Assessment of Knowledge and Skills (TAKS) measures a student's mastery of the state-mandated curriculum, the Texas Essential Knowledge and Skills (TEKS). TAKS includes a form called TAKS (Accommodated) for students receiving special education services who meet the eligibility criteria for specific accommodations. This is a general assessment based on the same grade-level academic achievement standards as TAKS. The TAKS (Accommodated) form includes format changes (larger font; fewer items per page) and contains no embedded field-test items. TAKS (Accommodated) is administered in the same grades and subjects as TAKS, including all Student Success Initiative (SSI) and exit level retest opportunities. (TEA 2011-2012 Accommodations Manual).
Tax Increment Funds	Taxes that are collected by the district and then remitted to another governmental entity (City of Houston for HISD) to redevelop a specific zone within the city or county. A portion of the funds are returned to HISD for instructional facilities within each zone. Tax increment financing is a tool that local governments can use to publicly finance needed structural improvements and enhanced infrastructure within a defined area, or tax increment reinvestment zone. The statutes governing tax increment financing are located in Chapter 311 of the Texas Tax Code.
Tax Increment Reinvestment Zones (TIRZ)	See Tax Increment Funds.

Taxable Assessed Valuation (TAV)	Total amount of taxable property the district is able to receive taxes on.
Tejas Lee-TPRI Pre-K & Kindergarten Assessment	The TPRI is a highly reliable early reading assessment designed to identify the reading development of students in kindergarten through third grade. This diagnostic instrument is an easy to use one-on-one assessment which helps teachers provide targeted instruction so that students improve as readers.
Texas Academic Performance Report (TAPR)	An annual report issued by the Texas Education Agency that compiles range of information on the performance of students in each school and district in Texas.
Texas Assessment of Knowledge and Skills (TAKS)	The Texas Assessment of Knowledge and Skills (TAKS) assessments are designed to measure the extent to which a student has learned and is able to apply the defined knowledge and skills at each tested grade level. This test has been replaced with the STAAR.
Texas Association of School Administrators (TASA)	The Association shall be a membership corporation, and is an affiliate of the American Association of School Administrators. The purpose of this organization shall be to promote the progress of education in the State of Texas.
Texas Connections Academy	Texas Connections Academy @ Houston (TCAH) is a tuition-free virtual school. TCAH gives students the flexibility to learn at home with a curriculum that meets rigorous state education standards
Texas Department of State Health Services Coordinated School Health (CSH)	A quality CSH program is an integrated set of planned, sequential, school-affiliated strategies, activities and services designed to promote the optimal physical, emotional, social and educational development of students.
Texas Education Agency (TEA)	The mission of the Texas Education Agency is to provide leadership, guidance and resources to help schools meet the educational needs of all students.
Texas Education Agency's Financial Accountability System Resource Guide	Guidelines for financial, procurement, student, budgeting, and other rules and procedures for district operations. Available on the Texas Education Website.
Texas Essential Knowledge and Skills (TEKS)	The grade-level content standards adopted by the Texas Legislature.
Texas Higher Education Coordinating Board (THECB)	The Texas Higher Education Coordinating Board's mission is to promote access, affordability, quality, success, and cost efficiency in the state's institutions of higher education, through Closing the Gaps and its successor plan, resulting in a globally competent workforce that positions Texas as an international leader in an increasingly complex world economy.

Texas Permanent School Fund (PSF)	The Texas Permanent School Fund (PSF) was created with a \$2,000,000 appropriation by the Texas Legislature in 1854 expressly for the benefit of the public schools of Texas. The Constitution of 1876 stipulated that certain lands and all proceeds from the sale of these lands should also constitute the PSF. Additional acts later gave more public domain land and rights to the PSF.
Texas Public School Retired Employees Group Insurance Program (TRS-Care)	It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.
Texas Title I Priority Schools (TTIPS)	The Texas Title I Priority Schools (TTIPS) Grant Program is funded by the federal NCLB Section 1003(g) and the American Recovery and Reinvestment Act Section 1003(g) School Improvement Grant appropriations. Campus eligibility for the program is defined in the U.S. Department of Education Final Regulations released Dec. 3, 2009, and amended by the 2010 Appropriations Act.
Texas Virtual School Network (TxVSN)	The Texas Virtual School Network is a clearinghouse of rigorous online courses offered by approved providers. Because the Texas Education Agency approves all courses, students can be assured that courses meet the state's high standards for teaching and learning.
Twilight High Schools	Twilight or Flex High Schools offer courses to complete a high school diploma featuring non-traditional hours, online, self-paced coursework guided by and supported by knowledgeable, caring teachers at various locations around the city.
Understanding the Budget Coding Process Handbook	Manual used by schools and departments to understand the HISD budget coding and position management processes in HISD.
Undesignated Fund Balance	Represents the portion of fund balance that is available for budgeting in future periods.
Unique Per Unit Allocation (PUA) Schools	Additional per unit allocation received by some district campuses due to additional costs for running those programs. For example the Houston School for the Visual and Performing Arts (HSPVA) and the DeBakey High School for Health Professionals both receive an additional PUA for operating their programs.

Vanguard Magnet Program	These district wide Vanguard Magnet programs are designed to meet the needs of G/T students in grades K-12 by providing a learning continuum that is differentiated in depth, complexity, and pacing.
Vanguard Neighborhood Programs	These programs are designed to meet the needs of the G/T students at their neighborhood, zoned school or Magnet school.
Washington Post High School Challenge	The Washington Post ranks the most challenging high schools in America through an index formula that's a simple ratio: the number of Advanced Placement, International Baccalaureate and Advanced International Certificate of Education tests given at a school each year, divided by the number of seniors who graduated that year. A ratio of 1.000 means the school had as many tests as graduates.
WOW Videos	"Within Our Walls" posted to the district's website throughout the year.

HISD | Budgeting & Financial Planning

FISCAL EXCELLENCE. SERVICE DRIVEN.

It is the policy of the Houston Independent School District not to discriminate on the basis of age, color, handicap or disability, ancestry, national origin, marital status, race, religion, sex, veteran status, political affiliation, sexual orientation, gender identity and/or gender expression in its educational or employment programs and activities.
